Marriage Risk:

Cultural Sociology of Divorce Robert E. Emery, 2013-01-24 While the formal definition of divorce may be concise and straightforward legal termination of a marital union dissolving bonds of matrimony between parties the effects are anything but particularly when children are involved The Americans for Divorce Reform estimates that 40 or possibly even 50 percent of marriages will end in divorce if current trends continue Outside the U S divorce rates have markedly increased across developed countries Divorce and its effects are a significant social factor in our culture and others It might be said that a whole divorce industry has been constructed with divorce lawyers and mediators family counselors support groups etc As King Henry VIII s divorces showed divorce has not always been easy or accepted In some countries divorce is not permitted and even in Europe countries such as Spain Italy Portugal and the Republic of Ireland legalized divorce only in the latter quarter of the 20th century This multi disciplinary encyclopedia covers curricular subjects related to divorce as examined by disciplines ranging from marriage and the family to anthropology social and legal history developmental and clinical psychology and religion all through a lens of cultural sociology Features 550 signed entries A to Z fill 3 volumes 1 500 pages in print and electronic formats offering the most detailed reference work available on issues related to divorce both in the U S and globally Cross References and Further Readings guide readers to additional resources A Chronology provides students with context via a historical perspective of divorce In the electronic version the comprehensive Index combines with Cross References and thematic Reader s Guide themes to provide convenient search and browse capabilities For state and nation entries uniform entry structure combined with an abundance of statistics facilitates comparison between and across states and nations Appendices provide further annotated sources of data and statistics Strengthening healthy marriages, 2002

How to Pick a Mate, The Guide to a Happy Marriage Clifford Rose Adams, 2022-04-06 Excerpt As far as we know this is the first time anyone has written a book attempting to put mate selection on a sensible basis despite the fact that sooner or later almost everybody selects one A good many people resent the idea of an outsider telling them how they should pick a mate They think it smacks of meddling Marriage is something sacred and personal It should not be done according to rules We heartily sympathize Unfortunately however marriages are not made in Heaven Usually people marry by hunch or impulse or because their parents think it is a good match or because they get themselves so deeply involved romantically that marrying seems the only proper thing to do Too frequently such methods merely mess up a couple of people s lives More than a third of all the millions of marriages undertaken in the last ten years are in trouble Many are already dissolved Many more soon will be A great deal of research and counseling has now been done in the field of marriage and the findings validated At Penn State for example hundreds of couples who were tested before marriage at the Marriage Counseling Service are checked periodically after marriage to find how they are making out Of all the marriages which the service predicted would be successful not one has yet ended in divorce or separation Most of the people who went ahead despite the

clinics cautions are already in serious trouble or have been divorced As a result of many such investigations reliable information is available on the kinds of people who make the best mates and on the causes of marriage success and failure In this book we have tried to include those findings which should be most helpful and interesting to all people involved in love or marriage but particularly to people who sooner or later will be taking unto themselves a mate It is not our intention to lay down a set of rules for people to follow But we hope that after reading this book you will be more enlightened in your hunches than you might be otherwise and be a much happier and more desirable mate yourself

Diversity in Family Formation Joop de Beer,F. Deven,2013-03-09 The aim of Diversity in Family Formation is to examine changes in the start of the family formation process Rather than giving a rough overview of demographic changes in many countries a comparison of differences in changes in family formation and fertility behaviour between Belgium and The Netherlands is interesting for various reasons First even though the economic and cultural differences between these countries are relatively small there is one important difference Belgium is predominantly Catholic whereas The Netherlands has about equal proportions of Catholics and Protestants Second if the Second Demographic Transition implies that there is one common pattern of change in different European countries and that differences across countries are due to the fact that countries are in a different stage of the transition process and if it is assumed that the transition process started earlier in Protestant countries than in Catholic countries one would expect The Netherlands to be in a further stage of the transition process than Belgium Thus an in depth comparison of changes in family formation and fertility behaviour between both countries may give us more insight in the question of whether there is one common transition process The comparison of fertility and family survey data in both countries brings us to the core question of whether there is one common explanation for differences between countries in various types of fertility and family behaviour under consideration namely fertility regulation the choice of living arrangement after leaving the parental home and the labour force participation of mothers

