**Blood in the Shadows** Hawk MacKinney,

When marine buddy Gulfport Mississippi Sheriff asks Craige Ingram for help Ingram and Buckingham Parish patrolman Badger Thomas Boback find themselves in the summertime dog days of the humid Gulf Coast With crowded beaches and an undermanned staff a routine investigation soon becomes anything but routine when indescribable body parts start showing up along the surf in beachfront cabins half buried in bayou wetlands stashed under freeway bridges and across county lines Craige's search for answers to identifying victims and killer among the crowds of tourists and skin and sun partygoers soon makes it obvious the victims have no connection with one another until conflicting DNA results and haunting premonitions resembling the warnings Craige's grannie often had become part of the investigation The jigsaw of abandoned cross kin offspring begin a horrifying Gordian Knot tangle that threatens anyone who approaches the shadowy ancient wreck of an old mansion an asylum from a lost time

**A Line of Blood and Dirt** Benjamin Hoy,2021-02-02 The untold history of the multiracial making of the border between Canada and the United States Often described as the longest undefended border in the world the Canada US border was born in blood conflict and uncertainty At the end of the American Revolution Britain and the United States imagined a future for each of their nations that stretched across a continent They signed treaties with one another dividing lands neither country could map much less control A century and a half later Canada and the United States had largely fulfilled those earlier ambitions Both countries had built nations that stretched from the Atlantic to the Pacific and had made an expansive international border that restricted movement The vision that seemed so clear in the minds of diplomats and politicians never behaved as such on the ground Both countries built their border across Indigenous lands using hunger violence and coercion to displace existing communities and to disrupt their ideas of territory and belonging The border s length undermined each nation s attempts at control Unable to prevent movement at the border s physical location for over a century Canada and the United States instead found ways to project fear across international lines They aimed to stop journeys before they even began
