*The Martial Arts Business Arena: Investment, Politics, Profit* H. Richard Friman, Ph.D. et al., Yong-jae Ko, Ph.D., Andrew Tharp, Ph.D., Jin-Bing Yang, Ph.D., 2016-09-30 Martial art business related aspects are found at the base level in individual schools and mushroom to a global level in international organizations This anthology includes writings by professionals who offer information and insights into the financial side of the martial arts Chapters focus on related practical matters as profit politics and investment In the first chapter Dr Richard Friman asks If the martial arts are supposed to offer paths to personal growth and enlightenment why are they in practice plagued with displays of rampant egos politics and battles over turf by their practitioners The experience of instruction in the United States suggests that the pursuit of the arts is becoming lost in the pursuit of profit The next chapter by Dr Yong Jae Ko presents the evolution of the martial arts industry into a global consumer products industry and examines the application of modern business techniques on this industry with a particular focus on marketing strategy It also discusses future opportunities and challenges facing the martial arts industry and offers helpful suggestions In the following chapter Dr Ko and coauthor Dr Jin Bin Yang discuss the global expansion and integration of Asian martial arts Such factors as sportification and standardization are closely examined as significant driving forces for the growth of the martial arts industry This chapter also examines important issues influencing the development and the martial arts industry future growth The next chapter by Dr Yong Jae Ko presents the evolution of the martial arts industry into a global consumer products industry and examines the application of modern business techniques on this industry with a particular focus on marketing strategy It also discusses future opportunities and challenges facing the martial arts industry and offers helpful suggestions In the following chapter Dr Ko and coauthor Dr Jin Bin Yang discuss the global

expansion and integration of Asian martial arts. Such factors as sportification and standardization are closely examined as significant driving forces for the growth of the martial arts industry. This chapter also examines important issues influencing the development and the martial arts industry future growth. The final chapter by Andrew Tharp presents the history that influenced the value of Japanese swords as works of art. The Japanese have created a legal system that has preserved their historical weapons in a way no other society has done. Historical sources and current statutes will show how the Japanese created a monopoly that successfully conserved their culture for future generations. Although this Japanese phenomenon is extraordinary, it also serves to show possibilities for those interested in investing in weaponry from other cultures and augments our appreciation of militaria for their aesthetics. Reading this anthology will help martial art students better understand differences between traditional schools and those that focus solely on profit. Owners can deepen their business acumen and utilize information provided in these chapters to shape their schools program. Of course many are influenced by martial art organizations that may be established on a local level, national or international. As an addition to your regular studies of martial art techniques and traditions, the information you will find here can certainly broaden one's view of the martial arts as a business arena.

**Strategic Management from an Islamic Perspective** Rodrigue Fontaine, Khaliq Ahmad, 2013-07-16 Fascinating insights into modern strategic management from an Islamic perspective. While strategic management is a cornerstone of any MBA program, it's almost always taught from conventional theories and typically American case studies. This book takes those traditional theories and interprets them from an Islamic perspective using more international case studies. Though primarily intended as a textbook for business students, the book is also extremely useful for any Muslim business leaders who want to transform their businesses while complying with Shariah, with a particular focus on developing corporate cultures and structures in sync with Islamic values. Offers a critical review of conventional strategic management theory, suggesting more effective alternatives based on a combination of conventional and Islamic theories. Includes international case studies, each with a particularly Islamic angle. Written by a successful author team that has written extensively on the subject of business management from an Islamic perspective.

**Unleash the Leader** Stanley D. Prueitt, 2014-03-13 We are all born to this earth with a certain set of natural talents, abilities, and a limited amount of precious time. Leaders use their talents and time to achieve great things, while others fail to accomplish much and spend a lot of time doing it. Are leaders born that way? No, anyone can become a leader. This is an entertaining, motivating, and informative handbook that will give you the leadership skills that you need to succeed. Avoid the false starts, detours, potholes, and hairpin turns frequently encountered along the path to becoming a high performance leader and building a winning team. This book introduces a methodology that organizes your goals and walks you through execution and attainment. Develop skills that you can use to understand human behavior, discourage bad behavior, encourage positive behavior, motivate team members, give proper direction, and continuously improve your organization or team. A must read for highly motivated people.
