Martin Buber's Life And Work The Later Years 1945-1965 Vol III:

Humanity Divided Manuel Duarte de Oliveira, 2021-09-20 With exacting scholarship and fecund analysis Manuel Oliveira probes through the lens of Martin Buber 1878-1965 the theological and political ambiguities of Israel's divine election. These ambiguities became especially pronounced with the emergence of Zionism. Wary indeed alarmed by the tendency of some of his fellow Zionists to conflate divine chosenness with nationalism Buber sought to secure the theological significance of election by both steering Zionism from hypertrophic nationalism and by a sustained program to revalorize what he called alternately Hebrew Humanism. As Oliveira demonstrates Buber viewed the idea of election teleologically espousing a universal mission of Israel which effectively calls upon Zionism to align its political and cultural project to universal objectives. Thus in addressing a Zionist congress he rhetorically asked: What then is this spirit of Israel of which you are speaking? It is the spirit of fulfillment. Fulfillment of what? Fulfillment of the simple truth that man has been created for a purpose. Our purpose is the upbuilding of peace. And that is its spirit, the spirit of Israel. The people of Israel was charged to lead the way to righteousness and justice.

Martin Buber Maurice S. Friedman, 2003-09-02 Martin Buber *The Life of Dialogue* the first study in any language to provide a complete overview of Buber's thought remains the definitive guide to the full range of his work and the starting point for all modern Buber scholarship. Maurice S. Friedman reveals the implications of Buber's thought for theory of knowledge, education, philosophy, myth, history and Judaic and Christian belief. This fully revised and expanded fourth edition includes a new preface by the author, an expanded bibliography incorporating new Buber scholarship and two new appendices in the form of essays on Buber's influence on Emmanuel Levinas and Mikhail Bakhtin.

Martin Buber's Social and Religious Thought Laurence J. Silberstein, 1990-12 Moore focuses on Buber's central message about what it means to be a human being, a person of faith, and what mankind can do to overcome the eclipse of God. Shofar Solid well researched and sympathetic might well spur a person to go back and read Buber. Commonwealth

The Book of Job in Jewish Life and Thought Jason Kalman, 2021-12-20 Despite its general absence from the Jewish liturgical cycle and its limited place in Jewish practice the Book of Job has permeated Jewish culture over the last 2,000 years. Job has not only had to endure the suffering described in the biblical book but the efforts of countless commentators, interpreters and creative rewriters whose explanations more often than not challenged the protagonist's righteousness in order to preserve Divine justice. Beginning with five critical essays on the specific efforts of ancient, medieval and modern Jewish writers to make sense of the biblical book, this volume concludes with a detailed survey of the place of Job in the Talmud and Midrashic corpus, in medieval biblical commentary, in ethical, mystical and philosophical tracts as well as in poetry and creative writing in a wide variety of Jewish languages from around the world from the second to sixteenth centuries.

Martin Buber Dan Avnon, 1998 In this volume Dan Avnon analyzes and reconstructs Buber's corpus of mature writings revealing the radical nature of Buber's response to the most fundamental questions of human existence. The book

invites the reader to reexamine conventional notions of the role of language thought and writing in communicating impressions of reality An essential introduction to Buber s work and his unique approach to writing **Beyond Theodicy** Sarah K. Pinnock,2012-02-01 Beyond Theodicy analyzes the rising tide of objections to explanations and justifications for why God permits evil and suffering in the world In response to the Holocaust striking parallels have emerged between major Jewish and Christian thinkers centering on practical faith approaches that offer meaning within suffering Author Sarah K Pinnock focuses on Jewish thinkers Martin Buber and Ernst Bloch and Christian thinkers Gabriel Marcel and Johann Baptist Metz to present two diverse rejections of theodicy one existential represented by Buber and Marcel and one political represented by Bloch and Metz Pinnock interweaves the disciplines of philosophy of religion post Holocaust thought and liberation theology to formulate a dynamic vision of religious hope and resistance **Martin Buber and the Human Sciences** Maurice Friedman,2012-02-01 The specific focus of Martin Buber and the Human Sciences is dialogue as the foundation of and integrating factor in the human sciences using dialogue in the special sense which Buber has made famous mutuality presentness openness meeting the other in his or her uniqueness and not just as a content for one s own thought categories and knowing as deriving in the first instance from mutual contact rather than knowledge of a subject about an object By the human sciences the authors editors mean material that can be meaningfully approached in a dialogic way hence the humanities education psychology speech communication anthropology history sociology and economics The essays in Martin Buber and the Human Sciences demonstrate that thirty years after Buber s death his influence is still resonating in many countries and in many fields *Lessons and Legacies IV* ,1991 Essays that illustrate new areas of concern within Holocaust study and that explore neglected issues such as gender and place *Lessons and Legacies IV* Larry V. Thompson,2003-08-13 In authoritative nonpolemical essays on some of the latest and most contentious issues surrounding the Holocaust the contributors to this volume revisit some topics central to Holocaust studies such as the stance of the papacy and the concern about the uses to which the meaning of the Holocaust has been put while expanding research into less examined areas such as propriety sexuality and proximity Various concerned with issues of guilt and victimization the essays examine individuals like Pius XII and Romano Guardini and the institutions of organized religion as well as the roles of the Jewish Councils and the retributive judicial proceedings in Hungary They reveal that victimization within the Holocaust experience is surprisingly open ended with Jewish women doubly victimized by their gender postwar Germans viewing themselves as the epoch s greatest victims Poles whether Jewish or not victimized beyond others because of their proximity to the epicenter of the Holocaust and German university students corrupted by ideological inculcation and racist propaganda Though offering no positive lessons or comforting assurances these essays add to the ongoing examination of Holocaust consequences and offer insightful analyses of facets previously minimized or neglected Together they illustrate that matters of gender sexuality and proximity are crucial for shaping perceptions of a Holocaust reality that will always remain elusive

