Rising Middle Power:

Middle Powers and the Rise of China Bruce Gilley, Andrew O'Neil, 2014-09-10 China's rise is changing the dynamics of the international system. *Middle Powers and the Rise of China* is the first work to examine how the group of states referred to as middle powers are responding to China's growing economic, diplomatic and military power. States with capabilities immediately below those of great powers, middle powers still exercise influence far above most other states. Their role as significant trading partners and allies or adversaries in matters of regional security, nuclear proliferation and global governance issues such as human rights and climate change are reshaping international politics. Contributors review middle power relations with China in the cases of South Korea, Malaysia, Thailand, Indonesia, Australia, South Africa, Turkey and Brazil, addressing how these diverse nations are responding to a rising China, the impact of Chinese power on each and whether these states are being attracted to China or deterred by its new power and assertiveness. Chapters also explore how much or how little China and, for comparison, the US value middle powers and examine whether or not middle powers can actually shape China's behavior. By bringing a new analytic approach to a key issue in international politics, this unique treatment of emerging middle powers and the rise of China will interest scholars and students of international relations, security studies, China and the diverse countries covered in the book.

India: A Rising Middle Power John W. Mellor, 2019-04-11 This volume discusses topics important to understanding the basis of India's global role. They illuminate a spectrum of the components of India's modernizing growth in domestic politics and international relations, economic growth and trade and science and technology, including nuclear prospects.

Rethinking Middle Powers in the Asian Century Tanguy Struye de Swielande, Dorothée Vandamme, David Walton, Thomas Wilkins, 2018-09-27 The term middle power is conceptually fragile. Some scholars have even argued for abandoning it. This book argues that the concept needs to be analysed more profoundly and that new analytical tools need to be developed to better understand the phenomenon. The traditional approach based on Western states is insufficient and has become increasingly irrelevant in a transformed global environment. Instead of drawing from a single theory of international relations, the contributors have chosen to build upon a wide range of theories in a deliberate demonstration of analytic eclecticism. A pluralistic approach provides stronger explanations while remaining analytically and intellectually rigorous. Many of the theory contributions are reconsidering how the largely Western bases of such theorising need revising in light of the emerging middle powers, many of which are in Asia. Presenting a strong argument for studying middle powers, this book explores both the theory and empirical applications of the concept by rethinking the definition and characteristics of middle powers using a range of case studies. It examines changes in the study of middle powers over the last decade, proposing to look at the concept of middle powers in a coherent and inclusive manner. Finally, it aims to further the discussion on the evolution of the international system and provides sound conclusions about the theoretical usefulness and empirical evolution of middle powers today.

Brazil as a Rising Power Kai Michael Kenkel, Philip

Cunliffe,2016-01-08 This book examines the normative tensions inherent in upward mobility within the international system focusing particularly on the clash between sovereign self interest and the putatively universal norms associated with international interventions It provides extensive detail and deep analysis of Brazil s nature as a rising power and that nature s implications for how the country crafts its international profile on issues such as intervention In addition the book proposes innovative ways of re organising thematic conceptual and empirical research on the normative behaviour of emergent powers with regard to institutions of global governance and questions of intervention In analysing what distinguishes Brazil as a rising power the contributors begin from the assumption that participation in intervention is an increasingly crucial element in demonstrating the capacity and responsibility for which demand accrues as a state seeks increased international profile As such the debates around intervention serve as an indicative locus for examining the clash of norms that accompanies emergence as a global player The book s approach is to organise the analysis around thematic rather than chronological or praxis based lines using the Brazilian case as an illustrative example capable of extrapolation to other emerging powers such as Turkey India and others This work draws together rich empirical detail with sophisticated and varied conceptual analysis and will be of interest to scholars of international relations Latin American politics and global governance **Middle**

Powers in Global Governance Emel Parlar Dal,2018-05-01 This volume summarizes synthesizes updates and contextualizes Turkey s multiple roles in global governance As a result of various political economic cultural and technological changes occurring in the international system the need for an effective and appropriate global governance is unfolding In such an environment Turkey s and other rising middle powers initiatives appear to be indispensable for rendering the existing global governance mechanisms more functional and effective The authors contribute to the assessment of changing global governance practices of secondary and or middle power states with a special focus on Turkey s multiple roles and issue based global governance policies [The Rise of China and the China-Russia Strategic Partnership](#) Lei Yu,2025-02-08 This

book argues that China s quest for a strategic partnership with Russia reveals the country s desire to create a geopolitical environment in favour of their country s re emergence as a great power at the systemic global level The partnership with its no limit is expected to help China counterbalance its perceived US containment and reshape the US dominated world order By intensifying Sino Russian economic and energy cooperation and trade in the framework of the partnership China attempts to gain entry to Russia s markets and particularly its energy resources to sustain its economic growth that is viewed by Deng Xiaoping as the basis underlying China s hard power and particularly its military capabilities By intensifying their military collaboration China seeks to gain entry to Russia s military weaponry and technology for the modernization of the People s Liberation Army PLA and work together with Russia to contain their perceived US unilateralism hegemonism and interventionism The Chinese foreign policy elites increasingly view US unilateralism and hegemonism as detrimental to China s core interests e g its territorial integrity and national rejuvenation This sheds light on why the Chinese foreign policy

elites conceive the China Russia partnership as vital for China's peaceful development commonly known as peaceful rise overseas and the ballast stone for global peace and strategic stability This book will be of interest to sinologists and scholars of China's foreign policy Non-Western Middle Powers in the Multipolar Order Hanna Samir Kassab, Natalie Ann Ghosn, 2025-08-05

