Marshall McLuhan Philip Marchand, 1998 A new look at the man who gave us ideas the medium is the message and Marshall McLuhan Philip Marchand, 1989-02-01 Some considered Marshall McLuhan the oracle of the global village electric age others dismissed him as a charlatan But many of his predictions came true with eerie accuracy It s impossible to ignore such McLuhan phrases as the global village the medium of the message as we surf the Net or pop a cassette into the VCR McLuhan's genius was in foreseeing such cultural upheavals it is uncanny the impact his studies have had on the way we view the world This fully revised updated edition of the award winning biographical classic traces the evolution of McLuhan's theories is the key to understanding this enigmatic media guru. This is the first true narrative of McLuhan's life B W photos A brilliant eloquent discussion Marshall McLuhan Philip Marchand, 1990 Some considered him the oracle of the electronic age others dismissed him as a charlatan But his predictions are coming true with eerie accuracy It s impossible to ignore such McLuhan phrases as the global village and the medium is the message as we surf the Net or watch such momentous events as the Mars landing or the Hong Kong takeover live on our personal computers or TV screens His genius was in foreseeing such cultural upheavals and his studies continue to have an impact on the way we view the world Marshall McLuhan The Medium and the Messenger traces the evolution of McLuhan s theories and is the key to understanding this enigmatic media guru From the Trade Paperback edition Marshall McLuhan [sound Recording]: the Medium and the Messenger Philip Marchand, Samples, Mac, 1992 The Medium is the Massage Marshall McLuhan, Quentin Fiore, 2001 First published in 1967 this text is now more relevant than ever ascLuhan's foresights about the impact of new media is actualized atnprecedented speeds via the Internet It portrays technologies as anxtension of man illustrating how our senses are massaged and ourreceptions altered as these devices become integral parts of our lives Marshall McLuhan and Northrop Frye B.W. Powe, 2014-01-01 Marshall McLuhan and Northrop Frye are two of Canada's central cultural figures colleagues and rivals whose careers unfolded in curious harmony even as their intellectual engagement was antagonistic Poet novelist essayist and philosopher B W Powe who studied with both of these formidable and influential intellectuals presents an exploration of their lives and work in Marshall McLuhan and Northrop Frye Apocalypse and Alchemy Powe considers the existence of a unique visionary tradition of Canadian humanism and argues that McLuhan and Frye represent fraught but complementary approaches to the study of literature and to the broader engagement with culture Examining their eloquent but often acid responses to each other Powe exposes the scholarly controversies and personal conflicts that erupted between them and notably the great commonalities in their writing and biographies Using interviews letters notebooks and their published texts Powe offers a new alchemy of their thought in which he combines the philosophical hallmarks of McLuhan's The medium is the message and Frye's the great code Media, Structures, and Power Edward A. Comor, 2011-10-30 Media Structures and Power is a collection of the scholarly writing of Canada's leading communication

and media studies scholar Robert E Babe Spanning almost four decades of scholarship the volume reflects the breadth of Babe s work from media and economics to communications history and political economy Babe famously characterized Canadian scholars distinctive contribution to knowledge as uniquely historical holistic and dialectical The essays in Media Structures and Power reflect this particular strength With a clarity of vision Babe critiques mainstream economics Canadian government policy and postmodernist thought in social science Containing introductions and contributions by other prominent scholars this volume situates Babe s work within contemporary scholarship and underscores the extent to which he is one of Canada's most prescient thinkers His interdisciplinary analyses will remain timely and influential well into the McLuhan in Space Richard Cavell, 2002-01-01 Demonstrates how McLuhan extended insights twenty first century derived from advances in physics and artistic experimentation into a theory of acoustic space which he then used to challenge the assumptions of visual space that had been produced through print culture The Medium and the Light Michael McLuhan, 2010-03-01 Say the name Marshall McLuhan and you think of the great discover's explorations of the media But throughout his life McLuhan never stopped reflecting profoundly on the nature of God and worship and on the traditions of the Church Often other intellectuals and artists would ask him incredulously Are you really a Catholic He would answer Yes I am a Catholic the worst kind a convert leaving them more baffled than before Here like a golden thread lining his public utterances on the media are McLuhan's brilliant probes into the nature of conversion the church's understanding of media the shape of tomorrow s church religion and youth and the God making machines of the modern world This fascinating collection gathered from his many and scattered remarks essays and other writings shows the deeply Christian side of a man widely considered the most important thinker of our time a man whose insights into media and culture have revolutionized the field of media study and the way we see the world Marshall McLuhan: Theoretical elaborations Gary Genosko, 2005 This collection contains key critical essays and assessments of the writings of Canadian communications thinker Marshall McLuhan selected from the voluminous output of the past forty years McLuhan s famous aphorisms and uncanny ability to sense megatrends are once again in circulation across and beyond the disciplines Since his untimely death in 1980 McLuhan's ideas have been rediscovered and redeployed with urgency in the age of information and cybernation Together the three volumes organise and present some forty years of indispensable critical works for readers and researchers of the McLuhan legacy The set includes critical introductions to each section by the editor Forthcoming titles in this series include Walter Benjamin 0 415 32533 1 December 2004 3 vols Theodor Adorno 0 415 30464 4 April 2005 4 vols and Jean Francois Lyotard 0 415 33819 0 2005 3 vols The Beatles and McLuhan Thomas MacFarlane, 2013 In the 1960s The Beatles would address like no other musical act a radical shift in the cultural mindset of the late twentieth century Through tools of electric technology this shift encompassed the decline of visual modes of perception and the emergence of a way of knowing based increasingly on sound In this respect the musical works of The Beatles would come to resonate with

