Martin Buber A Centenary Volume:

Martin Buber, a Centenary Volume Hayim Gordon, Jochanan Bloch, 1984 Martin Buber Paul

Mendes-Flohr, 2002-06-01 This book honors the memory and legacy of Martin Buber one of the most illustrious members of the faculty of the Hebrew University and a leader in the world of philosophy Based on the proceedings of a conference held at the Israel Academy of Sciences and Humanities of which Buber was the founding president this anthology recognizes Buber's singular contribution to the renaissance of Jewish studies and his international stature as a scholar *Martin Buber and the Human Sciences* Maurice Friedman, 2012-02-01 The specific focus of Martin Buber and the Human Sciences is dialogue as the foundation of and integrating factor in the human sciences using dialogue in the special sense which Buber has made famous mutuality presentness openness meeting the other in his or her uniqueness and not just as a content for one's own thought categories and knowing as deriving in the first instance from mutual contact rather than knowledge of a subject about an object By the human sciences the authors editors mean material that can be meaningfully approached in a dialogic way hence the humanities education psychology speech communication anthropology history sociology and economics The essays in Martin Buber and the Human Sciences demonstrate that thirty years after Buber's death his influence is still resonating in many countries and in many fields

Martin Buber's Dialogical Thought as a Philosophy of Action Asaf Ziderman, 2024-10-30 This book promotes a philosophical revival of Buber's dialogical thought by repositioning it as a philosophy of action departing from a long established consensus that narrowly viewed it as a post Kantian epistemology Based on careful analysis of his writings the book's main thrust is to reconstruct Buber's argument that dialogue is the perfected form of action and a perfect action is necessarily dialogical This reconstruction renders Buber's dialogical thought pertinent to contemporary analytic philosophy by situating it within central discussions in the field of philosophy of action Volume 9: Kierkegaard and Existentialism Jon Stewart, 2016-12-05 There can be no doubt that most

of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers

and most importantly they critically analyze his purported role in this famous intellectual movement **Martin Buber's Social and Religious Thought** Laurence J. Silberstein,1990-12 Moore focuses on Buber s central message about what it means to be a human being a person of faith and what mankind can do to overcome the eclipse of God Shofar Solid well researched and sympathetic might well spur a person to go back and read Buber Commonwealth **Volume 19, Tome VI: Kierkegaard Bibliography** Peter Šajda,Jon Stewart,2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies **Martin Buber** Maurice S. Friedman,2003-09-02 Martin Buber The Life of Dialogue the first study in any language to provide a complete overview of Buber s thought remains the definitive guide to the full range of his work and the starting point for all modern Buber scholarship Maurice S Friedman reveals the implications of Buber s thought for theory of knowledge education philosophy myth history and Judaic and Christian belief This fully revised and expanded fourth edition includes a new preface by the author an expanded bibliography incorporating new Buber scholarship and two new appendices in the form of essays on Buber s influence on Emmanuel Levinas and Mikhail Bakhtin

Martin Buber on Myth (RLE Myth) S. Daniel Breslauer,2015-03-05 This book first published in 1990 summarizes and evaluates the contribution of Martin Buber as a theorist of myth Buber provides explicit guidelines for understanding and evaluating myths He describes reality as twofold people live either in a world of things to which they relate as a subject controlling its objects or in a world of self conscious others with whom one relates as fellow subjects Human beings require both types of reality but also a means of moving from one to the other Buber understands myths as one such means by which people pass from I It reality to I You meeting In studying myths he focuses on the myths in the traditions he knows best but offers his advice and interpretation of mythology and scholarship about mythology generally *The Impact of Religion* Michael Welker,John Witte,Stephen Pickard,2022-07-29 Pluralism has become the defining characteristic of modern societies Individuals with differing values clamor for equality Organizations and groups assert particular interests Social movements flourish and fade Some see in this clash of principles and aims the potential for a more just human community while others fear the erosion of enduring culture Yet beneath this welter stand powerful and pervasive institutions whose distinctive norms profoundly shape our moral commitments and character notably the family the market the media and systems of law religion politics research education health care and defense Drawing on scholarship from five continents many disciplines and diverse religious perspectives this series examines the impact of these various institutions on moral education character

and values As globalization carries the shifting dynamic between individuals and institutions into every part of the globe the contributors hope that this conversation will help address the increasing challenges confronting our pluralist societies and our world The overwhelming majority of the contributions in this volume deal with the Christian religion as pluralistic societies today thrive substantially in Christian environments Contributions by Peter Carnley Gregor Etzel Johannes Eurich Jennifer Herdt Adriel Kosman Piet Naud Waihan Ng Friederike Nessel Bernd Oberdorfer Martin Percy Stephen Pickard Raja Sakrani William Schweiker Philipp Stoellger Milton Wan Renee Ip Michael Welker and John Witte Jr