Transitions to Adulthood in Europe M. Corijn,Erik Klijzing,2013-06-29 The diversification in family practices constitutes a major theme of research in the field of population studies A substantial part of these diversification processes are linked to the stage of family formation The increase in non marital cohabitation and non marital fertility and the postponement of marriage and parenthood have particularly characterised the transition from youth to adulthood among the post war cohorts In studying the transition from youth to adulthood the timing of events is crucial Different timing patterns are the product of the interplay between a multitude of factors in the institutional as well as the personal context In this respect cross country comparative research is a powerful tool to understand the determinants of the change processes To move beyond the mere description of the changes is a challenge that not only is eminently scientific it also gives the necessary insights to grasp the implications of the changes for policy From this policy perspective the postponement of the integration into adulthood has major societal consequences such as the very low fertility and the fact that the family formation itself became a matter of choice Over the years the

Population and Family Studies Centre CBGS a scientific institute of the Flemish Community has intensively investigated these changes constituting the Second Demographic Transition not only through national but through cross national comparative research **Psychological Abuse in Violent Domestic Relations** K. Daniel O'Leary, PhD, Roland D. Maiuro, PhD, 2004 This volume addresses the importance of measuring psychological abuse and shows that psychological aggression can be reliably measured Part I identifies measurement issues and contains several scales and inventories for measuring psychological maltreatment Part II discusses the interpersonal dynamics with specific populations including battered women low income women and African American women This remains an important resource in the field of domestic violence

Violence Against Women in Asian Societies Linda Rae Bennett, Lenore Manderson, 2013-09-13 Violence against women is a violation of women's human rights and a priority public health issue It is endemic worldwide While much has been written about it in industrialized societies there has been relatively little attention given to such violence in Asian societies This book addresses the structural and interpersonal violence to which women are subject both under conditions of conflict and disruption and where civil society is relatively ordered It explores sexual violence and coercion domestic violence and violence within the broader community and the state avoiding sensationalised accounts of so called cultural practices in favour of nuanced explorations of violence as experienced in Cambodia Thailand Burma Indonesia Malaysia the Philippines Bangladesh and India **medi@sia** T.J.M. Holden, Timothy J. Scrase, 2006-09-27 This new interdisciplinary book is the first comparative case based analysis of media panoply in and out of Asia today Examining what the authors call the media equation the contributors demonstrate the multiple links between media society and culture and advance the claim that media is the key means through which Asians experience understand effect and are affected by the worlds containing them Exploring a relatively neglected principle in cultural studies that context counts medi@sia highlights how the experiences of those encountering media messages differ depending on social economic political and ideational conditions Balancing social cultural and media theory with empirical research the essays in this collection provide a better understanding of the complex relationship between media and people's practices values and behaviour in contemporary Asia **Lotto** John Gilmore, 2013-08-09 Did biblical characters gamble in casting lots Did reliance on casting lots encourage gambling Do all risk taking decisions have a gambling element Are Stock Exchange investments a form of gambling As more and more Christians are buying lottery tickets Lotto Is the Lottery Fun or Folly examines and argues cogently the biblical theological historical and ethical dimensions of lotteries It provides up to date information on many of the increasingly popular forms of gambling including charity gambling but with particular emphasis on lotteries It explores theological issues and examines biblical and historical viewpoints often overlooked by other works This book is highly readable style and nonjudgmental in its approach It offers practical and pastorally sensitive advice on the control of gambling and each chapter concludes with discussion questions to prompt further study Global education monitoring report 2019 UNESCO, 2019-06-28 The 2019 Gender

