**Counting the Miracles: Jewish Thought, Mysticism, and the Arts from Late Antiquity to the Present** Silvana Greco, Judith Olszowy-Schlanger, 2025-05-19 In honor of the writings of Giulio Busi scholar of Jewish culture the book investigates from a multidisciplinary perspective the extraordinary richness of Jewish culture in the Diaspora from antiquity to the latter part of the 20th century A number of rabbinic writings medieval manuscripts from the South of France visual qabbalah the Yiddish language artistic expressions as well as the philosophical and social traditions of some prominent twentieth century figures will be explored While the Jewish cultural tradition has always incorporated the cultural influences of the broader socio historical context in which it was embedded it has in turn been a source of inspiration for the intellectual life of the majority society In this regard the volume will examine the fruitful mutual exchange between Jewish scholars and Christian humanists during the Renaissance However the life of Jews in the Diaspora did not always take place in a context of peaceful integration It was punctuated by harsh confrontations and persecution Finally the book will illustrate how precisely during the darkest and most tragic period of the 20th century Jewish culture was an important tool of resistance and struggle against Nazi Fascism **Sovereignty and Religious Freedom** Ann Schmiesing, 2024-11-26 A comparative legal history of Jewish sovereignty and religious freedom illuminating the surprising ways that collective and individual rights have evolved over the past two centuries It is a common assumption that in Israel Jews have sovereignty and in most other places where Jews live today they have religious freedom instead As Simon Rabinovitch shows in this original work the situation is much

more complicated Jews today possess different kinds of legal rights in states around the world some stem from religious freedom protections and others evolved from a longer history of Jewish autonomy By comparing conflicts between Jewish collective and individual rights in courts and laws across the globe from the French Revolution to today this book provides a nuanced legal history of Jewish sovereignty and religious freedom Rabinovitch weaves key themes in Jewish legal history with the individual stories of litigants exploring ideas about citizenship and belonging who is a Jew what makes a Jewish family and how to define Jewish space He uses recent court cases to explore problems of conflicting rights and then situates each case in a wider historical context This unique comparative history creates a global picture of modern legal development in which Jews continue to use the law to carve out surprising forms of sovereignty **Poland under German Occupation, 1939-1945** Jonathan Huener, Andrea Löw, 2024-01-05 As a unique and innovative addition to the scholarship on Nazi Germany the Holocaust and modern Polish history this volume provides fresh analysis on the Nazi occupation of Poland Through new questions and engaging untapped sources the leading historians who have contributed to this volume provide original scholarship to steer debates and expand the historiography surrounding Nazi racial and occupation policies Polish and Jewish responses to them persecution police terror resistance and complicity *Routledge Revivals: Medieval Islamic Civilization (2006)* Josef Meri, 2018-01-12 Islamic civilization flourished in the Middle Ages across a vast geographical area that spans today's Middle and Near East First published in 2006 Medieval Islamic Civilization examines the socio cultural history of the regions where Islam took hold between the 7th and 16th centuries This important two volume work contains over 700 alphabetically arranged entries contributed and signed by international scholars and experts in fields such as Arabic languages Arabic literature architecture history of science Islamic arts Islamic studies Middle Eastern studies Near Eastern studies politics religion Semitic studies theology and more Entries also explore the importance of interfaith relations and the permeation of persons ideas and objects across geographical and intellectual boundaries between Europe and the Islamic world This reference work provides an exhaustive and vivid portrait of Islamic civilization and brings together in one authoritative text all aspects of Islamic civilization during the Middle Ages Accessible to scholars students and non specialists this resource will be of great use in research and understanding of the roots of today's Islamic society as well as the rich and vivid culture of medieval Islamic civilization **The Oxford Handbook of the Jewish Diaspora** Hasia R. Diner, 2021 The reality of diaspora has shaped Jewish history its demography its economic relationships and the politics which that impacted the lives of Jews with each other and with the non Jews among whom they lived Jews have moved around the globe since the beginning of their history maintaining relationships with their former Jewish neighbors who had chosen other destinations and at the same time forging relationships in their new homes with Jews from widely different places of origin **Queer Jewish Groups in Europe (1972-1990s)** Jan Wilkens, 2025-03-31 In the 1970s queer Jews became excited by the developments of the Gay Liberation Movement in both the US and Europe Until then they were not able to express their

queerness in Jewish communities and hoped for new inclusive spaces Yet they quickly realized that the movement was not as welcoming as anticipated Thus they started to organize in February 1972 the world's first queer Jewish group became publicly visible in London with its symposium The Jewish Homosexual in Society The Jewish Gay Group began tackling the exclusion of non heteronormative Jews in British Jewish and queer communities Soon after two more queer Jewish groups formed Beit Haverim House of Friends in Paris and Sjalhomo a neologism of shalom and homosexual in Amsterdam Besides their goal of emancipation these groups brought together their members based on shared experiences as both Jewish and queer opening up much needed spaces for social encounters The groups also established a Europe wide support network that enabled international collaboration for more than a decade This study archives these groups histories and that of their network By doing so it broadens prevalent narratives of Europe's post World War II Jewry and queers the discipline of Jewish History

