Bearden, Richard G. Netemeyer, Kelly L. Haws, 2010-12-10 The Handbook of Marketing Scales Third Edition represents a clear concise and easy to use compilation of multi item self report measures developed and or frequently used in consumer behavior and marketing research Over 150 scales are included in the handbook Many of these scales were originally published in marketing and consumer related journals or conference proceedings Including them in one volume helps reduce the time it takes to locate instruments for survey research Scales included have a reasonable theoretical base are developed within the marketing or consumer behavior literature are composed of several items or questions use some scaling procedures and include estimates of reliability and or validity making these scales especially relevant and proven for marketing scholars and professionals Each scale includes the following information so that users can quickly and easily learn about the scale construct description development samples validity scores sources other evidence other sources references and scale items Marketing Scales Handbook Gordon C.