Report is based on a monitoring framework first introduced in the 2016 Global Education Monitoring Report In addition to focusing on gender parity in education participation attainment and learning achievement the framework examines broad social and economic contexts gender norms and institutions and key education system characteristics laws and policies teaching and learning practices learning environments and resources The framework also looks at the relationship between education and selected social and economic outcomes For instance a move towards parity in education attainment may increase women s labour force participation rates but low levels of labour force participation feed into existing norms and may constrain expansion of education opportunities for women Publisher summary Backs Against the Wall Kathy A McCloskey, Marilyn H. Sitaker, 2013-10-18 Backs Against the Wall Battered Women s Resistance Strategies tackles several controversial aspects involved with intimate partner violence IPV namely the approaches many victims use when resisting their oppressors This sensitive and sensible feminist perspective concerning battered women s use of different resistance strategies and the reasons why they use them also focuses on ways to support victims through intervention and prevention strategies Leading experts provide current research revealing viewpoints and convincing assertions about the victims of IPV This book powerfully refutes the sweeping assertions made by today s antifeminist based mindset that women are as violent as men in cases of IPV perpetration This insightful source provides strong evidence of the different resistance strategies that battered women use in response to multiple oppressions including IPV in the case against the gender parity argument that may very well be politically motivated The text provides extensive references and several figures and tables to clearly present data This book is a valuable resource for activists educators students health providers justice system workers advocates and researchers This book was published as a special issue of the Journal of Aggression Maltreatment and Trauma

Punishment and Inequality in America Bruce Western, 2006-05-25 Over the last thirty years the prison population in the United States has increased more than seven fold to over two million people including vastly disproportionate numbers of minorities and people with little education For some racial and educational groups incarceration has become a depressingly regular experience and prison culture and influence pervade their communities Almost 60 percent of black male high school drop outs in their early thirties have spent time in prison In Punishment and Inequality in America sociologist Bruce Western explores the recent era of mass incarceration and the serious social and economic consequences it has wrought Punishment and Inequality in America dispels many of the myths about the relationships among crime imprisonment and inequality While many people support the increase in incarceration because of recent reductions in crime Western shows that the decrease in crime rates in the 1990s was mostly fueled by growth in city police forces and the pacification of the drug trade Getting tough on crime with longer sentences only explains about 10 percent of the fall in crime but has come at a significant cost Punishment and Inequality in America reveals a strong relationship between incarceration and severely dampened economic prospects for former inmates Western finds that because of their involvement in the penal system young black men hardly

benefited from the economic boom of the 1990s Those who spent time in prison had much lower wages and employment rates than did similar men without criminal records The losses from mass incarceration spread to the social sphere as well leaving one out of ten young black children with a father behind bars by the end of the 1990s thereby helping perpetuate the damaging cycle of broken families poverty and crime The recent explosion of imprisonment is exacting heavy costs on American society and exacerbating inequality Whereas college or the military were once the formative institutions in young men's lives prison has increasingly usurped that role in many communities Punishment and Inequality in America profiles how the growth in incarceration came about and the toll it is taking on the social and economic fabric of many American communities

Simulating Roman Economies Tom Brughmans, Andrew Wilson, 2022-08-11 The use of formal modelling and computational simulation in studies of the Roman economy has become more common over the last decade But detailed critical evaluations of this innovative approach are still missing and much needed What kinds of insights about the Roman economy can it lead to that could not have been obtained through more established approaches and how do simulation methods constructively enhance research processes in Roman Studies This edited volume addresses this need through critical discussion and convincing examples It presents the Roman economy as a highly complex system traditionally studied through critical examinations of material and textual sources and understood through a wealth of diverging theories A key contribution of simulation lies in its ability to formally represent diverse theories of Roman economic phenomena and test them against empirical evidence Critical simulation studies rely on collaboration across Roman data theory and method specialisms and can constructively enhance multivocality of theoretical debates of the Roman economy This potential is illustrated avoiding computational and mathematical language through simulation studies of a wealth of Roman economic phenomena from maritime trade and terrestrial transport infrastructures through the economic impacts of the Antonine Plague and demography to local cult economies and grain trade Through these examples and discussions this volume aims to provide the common ground guidance and inspiration needed to make simulation methods part of the tools of the trade in Roman Studies and to allow them to make constructive contributions to our understanding of the Roman economy