Jews in Eastern Europe Katarzyna Kornacka-Sarełó, Waldemar Szczerbiński, 2016-01-14 The problem of being a stranger is present in every culture In this context the Jewish question is often discussed since the Jews have been present in other nations for centuries constituting the social and cultural minority and being almost always perceived as strangers This volume presents a detailed analysis of Jewish self perceptions and attitudes often very complex towards other societies and communities living in the same lands The contributors to this book explore the lengthy discussions between both the supporters and adversaries of assimilation within the Jewish environment and also between the assimilated Jews and non Jews which often further complicate this issue As the authors show here the methods of assimilation of eastern European Jews were not straightforward but were rather often rather complicated and rough Many Jewish people were trying to find the best solution to their own Jewish question and adapt themselves reasonably to the gentile environment and to the changing realities of the world in which they had to exist regardless of their will or in which they freely chose to live having made autonomic and personal decisions As such this volume explores Jewish assimilation issues from a wide and multifaceted perspective

Jewish Civilization Shmuel N. Eisenstadt, 2012-02-01 This book explains why the best way to understand the Jewish historical experience is to look at Jewish people not just as a religious or ethnic group or a nation or people but as bearers of civilization This approach helps to explain the greatest riddle of Jewish civilization namely its continuity despite destruction exile and loss of political independence In the first part of the book Eisenstadt compares Jewish life and religious orientations and practices with Hellenistic and Roman civilizations as well as with Christian and Islamic civilizations In the second part of the book he analyzes the modern period with its different patterns of incorporation of Jewish communities into European and American societies national movements that developed among Jews toward the end of the nineteenth century especially the Zionist movement and specific characteristics of Israeli society The major question Eisenstadt poses is to what extent the characteristics of the Jewish experience are distinctive in comparison to other ethnic and religious minorities incorporated into modern nation states or other revolutionary ideological settler societies He demonstrates through his case

studies the continuous creativity of Jewish civilization

*A Cultural History of Marriage in the Age of Enlightenment*

Edward Behrend-Martínez, 2021-11-18 Could an institution as sacred and traditional as marriage undergo a revolution? Some people living during the so-called Age of Enlightenment thought so. By marrying for that selfish personal emotion of love rather than to serve religious or family interests, to serve political demands or the demands of the pocketbook, a few but growing number of people revolutionized matrimony around the end of the eighteenth century. Marriage went from being a sacred state instituted by the Church and involving everyone to, for a few intrepid people, a secular contract, a deal struck between two individuals based entirely on their mutual love and affection. Few would claim today that love is not the cornerstone of modern marriage. The easiest argument in favor of any marriage today, no matter how star-crossed the individuals, is that the couple is deeply and hopelessly in love with one another. But that was not always so clear. Before the eighteenth century, very few couples united simply because they shared a mutual attraction and affection for one another. Yet only a century later, most people would come to believe that mutual love and even attraction were necessary for any marriage to succeed. *A Cultural History of Marriage in the Age of Enlightenment* explores the ways that new ideas, cultural ideals, and economic changes big and small reshaped matrimony into the institution that it is today, allowing love to become the ultimate essential ingredient for modern marriages. *A Cultural History of Marriage in the Age of Enlightenment* presents an overview of the period with essays on Courtship and Ritual, Religion, State and Law, Kinship and Social Networks, the Family Economy, Love and Sex, the Breaking of Vows, and Representations of Marriage.

*A Cultural History of Marriage in the Medieval Age*  
Joanne M. Ferraro, Frederik Pedersen, 2021-11-18 Marriage in Europe became a central pillar of society during the medieval period. Theologians, lawyers, and secular and church leaders agreed on a unique outline of the institution and its legal framework, the essential features of which remained in force until the 1980s. The medieval Western European definition of marriage was unique before the legal consequences of marriage came into being: the parties had to promise to engage in sexual union only with one partner and to remain in the marriage until one of the parties died. This requirement had profound implications for inheritance rules and for the organization of the family economy; it was explained and justified in a multitude of theological discussions and legal decisions across all faiths on the European continent. Normative texts built on the foundations of the scriptures of several religious traditions provided an impressive intellectual framework around marriage. In addition, developments in iconography, including sculpture and painting, projected the dominant model of marriage while social demographic and cultural changes encouraged its adoption. This volume traces the medieval discussion of marriage in practice, law, theology, and iconography. It provides an examination of the wider political and economic context of marriage and offers an overview of the ebb and flow of society's ideas about how expressions of human sexuality fit within the confines of a clearly defined social structure and ideology. *A Cultural History of Marriage in the Medieval Age* presents an overview of the period with essays on Courtship and Ritual, Religion, State and Law, Kinship and Social Networks, the Family Economy,

Love and Sex the Breaking of Vows and Representations of Marriage      **A Kabbalist in Montreal** Ira Robinson, 2021-02-23

This book illuminates important issues faced by Orthodox Judaism in the modern era by relating the life and times of Rabbi Yudel Rosenberg 1859 1935 In presenting Yudel Rosenberg s rabbinic activities this book aims to show that Jewish Orthodoxy could serve as an agent of modernity no less than its opponents Yudel Rosenberg s considerable literary output will demonstrate that the line between secular and traditional literature was not always sharp and distinct Rabbi Rosenberg s kabbalistic works will shed light on the revival of kabbala study in the twentieth century Yudel Rosenberg s career in Canada will serve as a counter example to the often expressed idea that Hasidism exercised no significant influence on the development of American Judaism at the turn of the twentieth century
