Marriage The Family Through Science:

Domestic Abuse in the Novels of African American Women Heather Duerre Humann, 2014-06-04 The literary tradition begun by Zora Neale Hurston in the 1930s has since flourished and taken new directions with a diverse body of fiction by more contemporary African American women writers This book examines the treatment of domestic violence in Hurston s *Their Eyes Were Watching God* Gayl Jones s *Corregidora* Gloria Naylor s *The Women of Brewster Place* and *Linden Hills* Alice Walker s *The Color Purple* Toni Morrison s *The Bluest Eye* and *Love* Terry McMillan s *Mama* and *A Day Late and a Dollar Short* and Octavia Butler s *Seed to Harvest* These novels have given voice to oppressed and abused women The aims of this work are threefold to examine how female African American novelists portray domestic abuse to outline how literary depictions of domestic violence are responsive to cultural and historical forces and to explore the literary tradition of novels that deal with domestic abuse within the African American community [Sourcebook of Family Theories and Methodologies](#)

Shaw, 2018-08-22 This book explores three worlds shared by the humans in their collective experiences It identifies and explores the world of commonsense the world of religion and the world of science as three essential dimensions of human experience The book helps understand that humans can gain comfort and pleasure in commonsense achieve meaning and purpose from religion and attain truth and rationality through science It actively applies theories to and develops theoretical explanations from different domains or situations of human existence This book is of interest to theorists researchers instructors and students across major academic disciplines in the humanities

and social sciences *Re-Imagining Sociology in India* Gita Chadha, M.T. Joseph, 2018-05-16 This book maps the intersections between sociology and feminism in the Indian context. It retrieves the lives and work of women pioneers of and in sociology asking crucial questions of their feminisms and their sociologies. The chapters address the experiential realities of women in the field, pedagogical issues, methodological frameworks, mentoring processes and artistic engagements with academic work. The volume's strength lies in bringing together Indian scholars from diverse social backgrounds and regions reflecting on the specificity of the Indian social sciences. The chapters cover a range of key areas including sexuality, law, environment, science and medicine. This volume will greatly interest students, teachers, researchers and practitioners of sociology, women's studies, gender studies and feminism, politics and postcolonial studies. **Fake Science** Austin Ruse, 2017-07-17 If you listen to any political argument you're eventually bound to hear something like 'The science is settled on this' or 'Just look at the statistics'. Or 'There have been studies that say you'd think we were living in the golden age of science and reason'. But the truth is far more sinister, says Austin Ruse. We're actually living in the age of the low information voter, easily misled by all too convincing false statistics and studies. In *Fake Science*, Ruse debunks so-called facts used to advance political causes one after the other, revealing how poorly they stand up to actual science. **Handbook of Family Theories** Mark A. Fine, Frank D. Fincham, 2013 Organized by content areas rather than by theory, this book helps readers gain greater insight into how key theories have impacted today's family research. Using the 2000 and 2010 decade in review issues of the *Journal of Marriage and Family* as a resource, the book addresses the most important topics impacting family studies research today. The book is organized around the most important domains in the field: parenting and parent-child relationships, romantic relationships, conflict and aggression, structural variation and transitions, demographic variations, and families and extra-familial institutions. Each of the contributors describes how theory has been used to generate new knowledge in the field and suggests future directions for how theory may be used to extend our knowledge base. The book helps readers acquire a working knowledge of the key family science theories, findings and issues and understand how researchers make use of these theories in their empirical efforts. *Women, Family and the Chinese Socialist State, 1950-2010* Xiaofei Kang, 2019-11-11 This volume includes 14 articles translated from the leading academic history journal in China, *Historical Studies of Contemporary China* (Dangdai Zhongguo shi yanjiu). It offers a rare window for the English-speaking world to learn how scholars in China have understood and interpreted central issues pertaining to women and family from the founding of the PRC to the reform era. Chapters cover a wide range of topics from women's liberation, women's movement and women's education to the impact of marriage laws and marriage reform and changing practices of conjugal love, sexuality, family life and family planning. The volume invites further comparative inquiries into the gendered nature of the socialist state and the meanings of socialist feminism in the global context. *From Family Collapse to America's Decline* Mitch Pearlstein, 2011-09-16 Very high rates of family fragmentation in the United States are subtracting from what very

large numbers of students are learning in school and forever holding them back in many other ways This in turn is damaging the country economically by making us less primed for innovation while also making millions of Americans less competitive in an increasingly demanding worldwide marketplace All of which is leading and can only lead to deepening class divisions in a nation which has never viewed itself or operated in such splintered ways What can be done to reverse these severely destructive trends starting with reducing the enormous number of children forced to grow up with only one parent living under the same roof What educational reforms are most likely to help under such demanding circumstances And as dangerous as the situation is why do leaders in education and other fields persist for both understandable and less worthy reasons in dancing around profoundly important questions of family breakdown to the point of contortion and ultimately failure
