SITUATION: The numbers are staggering. Every minute 27 girls are forced into marriage. That's 1 every 2 seconds. Child marriage is a global problem. The practice violates girls' human rights, curtails their education, harms their health and sharply constrains their future. The start of a solution is simple: more education. Getting girls to school means delaying marriage. And by becoming a Plan parent that's exactly what you're helping to achieve.

BRIEF: First of all, get the global problem of Child marriage to the living room. Secondly, activate people to become a Plan parent.

IDEA: Plan Belgium helped girls to speak and take over movie 'age warnings' in prime time on National Television, in movie theatres and - via Planit - in YouTube Movie trailers, in their teaching 'topicals'. It inspired girls tell an emotional story and paint a picture about the horrible tradition.

RESULT: Ann was helping the problem to the living room and by doing so created a lot of noise and conversations. And it did. Moreover, Child marriages were discussed on all national media and on numerous blogs, national and international. But most important of all there was an 85% increase of people who became Plan parents, compared to the campaign results of last year.

Marriage Campaign:

The Marriage Campaign Helen Bianchin, 2003 The Future of Marriage David Blankenhorn, 2007-11-01 The idea of this book began in a conversation David Blankenhorn had with the president of Freedom to Marry a group advocating equal marriage rights for same sex couples This man asked Blankenhorn a leading figure in the marriage movement to endorse his group s objectives Feeling a bit defensive Blankenhorn replied Every child deserves a mother and a father The Future of Marriage is the result of that conversation In their current demands Blankenhorn points out gay and lesbian leaders are not asking for marriage with an adjective in front of it but marriage itself So in that sense what marriage is and why it matters is ultimately what this debate is all about What exactly is this institution to which gay and lesbian activists are seeking access Why do we have it in the first place Where did it come from What is it for How is it changing These are some of the hard questions The Future of Marriage confronts David Blankenhorn says that if same sex marriage debate is to be redemptive rather than merely divisive it must accept the principle that all persons are equal in dignity But it must also help us to rediscover and renew marriage as the main protector of our children and our primary social institution *Arranged Marriage* Péter Berta, 2023-03-17 Arranged Marriage shows how arranged marriage practices have been undergoing transformation how the gendered and intergenerational politics of agency consent and choice work in the contexts of partner choice and management of marriage and how this type of marriage can be reshaped reinvented and reinterpreted flexibly in response to individual family religious class ethnic and other desires needs and constraints The Battle over Marriage Leigh Moscovitz, 2013-11-15 Over the past decade the controversial issue of gay marriage has emerged as a primary battle in the culture wars and a definitive social issue of our time The subject moved to the forefront of mainstream public debate in 2004 when San Francisco Mayor Gavin Newsom began authorizing same sex marriage licenses and it has remained in the forefront through three presidential campaigns and numerous state ballot initiatives In this thorough analysis Leigh Moscovitz examines how prominent news outlets presented this issue from 2003 to 2012 a time when intense news coverage focused unprecedented attention on gay and lesbian life During this time LGBT rights leaders sought to harness the power of media to advocate for marriage equality and to reform their community s public image Building on in depth interviews with activists and a comprehensive longitudinal study of news stories Moscovitz investigates these leaders aims and how their frames tactics and messages evolved over time In the end media coverage of the gay marriage debate both aided and undermined the cause Media exposure gave activists a platform to discuss gay and lesbian families But it also triggered an upsurge in opposing responses and pressured activists to depict gay life in a way calculated to appeal to heterosexual audiences Ultimately The Battle over Marriage reveals both the promises and the limitations of commercial media as a route to social change *Out in the Periphery* Omar G. Encarnación, 2016-01-04 Known around the world as a bastion of Catholicism and machismo Latin America has emerged in recent years as the undisputed gay rights leader of the Global

