A New Plantation World Daniel Vivian, 2018-03 Examines the creation of sporting plantations in the South Carolina lowcountry during the first four decades of the twentieth century

CBS's Don Hollenbeck Loren Ghiglione, 2008-10-06 Loren Ghiglione recounts the fascinating life and tragic suicide of Don Hollenbeck the controversial newscaster who became a primary target of McCarthyism s smear tactics Drawing on unsealed FBI records private family correspondence and interviews with Walter Cronkite Mike Wallace Charles Collingwood Douglas Edwards and more than one hundred other journalists Ghiglione writes a balanced biography that cuts close to the bone of this complicated newsman and chronicles the stark consequences of the anti Communist frenzy that seized America in the late 1940s and 1950s Hollenbeck began his career at the Lincoln Nebraska Journal marrying the boss s daughter before becoming an editor at William

Randolph Hearst's rip-roaring Omaha Bee News. He participated in the emerging field of photojournalism at the Associated Press, assisted in creating the innovative ad-free PM newspaper in New York City, reported from the European theater for NBC radio during World War II, and anchored television newscasts at CBS during the era of Edward R. Murrow. Hollenbeck's pioneering prize-winning radio program CBS Views the Press (1947-1950) was a declaration of independence from a print medium that had dominated American newsmaking for close to 250 years. The program candidly criticized the prestigious New York Times, the Daily News, then the paper with the largest circulation in America, and Hearst's flagship Journal American, and popular morning tabloid Daily Mirror. For this honest work, Hollenbeck was attacked by conservative anti-Communists, especially Hearst columnist Jack O'Brien, and in 1954, plagued by depression, alcoholism, three failed marriages, and two network firings, he worried about a third. Hollenbeck took his own life. In his investigation of this amazing American character, Ghiglione reveals the workings of an industry that continues to fall victim to censorship and political manipulation. Separating myth from fact, CBS's Don Hollenbeck is the definitive portrait of a polarizing figure who became a symbol of America's tortured conscience.

Journalism's Roving Eye John Maxwell Hamilton, 2011-08-15. In all of journalism, nowhere are the stakes higher than in foreign news gathering. For media owners, it is the most difficult type of reporting to finance; for editors, the hardest to oversee. Correspondents roaming large swaths of the planet must acquire expertise that home-based reporters take for granted: facility with the local language, for instance, or an understanding of local cultures. Adding further to the challenges, they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs, a task made all the more daunting because of the consequence to national security. In *Journalism's Roving Eye*, John Maxwell Hamilton, a historian and former foreign correspondent, provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage, as well as the cavalcade of colorful personalities who shaped readers' perceptions of the world across two centuries. From the colonial era, when newspaper printers hustled down to wharves to collect mail and periodicals from incoming ships, to the ongoing multimedia press coverage of the Iraq War, Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news. As James Gordon Bennett put it in the mid-nineteenth century to describe his approach in the New York Herald: He details the highly partisan coverage of the French Revolution, the early emergence of special correspondents, and the challenges of organizing their efforts; the profound impact of the non-yellow press in the run-up to the Spanish-American War; the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I; and the golden age of foreign correspondence during the interwar period, when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe. From the Nazi intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War, Hamilton covers every aspect of delivering foreign news to American doorsteps. Along the way, Hamilton singles

out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting Journalism s Roving Eye offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead

The Origins of the Dual City Joel Rast, 2019-12-05 Chicago is celebrated for its rich diversity but even more than most US cities it is also plagued by segregation and extreme inequality More than ever Chicago is a dual city a condition taken for granted by many residents In this book Joel Rast reveals that today s tacit acceptance of rising urban inequality is a marked departure from the past For much of the twentieth century a key goal for civic leaders was the total elimination of slums and blight Yet over time as anti slum efforts faltered leaders shifted the focus of their initiatives away from low income areas and toward the upgrading of neighborhoods with greater economic promise As misguided as postwar public housing and urban renewal programs were they were born of a long standing reformist impulse aimed at improving living conditions for people of all classes and colors across the city something that can t be said to be a true priority for many policymakers today The Origins of the Dual City illuminates how we normalized and became resigned to living amid stark racial and economic divides

