Clerical Celibacy in the West: c.1100-1700 Helen Parish, 2016-05-23 The debate over clerical celibacy and marriage had its origins in the early Christian centuries and is still very much alive in the modern church The content and form of controversy have remained remarkably consistent but each era has selected and shaped the sources that underpin its narrative and imbued an ancient issue with an immediacy and relevance The basic question of whether and why continence should be demanded of those who serve at the altar has never gone away but the implications of that question and of the answers given have changed with each generation In this reassessment of the history of sacerdotal celibacy Helen

Parish examines the emergence and evolution of the celibate priesthood in the Latin church and the challenges posed to this model of the ministry in the era of the Protestant Reformation Celibacy was and is intensely personal but also polemical institutional and historical Clerical celibacy acquired theological moral and confessional meanings in the writings of its critics and defenders and its place in the life of the church continues to be defined in relation to broader debates over Scripture apostolic tradition ecclesiastical history and papal authority Highlighting continuity and change in attitudes to priestly celibacy Helen Parish reveals that the implications of celibacy and marriage for the priesthood reach deep into the history traditions and understanding of the church *T&T Clark Handbook of Sacraments and Sacramentality* Martha Moore-Keish, James Farwell, 2022-12-29 Introducing readers to the contemporary field of sacramental theology this volume covers the biblical and historical foundations a survey of the state of the discipline and a collection of constructive essays representing major themes practices and approaches to sacraments and sacramentality in the contemporary world The volume starts with a set of foundational essays that offer broad introduction to the field of sacramental theology from contemporary scholars analysing a number of historical figures in order to illumine and inform contemporary sacramental theology The second part of the volume is dedicated to a series of essays on sacramentality and includes attention to elements of space time ritual action music and word all as aspects of what Christians have termed sacramental reality The third set of essays includes attention to each of the seven practices that have most commonly been termed sacraments in Christian traditions baptism eucharist Lord's Supper confirmation confession forgiveness and reconciliation marriage ordination and anointing The final part of this volume features scholars who are working on sacraments in conversation with contemporary academic disciplines critical race theory queer theory comparative theology and disability studies **The New Schaff-Herzog Encyclopedia of Religious Knowledge** Johann Jakob Herzog, Albert Hauck, Samuel Macauley Jackson, Charles Colebrook Sherman, George William Gilmore, 1910 *Oaths and Vows* Adam B.