Non Western Middle Powers in the Multipolar Order explores the changing international order articulating the critical and growing importance of non Western states to the emerging global order It brings together international scholars to provide new insights on the evolution of international order as global politics moves from an American Western dominated one to one where major players are from the Global South They present evidence from Brazil Turkey Saudi Arabia the UAE and India which help explain analyze and understand the main political security and economic challenges in these countries Questions asked include What factors explain the rise of new non Western middle powers How would theories of international relations specifically realism liberalism and Marxism change due to their rise How would the rise of these non Western middle powers shape the emerging multipolar order An invaluable collection for scholars and students of International Relations and International Security that will also be of great interest to scholars with a broader interest in the ever evolving world order **Security Strategies of Middle Powers in the Asia Pacific** Ralf

Emmers, Sarah Teo, 2018-02-05 Security Strategies of Middle Powers in the Asia Pacific examines what drives the different regional security strategies of four middle powers in the Asia Pacific Australia Indonesia South Korea and Malaysia Drawing on the extant middle power literature the authors argue that the regional security strategies of middle powers could take two forms namely functional or normative A functional strategy means that the middle power targets its resources to address a specific problem that it has a high level of interest in while a normative strategy refers to a focus on promoting general behavioural standards and confidence building at the multilateral level This book argues that whether a middle power ultimately employs a more functional or normative regional security strategy depends on its resource availability and strategic environment **Diplomatic Strategies of Rising Nations in the Global South** Jacqueline Anne

Braveboy-Wagner, 2024-07-12 At a time of change in the international system this book examines how non traditional leading nations from the Global South have fared to date and what the chances are of their rise to continue In the second decade of the twenty first century the enthusiasm of observers of the international scene about the rise of the rest is waning as many countries that were expected to lead the evolving multipolar order are experiencing economic contraction and governance problems In order to predict further developments the contributors to this volume focus on the types and sources of the diplomatic strategies that must be executed by rising states if they are to preserve domestic advances as well as gain influence regionally and internationally Through a comprehensive examination of case studies from Latin America Africa Asia and the Middle East they show that while there are commonalities among these rising states unique domestic conditions values and traditions impact and predict diplomatic strategizing and the ability for sustained projection on the international

scene **Korea's Middle Power Diplomacy** Seungjoo Lee, Sangbae Kim, 2022-05-17 This volume discusses Korea's role as a middle power in the midst of the 21st century global power shift. Focusing on Korea's middle power diplomacy from the perspective of coalition building, the book discusses structural factors that shape middle power strategy and diplomacy. Written by leading Korean researchers, the chapters use diverse methodologies to offer a range of perspectives on Korea's place in the developing global order. Topics discussed include South Korea's approach to technology policy in the midst of US-China cyber competition, the East Asian Thucydides Trap, MITKA and middle power diplomacy, Korea's role in the South China Sea dispute and South Korean cyber security. Providing a unique treatment of middle power opportunities and motivations in the East Asia region, this volume will be of interest to students and scholars of international relations, Asian politics, diplomacy, security studies and global governance.

Brazil's International Activism Monika Sawicka, 2023-06-30 In *Brazil's International Activism*, Monika Sawicka questions how Brazil's deep-rooted craving for greatness has led to the quest for status in the twenty-first century and contends that the categorization of Brazil as an emerging middle power enriches the understanding of modern Brazilian foreign policy. Drawing on the rich vocabulary of role theory, Sawicka sets out to establish an original theoretical framework that comprises the structural status, the behavioral role and the cognitive ideational identity to assess whether Brazil has performed roles distinguishing a middle power and how the state has reconceptualized them. The model is applied to scrutinize how ideational and material drivers impacted Brazil's engagement as an integrator in Latin America, donor in Africa, mediator in the Middle East and coalition builder of developing states in global fora. Despite recent criticism of the concept of emerging middle powers, Sawicka argues that Brazil's international activism stands as a precise embodiment of such a power. With an aim of theory development and contributing to the debate on Brazil's international standing, *Brazil's International Activism* provides a much required reinterpretation of Brazilian foreign policy which will be of interest to scholars and students of Foreign Policy Analysis, International Relations and Latin American Studies.