and ultimately reflect Marshall McLuhan's ideas on the transition into a culture of all at once ness a simultaneous world in which immersion in vibrant global community increasingly trumps the fixed viewpoint of the individual By engaging with recording technologies in a way that no popular act had before The Beatles opened up for exploration the acoustical space precipitated by this shift In The Beatles and McLuhan Understanding the Electric Age scholar and musician Thomas MacFarlane examines how the incorporation of electric technology in The Beatles art would enhance their musical impact MacFarlane surveys the relationship between McLuhan's ideas on the nature and effects of electric technology and The Beatles own engagement of that technology offers analyses of key works from The Beatles studio years with particular attention paid to the presence of cultural metaphors embedded in the medium of multi track recording and collates these data to offer stunning conclusions about The Beatles creative process in the recording studio and its cultural implications This work also features the first published transcriptions ever of the complete filmed conversation between John Lennon and Marshall McLuhan on their respective ideas as well as an interview between MacFarlane and McLuhan s son and executor Michael McLuhan on his father s and the Beatles legacy The Beatles and McLuhan will interest scholars and students of music and music history recording technology media studies communications and popular culture Marshall McLuhan: The medium is the message Marshall McLuhan, 2005 Buying Happiness Bettina Liverant, 2018-06-01 The idea of Canada as a consumer society was largely absent before 1890 but familiar by the mid 1960s This change required more than rising incomes and greater impulses to buy it involved the creation of new concepts Buying Happiness explores the ways public thinkers represented conceptualized and institutionalized new ideas about consumption and consumer behaviours Topics include the state s creation of the first cost of living index in 1914 15 the development of consumer consciousness during the Depression and the ways in which popular magazines encouraged an ethic of cautious consumerism in the postwar period Bettina Liverant's fresh approach connects changes in consumer consciousness with changes in the economy and behaviour As the figure of the consumer moved from the margins to the centre of social cultural and political analysis the values and concepts associated with consumerism were woven into the Canadian social imagination Canada's 1960s Bryan D. Palmer, 2009-01-01 Focusing on the major movements and personalities of the time as well as the lasting influence of the period Canada's 1960s examines the legacy of this rebellious decade's impact on contemporary notions of Canadian identity

This landmark collection of essays re assesses the existence and re evaluates the contribution of the so called Toronto School of Communication While the theories of Innis and McLuhan are notoriously resistant to neat encapsulation some general themes have emerged in scholarly attempts to situate them within the discipline of communications studies that they helped to define Three such themes focus on the effects and consequences of communications emphasis on communications as a process rather than as structure and a sharp focus on the technology of communication or the medium are the most fundamental in characterizing the unique perspective of the Toronto School This collection not only represents a crucial step in defining the Toronto School it also provides close analysis L'Ère électrique - The Electric Age Olivier Asselin, Silvestra Mariniello, Andrea of the ideas of its individual members Oberhuber, 2011-09-17 La d couverte scientifique et la ma trise de l'ectricit ont boulevers notre soci t au m me titre que l invention de l'criture alphab tique durant l'Antiquit et de l'imprimerie caract res mobiles au XVe si cle Il ne s'agit pas seulement d un ph nom ne naturel mis au service de l homme par la science mais d un l ment central de l pist m moderne l lectricit a inspir des crivains et des artistes a servi de force d impulsion au monde de l industrie et de l innovation et a red fini les comportements sociaux En explorant l'incidence de l'ectricit sur le savoir les pratiques sociales les m dias la vie sociale et les exp riences personnelles cet ouvrage tente d en saisir les aspects techniques et culturels dans toute leur complexit The scientific discovery and mastery of electricity created as many important changes in modern society as did the invention of alphabetical writing in antiquity and movable type in the fifteenth century It is more than a natural phenomenon that science has harnessed for human use it is a central feature of the modern episteme It has inspired writers and artists propelled industry and innovation and reshaped human social behaviour Looking at a variety of topics including film politics and contemporary art this volume explores the impact of electricity on knowledge social practices media community life and subjective experience
