Marriage According To The New Code Of Canon Law:

Marriage According to the New Code of Canon Law Bernard A. Siegle, 1986 *New Commentary on the Code of Canon Law* John P. Beal, James A. Coriden, Thomas Joseph Green, 2000 An entirely new and comprehensive commentary by canon lawyers from North America and Europe with a revised English translation of the code Reflects the enormous developments in canon law since the publication of the original commentary A Commentary on the New Code of Canon Law Charles Augustine (Rev. P., O.S.B.), 1920 The New Canon Law Stanislaus Woywod, 1918 **Marriage Legislation in the New Code of Canon Law** Henry Amans Ayrinhac, 1918 **The New Catholic Dictionary** Condé Benoist Pallen, John Joseph Wynne, 1929 The United States Catalog, 1921 *American Ecclesiastical Review* Herman Joseph Heuser, 1925 **Canon 1096 on Ignorance with Application to Tribunal and Pastoral Practice** Girard M. Sherba, 2001

Before Vatican II marriage was often considered or at least popularly expressed as a union of bodies that is to say marriage was an exclusive contract by which a man and a woman mutually handed over their bodies for the purpose of acts which led to the procreation of children Matrimonial jurisprudence was primarily focused on this marital contract With the advent of Vatican II and its emphasis on the personalist notion of marriage a new age dawned whereby canonists especially auditors of the Roman Rota were henceforth to view marriage as a union of persons Person is more than a body rather a person is an individual consisting of wants needs desires impulses hopes and dreams whose life experience has been shaped by the milieu cultural familial religious from which he or she comes Union is not only simply understood as a contract but also is now once again recognized as a covenant a concept which at least in the Latin Church was prevalent until the 12th century One of the canons of the 1983 CIC although almost identical in wording to its predecessor in the 1917 CIC but which now must be understood and interpreted in light of the teachings of Vatican II is canon 1096 which pertains to the effect of ignorance on matrimonial consent Given the current appreciation of marriage founded in the teachings of Vatican II especially in *Gaudium et spes* reiterated by Popes Paul VI and John Paul II and described in the Catechism of the Catholic Church complicated by today's western society's stress on individualism and permeated by a divorce mentality what is the impact of this canon on matrimonial consent How can its meaning once understood as being wider than merely the sexual act itself be better utilized by those in tribunal ministry This is the major thrust of the present work The research of the history and development of the concept of ignorance in canonical writings how its understanding broadened especially after Vatican II and our conclusions on how to apply its richness to marriage nullity led us to expand the use of this canon how it can aid in the development of pre marital preparation programs which would not only possibly help prevent couples from being ignorant of the essence of marriage but also help them to appreciate this richness more deeply in their own lives so that marriage truly can become as we read in canon 1055 a partnership of the whole of life which is ordered by its nature to the good of the spouses and the procreation and education of offspring It is our sincere hope that this study with its extensive footnotes and up to date

bibliography will not only be of benefit to all who read it but also will serve as a spring board for further discussion and use of this canon as a ground for nullity and other pastoral uses

Divine Promise and Human Freedom in Contemporary Catholic Thought Kevin A. McMahon, 2015-07-01 It has always been understood that the central claim of Christianity that Jesus born of Mary is the Son of God is as much a declaration of the mystery of the human as it is the mystery of God just as the claim that in virtue of this identity he is the Christ who restores and more transforms the created order intensifies the mystery of the human even further When the age of revolution was followed by the age of science and the effort to shape the environment by technology was joined by an injunction to shape societies and economies and class conflicts became part of world conflicts the question about the human emerged as a crisis in the meaning of being human Yet the Catholic mind preoccupied like every other with the crisis has conducted its reflection within a tradition of Christian humanism insisting on the mystery and the tragedy and still the dignity of the human This collection of essays by thirteen Catholic scholars of philosophy theology and political thought investigates a range of topics from human sexuality and marriage to moral freedom and responsibility in a pluralistic society while demonstrating that the Gospel passed on in an ecclesial tradition entered into through a sacramental tradition remains the one radical source of confidence in the quest for human truth

The Ecclesiastical Review , 1918

Modern Moral Problems William B. Smith, 2012-01-01 Modern Moral Problems addresses moral quandaries that can beguile and confuse faithful Catholics Written in a question and answer format the book covers questions regarding sexuality medical ethics business practices civic responsibilities and the sacramental life of the Church The extraordinary assortment of issues forming a single organized collection is a valuable reference for anyone seeking clear and concise answers to tough moral questions Written in a conversational tone often spliced with humor this work by a highly respected moral theologian will be read with fascination for its clarity of argument and fundamental good sense Originally published as a monthly question and answer column in a magazine for priests these selections by Msgr William B Smith retain a striking current topicality Msgr Smith often tackled matters of controversy in the Catholic Church ones which continue to draw conflicting opinions Interesting informative and eminently practical this book conveys an overall impression that sound thinking about morality is rooted in a tradition within the Catholic Church even when the answers to particular moral questions cannot be found in catechisms or Vatican documents Msgr Smith offers a clear headed approach to the quandaries of our time precisely because of his training in traditional moral principles and his fidelity to the Catholic magisterium This book should be in the possession of all seminarians and priests who are bound to confront moral matters that are not so easily decided at first glance But lay people too will find here rich responses to the challenging and sometimes unresolved moral questions they encounter in their own lives

Family Law in Syria Esther van Eijk, 2016-05-18 The current Syrian crisis has its roots in the sectarian nature of the country's multi religious society Since Ottoman times the different religious communities have enjoyed the right to regulate and administer their own family relations Matters of

personal status including marriage divorce child custody and inheritance continue to be managed by a variety of religious laws and courts operating simultaneously within the legal system of the state However this complex system of competing jurisdictions has also affected inter communal relations and has been used to deepen communal divides Esther van Eijk discusses socio legal practices in Syria by focusing on three courts a shar'iyya a Catholic court and a Greek Orthodox court While the plurality of Syrian family law is clear she shows how irrespective of religious affiliation it is nevertheless characterised by the prevalence of shared cultural or patriarchal views and norms on marital relations family and gender Based on extensive fieldwork Family Law in Syria offers a detailed analysis of a country that has in recent years been inaccessible to researchers The book is a vital contribution to the growing literature on personal status laws in the Middle East and sheds light on the historical socio political and religious complexities and fault lines that mark contemporary Syria

The Resurrection of the Roman Catholic Church Griff Ruby,2002 For nearly twenty centuries the Roman Catholic Church withstood all the currents of change and history and maintained a closely guarded orthodoxy which has always served as the basis and center of all Christianity Yet it is as if all of that has been just arbitrarily swept away in the few years since Vatican II Given what the Church has always taught about itself being indefectible how could this have happened Did that Council have something to do with that terrible loss of faith Can the real Catholicism be found today and if so where The shocking answer to this once seen and truly understood is as every bit as glorious as the original resurrection of Christ Himself a tremendous source of faith and inspiration It is a broad based longstanding miracle passing right before our eyes have we