Patterns Of Infidelity And Their Treatment Emily M. Brown, 2013-05-13 The new edition of this highly regarded book includes comprehensive discussion of the nature of an affair and the five types of affairs and their underlying dynamics The author addresses issues regarding revealing the affair management of the consequences rebuilding and treating an unmarried third party as well as the host of complex issues regarding children and custody arrangements New material for the second edition includes cybersex and the effects of new technology on fidelity in marriage the effects of managed care on treatment marriage to the third party and a new chapter on affairs and violence

Between Care and Criminality Helena Zeweri, 2023-12-15 Between Care and Criminality examines social welfare's encounter with migration and marriage in a period of intensified border control in Melbourne Australia It offers an in depth ethnographic account of the effort to prevent

forced marriage in the aftermath of a 2013 law that criminalized the practice Disproportionately targeted toward Muslim migrant communities prevention efforts were tasked with making the family relations and marital practices of migrants objects of policy knowledge in the name of care and community empowerment Through tracing the everyday ways that direct service providers police and advocates learned to identify imminent marriages and at risk individuals this book reveals how the domain of social welfare becomes the new frontier where the settler colonial state judges good citizenship In doing so it invites social welfare to reflect on how migrant conceptions of familial care personhood and mutual obligation become structured by the violence of displacement borders and conditional citizenship

Anthropology of Migration and Multiculturalism Steven Vertovec, 2013-09-13 The field of anthropology of migration and multiculturalism is booming Throughout its hundred odd year history studies of migration and diverse or plural societies have arguably been both marginal and central to the discipline of Anthropology However recent years have witnessed the rapid growth of anthropological studies concerning these topics This has particularly been the case since the 1970s when anthropologists developed a keen interest in the subject of ethnicity especially in post migration communities Since the 1990s migrant transnationalism has become one of the most fashionable topics There is still much to do in research and theory surrounding this field not least with regard to contemporary public debates around multiculturalism immigration and integration policy This book presents essays pointing toward a number of possible new directions both theoretical and methodological for anthropological inquiry into migration and multiculturalism including innovative ways of examining diversity discourses urban conditions social complexities scales of analysis transnational marriages entangled politics and interwoven cultures This book was published as a special issue of the Ethnic and Racial Studies

Handbook on Well-Being of Working Women Mary L. Connerley, Jiyun Wu, 2015-07-27 This handbook provides an overview and synthesis of relevant literature related to the issue of the well being of working women This focus addresses a gap that currently exists in the quality of life and well being fields The work of the authors answers the following broad questions Does gender matter in the well being of working women Do prejudices against and stereotypes of women still play a role in inter personal interactions in the workplace that could hinder women from flourishing professionally Does the organizational context such as organizational culture reward systems and leadership contribute to the well being of working women What impact does the national context have on the well being of working women And finally how can public policies help enhance the well being of working women These are important issues for academics researchers and graduate students interested in gender issues in the fields of management sociology psychology social psychology economics and quality of life studies Policy makers and practitioners will also find this book beneficial Equitable treatment and outcomes for all regardless of gender remains a challenging goal to achieve with various barriers in different contexts and different cultures and this book provides strong coverage of this important topic of well being of working women

Is It My Fault?

Lindsey A. Holcomb, Justin S. Holcomb, 2014-05-01 *Is It My Fault* proclaims the gospel of healing and hope to victims who know too well the depths of destruction and the overwhelming reality of domestic violence. At least one in every three women have been beaten, coerced into sex or abused in their lifetime. The effects of domestic violence are physical, social, emotional, psychological, and spiritual and can have long-lasting distressing consequences. It is common for victims of domestic violence to suffer from ongoing depression and recurring nightmares, self-harm such as cutting, panic attacks, substance abuse, and more. This book exists to address the abysmal issues of domestic violence using the powerful and transforming biblical message of grace and redemption. *Is It My Fault* convincingly shows that the Lord is the only one who can heal the despairing victim. It deals with this devastating problem and sin honestly and directly without hiding its prevalence today. **Home Economics Technology Iii' 2005 Ed. ,**
