Patriotism and Poetry in Eighteenth-Century Britain Dustin Griffin, 2005-11-17 The poetry of the mid and late eighteenth century has long been regarded as primarily private and apolitical in this wide ranging study Dustin Griffin argues that in fact the poets of the period were addressing the great issues of national life rebellion at home imperial wars abroad an expanding commercial empire an emerging new British national identity Taking up the topic of patriotic verse Griffin shows that poets such as Thomas Gray Christopher Smart Oliver Goldsmith and William Cowper were engaged in the century long debate about the nature of true patriotism *Poetry of Attention in the Eighteenth Century* M. Koehler, 2015-12-17 By identifying a pervasive cultivation of attention as a perceptual and cognitive state in eighteenth century poetry this book explores overt themes of attention and demonstrate techniques of readerly attention Philosophical Connections Chris Townsend, 2022-05-19 Neoclassical and Romantic verse cultures are often assumed to sit in an oppositional relationship to one another with the latter amounting to a hostile reaction against the former But there are in fact a good deal of continuities between the two movements ones that strike at the heart of the evolution of verse forms in the period This Element proposes that the mid eighteenth century poet Mark Akenside and his hugely influential *Pleasures of Imagination* represent a case study in the deep connections between Neoclassicism and Romanticism Akenside's poem offers a vital illustration of how verse was a rival to philosophy in the period offering a new perspective on philosophic problems of appearance or how the world seems to be What results from this is a poetic form of knowing one that foregrounds feeling over fact that connects

Neoclassicism and Romanticism and that Akenside called the imagination's pleasures **Encyclopedia of British Writers, 16th, 17th, and 18th Centuries** Book Builders LLC., 2005 Presents a two volume A to Z reference on English authors from the sixteenth seventeenth and eighteenth centuries providing information about major figures key schools and genres biographical information author publications and some critical analyses **Eighteenth-Century Stoic Poetics** Alexandra Bacalu, 2023-03-20 Eighteenth Century Stoic Poetics Shaftesbury Akenside and the Discipline of the Imagination offers a fresh perspective on the eighteenth century poetics of Lord Shaftesbury and Mark Akenside This book traces the two authors debt to Roman Stoic spiritual exercises and early modern conceptions of the care of the self which informs their view of the poetic imagination as a bundle of techniques designed to manage impressions cultivate right images in the mind and rectify judgement Alexandra Bacalu traces the roots of this articulation in early modern writings on the imagination as well as in Restoration and Augustan debates on wit exploring the fruitful tension between ideas of imaginative enthusiasm and imaginative regulation that it provokes **Coleridge's Political Poetics** Jacob Lloyd, 2023-12-18 This book considers Samuel Taylor Coleridge's engagement with Whig poetry a tradition of verse from the eighteenth century which celebrated the political and constitutional arrangements of Britain as guaranteeing liberty It argues that during the 1790s Coleridge was able to articulate radical ideas under the cover of widely accepted principles through his references to this poetry He positioned his poetry within a mainstream discourse even as he favoured radical social change Jacob Lloyd argues that the poets Mark Akenside William Lisle Bowles and William Cowper each provided Coleridge with a kind of Whig poetics to which he responded When these references are understood much of Coleridge's work which seems purely personal or imaginative gains a political dimension In addition Lloyd reassess Coleridge's relationship with Thomas Percy's *Reliques of Ancient English Poetry* to provide an original political reading of *The Rime of the Ancient Mariner* This book revises our understanding of the political and poetic development of a major poet and in doing so provides a new model for the origins of British Romanticism more broadly Scottish Medicine and Literary Culture, 1726-1832 Megan J. Coyer, David E. Shuttleton, 2014-11-01 Scottish Medicine and Literary Culture 1726 1832 examines the ramifications of Scottish medicine for literary culture within Scotland throughout Britain and across the transatlantic world The contributors take an informed historicist approach in examining the cultural geographical political and other circumstances enabling the dissemination of distinctively Scottish medico literary discourses In tracing the international influence of Scottish medical ideas upon literary practice they ask critical questions concerning medical ethics the limits of sympathy and the role of belles lettres in professional self fashioning and the development of medico literary genres such as the medical short story physician autobiography and medical biography Some consider the role of medical ideas and culture in the careers creative practice and reception of such canonical writers as Mark Akenside Robert Burns Robert Fergusson Sir Walter Scott and William Wordsworth By providing an important range of current scholarship these essays represent an expansion and greater

penetration of critical vision Megan J Coyer is a Wellcome Trust Research Fellow in Medical Humanities within the School of Critical Studies at the University of Glasgow David E Shuttleton is Reader in Literature and Medical Culture within the School of Critical Studies at the University of Glasgow

Political Aesthetics Karl Axelsson, 2019-08-22 Providing a gateway to a new history of modern aesthetics this book challenges conventional views of how art's significance developed in society The 18th century is often said to have involved a radical transformation in the concept of art from the understanding that it has a practical purpose to the modern belief that it is intrinsically valuable By exploring the ground between these notions of art's function Karl Axelsson reveals how scholars of culture made taste morals and a politically stable society integral to their claims about the experience of nature and art Focusing on writings by two of the most prolific men of letters in the 18th century Joseph Addison 1672 1719 and the third Earl of Shaftesbury 1671 1713 Axelsson contests the conviction that modern aesthetic autonomy reoriented the criticism and philosophy originally prompted by these two key figures in the history of aesthetics By re-examining the political relevance of Addison and Shaftesbury's theories of taste Axelsson shows that first and foremost they sought to fortify a natural link between aesthetic experience and modern political society