South Even more surprising is that several Latin American nations have surpassed many developed nations including the United States in legislating equality for the LGBT community So how did this dramatic and unexpected expansion of gay rights come about And why are Latin American nations diverging in their embrace of gay rights a point highlighted by the paradoxical experiences of Argentina and Brazil Argentina a country with a dark history of repression of homosexuality legalized same sex marriage in 2010 a first for a Latin American nation and since then it has enacted laws to ensure transgender equality to abolish ex gay reparative therapy and to provide reproductive assistance to same sex couples By contrast Brazil a country famous for celebrating sexual diversity proved incapable of legalizing same sex marriage via the legislature leaving the job to the courts and Brazilian anti gay discrimination laws are among the weakest in Latin America In Out in the Periphery Omar G Encarnaci n breaks away from the conventional narrative of Latin America s embrace of gay rights as a by product of the global spread of gay rights from the developed West Instead Encarnaci n aims to decenter gay rights politics His intention is not to demonstrate how the local has trumped the global in Latin America but rather to suggest how domestic and international politics interacted to make Latin America one of the world s most receptive environments for gay rights Economic and political modernization constitutional and judicial reforms and the rise of socially liberal governments have all contributed to this receptivity But the most decisive factor was the skill of local activists in crafting highly effective gay rights campaigns Inspired by external events and trends but firmly grounded in local politics and realities these campaigns succeeded in bringing radical change to the law with respect to homosexuality and in some cases as in Argentina in transforming society and the culture at large

Law and Religion in the Commonwealth Renae Barker, Paul Babie, Neil Foster, 2022-06-30 This book examines law and religion from the perspective of its case law Each chapter focuses on a specific case from a Commonwealth jurisdiction examining the history and impact of the case both within the originating jurisdiction and its wider global context The book contains chapters from leading and emerging scholars from across the Commonwealth including from the United Kingdom Canada Australia Pakistan Malaysia India and Nigeria The cases are divided into four sections covering Foundational Questions in Law and Religion Freedom of Religion around the Commonwealth Religion and state relations around the Commonwealth Rights Relationships and Religion around the Commonwealth Like religion itself the case law covers a wide spectrum of life This diversity is reflected in the cases covered in this book which include Titular Roman Catholic Archbishop of Kuala Lumpur v Home Minister on the use of the Muslim name for God by non Muslims in Malaysia The Church of the New Faith v Commissioner of Pay roll Tax Vic which determined the meaning of religion in Australia Eweida v UK which clarified the application of Article 9 of the European Convention on Human Rights R v Big M Drug Mart on the individual protections of religious freedom under the Canadian Charter of Rights The book examines how legal disputes involving religion are among the most contested in the courts and shows that in these cases passions run high and the outcomes can have significant consequences for all involved

Against Equality Ryan Conrad,2015-03-20 When rights go wrong Does gay marriage support the right wing goal of linking access to basic human rights like health care and economic security to an inherently conservative tradition Will the ability of queers to fight in wars of imperialism help liberate and empower LGBT people around the world Does hate crime legislation affirm and strengthen historically anti queer institutions like the police and prisons rather than dismantling them The Against Equality collective asks some hard questions These queer thinkers writers and artists are committed to undermining a stunted conception of equality In this powerful book they challenge mainstream gay and lesbian struggles for inclusion in elitist and inhumane institutions More than a critique Against Equality seeks to reinvigorate the queer political imagination with fantastic possibility

Okihiro, 2016-09-30 Trans Pacific Japanese American Studies is a unique collection of essays derived from a series of dialogues held in Tokyo Kyoto and Los Angeles on the issues of racializations gender communities and the positionalities of scholars involved in Japanese American studies The book brings together some of the most renowned scholars of the discipline in Japan and North America It seeks to overcome past constraints of dialogues between Japan and U S based scholars by providing opportunities for candid extended conversations among its contributors While each contribution focuses on the field of Japanese American studies approaches to the subject vary ranging from national and village archives community newspapers personal letters visual art and personal interviews Research papers are divided into six sections Racializations Communities Intersections Borderlands Reorientations and Teaching Papers by one or two Japan based scholar's are paired with a U S based scholar reflecting the book's intention to

promote dialogue and mutuality across national formations The collection is also notable for featuring underrepresented communities in Japanese American studies such as Okinawan war brides Koreans women and multiracials Essays on subject positions raise fundamental questions Is it possible to engage in a truly equal dialogue when English is the language used in the conversation and in a field where English language texts predominate How can scholars foster a mutual respect when U S centrism prevails in the subject matter and in the field s scholarly hierarchy Understanding foundational questions that are now frequently unstated assumptions will help to disrupt hierarchies in scholarship and work toward more equal engagements across national divides Although the study of Japanese Americans has reached a stage of maturity contributors to this volume recognize important historical and contemporary neglects in that historiography and literature Japanese America and its scholarly representations they declare are much too deep rich and varied to contain in a singular narrative or subject position