Abraham's Promise Wyschogrod, 2004-09 Abraham's Promise presents a selection of important writings by noted Jewish philosopher theologian Michael Wyschogrod who is widely admired for his singular contributions to Jewish Christian relations Including several pieces never published before this reader aptly captures the broad scope of Wyschogrod's work on Judaism and the Jewish Christian encounter collecting seminal essays articles and reviews that address such topics as the God of Abraham and the God of philosophy sin and atonement Judaism and the land the Six Day War Paul on Jews and Gentiles and the theology of Karl Barth An introductory essay by editor R Kendall Soulen sets Wyschogrod's career and writings in context *The Pursuit of the Ideal* Menachem Kellner, 2012-02-01 Steven Schwarzschild rabbi socialist pacifist theologian and philosopher is both the last of the major medieval Jewish philosophers and the most modern He is in the tradition of the Jewish thinking that began with Saadia Gaon and reached its highest expression in Maimonides These thinkers believed that Judaism must confront some systematic view of the universe Saadia did this with Kalam ibn Gabirol with Neo Platonism and Maimonides with Aristotelianism Schwarzschild does it with Neo Kantianism From this confrontation Schwarzschild derives important insights into the nature and structure of contemporary Judaism and Jewish existence in the post modern world Menachem Kellner brings together thirteen of Schwarzschild's Jewish as opposed to straightforwardly philosophical writings Included are important discussions of messianism death of God theology ethics aesthetics and politics The common concerns underlying these essays are Neo Kantian idealism and messianism In an afterword written especially for this book Schwarzschild shows that these two foci are really one In an introductory essay Menachem Kellner explores the philosophic underpinning of Schwarzschild's non Marxist socialism pacifism and messianism and of his critiques of Christianity political conservatism and Zionism **The Word and the Spiritual Realities (the I and the Thou)**

Ferdinand Ebner, 2021 This volume will constitute the first published English translation of Ferdinand Ebner's seminal 1921 work *Das Wort und die geistigen realitäten* long available in major languages but never in English It is frequently compared with Martin Buber's *I and Thou* published in 1923 which actually draws its central I Thou insight from Ebner In recent centuries Philosophy reflects a turn toward the autonomous subject vs a biblical sense of person The limits failures of science manifest in the horrors of World War I led to the emergence of a Dialogical Personalist Philosophy in reaction to the universal doubt of Cartesian thought and to German Idealism which engages the idea or representation but not the reality of things in

themselves The core of Ebner human speech is constitutive of human existence humans are given the word Having the word is a miraculous gift from God It is only in the word in language that an I meets a Thou that relationship and self identity can occur and this word is given in Jesus Christ the Word made flesh In the beginning was the Word Jesus the Logos of St John s Gospel mediates between God and man and stands between I and Thou It is through Jesus that it is possible to address God in the human thou The key to life s meaning to the centrality of relationship and to God s continuous action in His creation is found in the I Thou question why the I can never be found in itself and so must look in the thou while the false I will try to possess the thou as an object of power This is Ebner s critique of idealist thought reality truth and personal identity are neither ideas nor found in ideas therefore Descartes cogito must be rejected for the existence of the I can t be founded or proved by solitary thinking but only in relation with a thou

Hegel's Ethics of Recognition Robert R. Williams,1997 A comprehensive account of Hegel s conception of recognition as the general pattern of ethical life The author explores Hegel s intersubjective concept of spirit and shows how the idea of recognition illumines his understanding of crime morality the family and war

