Alexander C.T. Geppert,Daniel Brandau,Tilman Siebeneichner,2020-12-02 *Militarizing Outer Space* explores the dystopian and destructive dimensions of the Space Age and challenges conventional narratives of a bipolar Cold War rivalry Concentrating on weapons warfare and violence this provocative volume examines real and imagined endeavors of arming the skies and conquering the heavens The third and final volume in the groundbreaking European Astroculture trilogy *Militarizing Outer Space* zooms in on the interplay between security technopolitics and knowledge from the 1920s through the 1980s Often hailed as the site of heavenly utopias and otherworldly salvation outer space transformed from a promised

sanctuary to a present threat where the battles of the future were to be waged Astroculture proved instrumental in fathoming forms and functions of warfare's futures past both on earth and in space The allure of dominating outer space the book shows was neither limited to the early twenty first century nor to current American space force rhetorics **Industrial Magazine** ,1907 **The Province of All Mankind** Stephen Buono,2025-07-15 The Province of All Mankind is the story of a powerful idea about the cosmos Born in the science fiction literature of the nineteenth century and maturing in the Age of Apollo this idea held that outer space should be preserved as a sanctuary from human strife free from weapons warfare and political rivalry If humanity could somehow leave violence behind as it moved into space perhaps peace would finally reign Bucking a half century of space race scholarship Stephen Buono argues that despite waging a totalizing Cold War the United States achieved stunning diplomatic successes that heralded the cosmos as a realm of peace and cooperation The early story of space politics is not primarily one of militarization but rather of political prescience and restraint The Province of All Mankind demonstrates that space became a unique domain of American foreign relations and international law and provides lessons for the Second Cold War unfolding over the horizon Planet Quest Ken Croswell,1999 Are we alone In 1995 planet hunters discovered the first alien solar system around a star like our own Sun Ken Croswell tells the fascinating story of this discovery and the people who made it then explores the possibility that one day we may have the technology to travel to different solar systems and find life *The World of Dystopia* Fritz Reuter Leiber,2018-12-21 Musaicum Books presents to you this unique collection designed and formatted to the highest digital standards and adjusted for readability on all devices Contents The Creature from Cleveland DepthsThe Night of the Long KnivesThe Moon is GreenNice Girl with Five HusbandsAppointment in TomorrowBread OverheadBullet with His NameThe Big EngineA Bad Day for SalesThe Last Letter **Beyond Tomorrow** Ingo Cornils,2020 Shows German Science Fiction's connections with utopian thought and how it attempts Zukunftsbewältigung coping with an uncertain but also unwritten future