The Jewish Intellectual Tradition Alan Kadish, Michael A. Shmidman, Simcha Fishbane, 2021-01-19 The Jewish intellectual tradition has a long and complex history that has resulted in significant and influential works of scholarship In this book the authors suggest that there is a series of common principles that can be extracted from the Jewish intellectual tradition that have broad even life changing implications for individual and societal achievement These principles include respect for tradition while encouraging independent often disruptive thinking a precise system of logical reasoning in pursuit of the truth universal education continuing through adulthood and living a purposeful life The main objective of this book is to understand the historical development of these principles and to demonstrate how applying them judiciously can lead to greater intellectual productivity a more fulfilling existence and a more advanced society *A Companion to Continental Philosophy* Simon Critchley, William R. Schroeder, 1998-06-08 Covering the complete development of post Kantian Continental philosophy this volume serves as an essential reference work for philosophers and those engaged in the many disciplines that are integrally related to Continental and European Philosophy *The 20th Century A-GI* Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography *Interreligious Learning* Michael Barnes, 2012 Demonstrates how learning to engage with different religious traditions can deepen and reinvigorate one's own faith **Aesthetics of Renewal** Martina Urban, 2009-05-15 Martin Buber's embrace of Hasidism at the start of the twentieth century was instrumental to the revival of this popular form of Jewish mysticism Hoping to instigate a Jewish cultural and spiritual renaissance he published a series of anthologies of Hasidic teachings written in German to introduce the tradition to a wide audience In *Aesthetics of Renewal* Martina Urban closely analyzes Buber's writings and sources to explore his interpretation of Hasidic spirituality as a form of cultural criticism For Buber Hasidic legends and teachings were not a static canonical body of knowledge but were dynamic and open to continuous reinterpretation Urban argues that this representation of Hasidism was essential to the Zionist effort to restore a sense of unity across the Jewish diaspora as purely religious traditions weakened and that Buber's anthologies in turn played a vital part in the broad movement to use cultural memory as a means to reconstruct a collective identity for Jews As Urban unravels the rich layers of Buber's vision of Hasidism in this insightful book he emerges as one of the preeminent thinkers on the place of religion in modern culture **Martin Buber and the Eternal** Maurice S. Friedman, 1986 A study of the religious philosophy of one of the century's foremost Jewish thinkers The author a Buber scholar summarizes the philosopher's views on ethics and on the history of religion and his dialog with oriental religions An existentialist philosopher

Buber sees salvation as relatedness to others and to divine revelation in day to day events *Martin Buber* Paul Mendes-Flohr, 2002-06-01 This book honors the memory and legacy of Martin Buber one of the most illustrious members of the faculty of the Hebrew University and a leader in the world of philosophy Based on the proceedings of a conference held at the Israel Academy of Sciences and Humanities of which Buber was the founding president this anthology recognizes Buber's singular contribution to the renaissance of Jewish studies and his international stature as a scholar [Books in Print](#) , 1991 **Culture in the Third Reich** Moritz Föllmer, 2020 A ground breaking study that gets us closer to solving the mystery of why so many Germans embraced the Nazi regime so enthusiastically and identified so closely with it [Jewish Curriculum and Resource Guide for the Armed Forces](#) , 1985 [The Internal Foe](#) Jeremy F. Worthen, 2008-12-18 The relationship between Christianity and other religions is a vital issue in the world today This book provides a fresh perspective by exploring how Christian theology has been shaped over two millennia by interaction with its original religious other continuing Judaism It begins by describing the origins of the classic framework in Christianity that correlates claims about the gospel with judgments about Judaism as resistance to the new thing God has done in Jesus Christ This framework binds Christianity to the task of interpreting Jewish presence which then renders engaging with Judaism as well as rehearsing judgments about it integral to Christian theology's development The central chapters of the book demonstrate this in relation to three pivotal periods of Western history 1050 1300 CE early modernity and the first half of the twentieth century They reveal the classic framework to have been remarkably resilient despite sometimes radical adaptation before in and after modernity The insights of Franz Rosenzweig about Judaism as Christianity's internal foe resonate deeply with the book's historical analysis Does this mean that non relativistic Christian theology must remain intrinsically anti Jewish The book concludes that it need not if it can renounce its historic stance of hermeneutical comprehension