The Third Coast Thomas L. Dyja, 2013-04-18 Winner of the Chicago Tribune s 2013 Heartland Prize A critically acclaimed history of Chicago at mid century featuring many of the incredible personalities that shaped American culture Before air travel overtook trains nearly every coast to coast journey included a stop in Chicago and this flow of people and commodities made it the crucible for American culture and innovation In luminous prose Chicago native Thomas Dyja re creates the story of the city in its postwar prime and explains its profound impact on modern America from Chess Records to Playboy McDonald s to the University of Chicago Populated with an incredible cast of characters including Mahalia Jackson Muddy Waters Howlin Wolf Chuck Berry Sun Ra Simone de Beauvoir Nelson Algren Gwendolyn Brooks Studs Turkel and Mayor Richard J Daley The Third Coast recalls the prominence of the Windy City in all its grandeur

Freedom from Advertising Duane C.S. Stoltzfus, 2007-01-18 Disgusted by publishers and editors who refused to cover important stories for fear of offending advertisers the press baron E W Scripps rejected conventional wisdom and set out to prove that an ad free newspaper could be profitable entirely on circulation Duane C S

Stoltzfus details the history of Scripps's innovative 1911 experiment which began in Chicago amid great secrecy. The tabloid-sized newspaper was called the Day Book and at a penny a copy it aimed for a working class market crusading for higher wages, more unions, safer factories, lower streetcar fares, and women's right to vote. It also tackled the important stories ignored by most other dailies like the labor conflicts that shook Chicago in 1912. Though the Day Book's financial losses steadily declined over the years, it never became profitable and publication ended in 1917. Nevertheless, Stoltzfus explains that the Day Book served as an important ally of workers, a keen watchdog on advertisers, and it redefined news by providing an example of a paper that treated its readers first as citizens with rights rather than simply as consumers. *The Rotarian*, 1982-11. Established in 1911, The Rotarian is the official magazine of Rotary International and is circulated worldwide. Each issue contains feature articles, columns, and departments about or of interest to Rotarians. Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Gandhi to Kurt Vonnegut Jr. have written for the magazine. *The Life of Gregory Zilboorg, 1940-1959*. Caroline Zilboorg, 2021-09-16. The Life of Gregory Zilboorg, 1940-1959. Mind, Medicine, and Man is the second volume of a meticulously researched two-part biography of the Russian American psychoanalyst Gregory Zilboorg and chronicles the impact of the Second World War on his work and thinking, as well as his divorce, remarriage, and conversion to Catholicism. With extensive references to Zilboorg's writing and politics, this book demonstrates the significance of his contributions to the fields of psychiatry and psychoanalysis in the context of his tumultuous intellectual, personal, and spiritual life. In his late work, he would argue controversially that there was no incompatibility between psychoanalysis and religion. Grounded in a wealth of primary source material and impressive research, this book completes the compelling biography of a major figure in psychoanalysis. It will be of interest to general readers as well as scholars across a range of disciplines, particularly the history of psychoanalysis and religion. **The Timetree of Life**. S. Blair Hedges, Sudhir Kumar, 2009-04-23. The evolutionary history of life includes two primary components: phylogeny and timescale. Phylogeny refers to the branching order relationships of species or other taxa within a group and is crucial for understanding the inheritance of traits and for erecting classifications. However, a timescale is equally important because it provides a way to compare phylogeny directly with the evolution of other organisms and with planetary history, such as geology, climate, extraterrestrial impacts, and other features. The Timetree of Life is the first reference book to synthesize the wealth of information relating to the temporal component of phylogenetic trees. In the past, biologists have relied exclusively upon the fossil record to infer an evolutionary timescale. However, recent revolutionary advances in molecular biology have made it possible to not only estimate the relationships of many groups of organisms but also to estimate their times of divergence with molecular clocks. The routine estimation and utilization of these so-called time trees could add exciting new dimensions to biology, including enhanced opportunities to integrate large molecular data sets with fossil and biogeographic evidence and thereby foster greater communication between molecular and traditional systematists. They could help estimate not only ancestral character states

but also evolutionary rates in numerous categories of organismal phenotype establish more reliable associations between causal historical processes and biological outcomes develop a universally standardized scheme for biological classifications and generally promote novel avenues of thought in many arenas of comparative evolutionary biology This authoritative reference work brings together for the first time experts on all major groups of organisms to assemble a timetree of life The result is a comprehensive resource on evolutionary history which will be an indispensable reference for scientists educators and students in the life sciences earth sciences and molecular biology For each major group of organism a representative is illustrated and a timetree of families and higher taxonomic groups is shown Basic aspects of the evolutionary history of the group the fossil record and competing hypotheses of relationships are discussed Details of the divergence times are presented for each node in the timetree and primary literature references are included The book is complemented by an online database www.timetree.net which allows researchers to both deposit and retrieve data
