business activities

Peace of Mind for Your Aging Parents Kenneth O. Doyle Ph.D., Larry K. Houk JD, 2018-06-21

Explains the most effective ways to discuss the legal and financial responsibilities that come with the end of life and tools for managing them such as wills trusts estate planning and cash management in the context of financial psychology Dying is complicated It presents myriad challenges at a time when people are least prepared to deal with complexity Typically aging people turn to their adult children and grandchildren their caregivers and their professional advisors to guide them in their final years This book is aimed directly at the children and grandchildren of aging parents to prepare them for meaningful conversations with their parents and among themselves It gives them the tools they need to communicate knowledgeably with caregivers and professional advisors and to make important decisions with or on behalf of those who depend on them The authors provide legal and financial tools and techniques including wills and trusts cash management and investment planning approaching each from both a financial and a psychological perspective They recognize that some of the challenges that people face during their last few years of life cannot be controlled and describe not only what these tools and techniques can do but also what they cannot Those that cannot be controlled however can still be managed and the authors explain with clarity and compassion how to deal with them through psychological and spiritual engagement

Personal Branding for Entrepreneurial Journalists and Creative Professionals

Sara Kelly, 2017-04-21 *Personal Branding for Entrepreneurial Journalists and Creative Professionals* outlines and describes the complete process of building and growing a successful personal brand. Focused on the independent journalist or creative professional in the new digital marketplace, Sara Kelly gives readers the ability to create the sort of personal brand that not only stands out but remains relevant for years to come. Features such as exercises and worksheets will guide readers in creating the various components of their personal brand and case studies of real world branding scenarios will allow readers to analyze the practical aspects of implementing a personal brand. Covering theory and practice, this text is a powerful resource for modern journalists, multimedia storytellers and content creators hoping to ply their talents online and beyond.

The Handbook of Insurance-Linked Securities Pauline Barrieu, Luca Albertini, 2010-06-15 Luca Albertini and Pauline Barrieu are to be congratulated on this volume. Written in a period where structured projects in finance are having a difficult time, it is worthwhile to return to the cradle of securitisation: insurance. Spread out over three parts: life, non-life and tax and regulatory issues, the 26 chapters written mainly by practitioners give an excellent overview of this challenging field of modern insurance. Methodology and examples nicely go hand in hand. The overall slant is towards actual analyses of concrete products. No doubt this book will become a milestone going forward for actuarial students, researchers, regulators and practitioners alike. Paul Embrechts, Professor of Mathematics and Director of RiskLab, ETH Zurich. The convergence of insurance with the capital markets has opened up an alternative channel for insurers to transfer risk, raise capital and optimize their regulatory reserves as well as offering institutions a source of relatively liquid investment with limited correlation with other exposures. One of the financial instruments allowing for the cession of insurance-related risks to the capital markets is Insurance-Linked Securities (ILS). This book provides hands-on information essential for market participants, drawing on the insights and expertise of an impressive team of international market players representing the various aspects and perspectives of this growing sector. The book presents the state of the art in Insurance-Linked Securitization by exploring the various roles for the different parties involved in the transactions, the motivation for the transaction, sponsors, the potential inherent pitfalls, the latest developments and transaction structures and the key challenges faced by the market. The book is organized into parts, each covering a specific topic or sector of the market. After a general overview of the ILS market, the Insurance-Linked Securitization process is studied in detail. A distinction is made between non-life and life securitization due to the specificities of each sector. The process and all the actors involved are identified and considered in a comprehensive and systematic way. The concepts are first looked at in a general way before the analysis of relevant case studies where the ILS technology is applied. Particular focus is given to the key stages in both non-life and life securitizations, including the general features of the transactions, the cedant's perspectives, the legal issues, the rating methodologies, the choice of an appropriate trigger and the risk modeling, the particular challenges related to longevity securitization, the investor's perspective and the question of the management of a portfolio of ILS, the general issues related to insurance-linked

securitization such as accounting and tax issues regulatory issues and solvency capital requirements The book is accompanied by a website www.wiley.com/go/albertini_barrieu_ILS which will feature updates and additions to the various contributions to follow market developments

Education Policy Outlook 2022 Transforming Pathways for Lifelong Learners OECD,2022-11-21 Building on the OECD s Framework of Responsiveness and Resilience in Education Policy as well as analysis of international policies and practices from over 40 education systems this report identifies three policy areas that education policymakers can undertake in 2023 1 enhancing the relevance of learning pathways 2 easing transitions throughout learners pathways and 3 nurturing learners aspirations Lessons emerging from recent policy efforts are synthesised into key policy pointers for 2023