Modern Judaism and Historical Consciousness Andreas Gotzmann,Christian Wiese,2007 Written by leading authors in their respective fields this first comprehensive handbook on the relationship between modern Judaism and historical thinking contributes to a differentiated interpretation of Jewish historiography and its interaction with other academic disciplines since the Enlightenment

Gog and Magog Georges Tamer,Andrew Mein,Lutz Greisiger,2023-12-31 The tale of a collective evil force known as Gog and Magog has occupied the imagination of Jews Christians and Muslims for millennia finding expression in literary and scholarly works and other cultural artifacts This book gathers the papers from two conferences at the University of Erlangen Nuremberg by scholars ranging from history to religious studies to art history and is the most thorough work on the subject to date

Elevations Richard A. Cohen,1994-10-26 Elevations is a series of closely related essays on the ground breaking philosophical and theological work of Emmanuel Levinas and Franz Rosenzweig two of the twentieth century s most important Jewish philosophers Focusing on the concept of transcendence Richard A Cohen shows that Rosenzweig and Levinas join the wisdom of revealed religions to the work of traditional philosophers to create a philosophy charged with the tasks of ethics and justice He describes how they articulated a responsible humanism and a new enlightenment which would place moral obligation to the other above all other human concerns This elevating pull of an ethics that can account for the relation of self and other without reducing either term is the central theme of these essays Cohen also explores the ethical philosophy of these two thinkers in relation to Nietzsche Husserl Heidegger Buber Sartre and Derrida The result is one of the most wide ranging and lucid studies yet written on these crucial figures in philosophy and Jewish thought

American Rabbi Steven T. Katz,1997-03 American Rabbi provides a comprehensive and insightful assessment of Rabbi Jacob Agus standing as a notable Jewish thinker The volume brings together original writings by a range of distinguished contributors to consider the main aspects of Agus life and work

in detail and to flesh out the broad and repercussive themes of his corpus Taken as a whole they present a broad and substantial picture of a remarkable American Rabbi and scholar illuminating Agus commitment to Jewish people everywhere his profound and unwavering spirituality his continual reminders of the very real dangers of pseudo messianism and misplaced romantic zeal and his willingness to take politically and religiously unpopular stands Formulated as a companion volume to *The Essential Agus* which presents selections of Agus own writings the contributors analyses are based on specific selections of Agus work which appear in *The Essential Agus* Though each volume stands on its own they are closely interconnected and readers will benefit from consulting both works *Rewriting Moses* Brian Britt, 2004-08-01 Exalted for centuries as a hero and author of the Bible Moses is inseparable from biblical tradition itself Moses is also an inherently ambiguous figure and a perennial focus of controversy from ancient disputes of priestly rivalry to modern issues of class gender and race In *Rewriting Moses* Brian Britt analyses elements of polemic and ideology in the Moses of the Bible of film novel visual art and scholarship He argues that the biblical Moses lives within writing while the post biblical Moses lives more often in biography Yet later rewritings of Moses refract biblical traditions of writing in surprising ways *Rewriting Moses* provides an original account of the Freudian insight that traditions preserve what they repress This is volume 14 in the *Gender Culture Theory* series and is volume 402 in the *Journal for the Study of the Old Testament Supplements* series

The Philosopher's Gaze David Michael Levin, 2023-04-28 David Michael Levin's ongoing exploration of the moral character and enlightenment potential of vision takes a new direction in *The Philosopher's Gaze* Levin examines texts by Descartes Husserl Wittgenstein Nietzsche Heidegger Benjamin Merleau Ponty and Levinas using our culturally dominant mode of perception and the philosophical discourse it has generated as the site for his critical reflections on the moral culture in which we are living In Levin's view all these philosophers attempted to understand one way or another the distinctive pathologies of the modern age But every one also attempted to envision if only through the faintest of traces traces of mutual recognition traces of another way of looking and seeing the prospects for a radically different lifeworld The world after all inevitably reflects back to us the character the reach and range of our vision In these provocative essays the author draws on the language of hermeneutical phenomenology and at the same time refines phenomenology itself as a method of working with our experience and thinking critically about the culture in which we live This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 David Michael Levin's ongoing exploration of the moral character and enlightenment potential of vision takes a new direction in *The Philosopher's Gaze* Levin examines texts by Descartes Husserl Wittgenstein Nietzsche Heidegger Benjamin Merleau
