## **Martin Bubers Life Work Middle Years:**

**A Year with Martin Buber** Dennis S. Ross, 2021-12 In A Year with Martin Buber the first Torah commentary to focus on his life s work we experience the fifty four weekly portions and eleven Jewish holidays through Buber s eyes     **A**

**Companion to Martin Buber** Paul Mendes-Flohr, 2025-06-25 A definitive international guide to the thought of the most important twentieth century Jewish philosopher In his 1923 essay I and Thou the philosopher theologian and activist Martin Buber introduced a philosophy of dialogue that achieved a global interdisciplinary resonance For Buber dialogue was more than a conversation dialogue discloses something essential about our orientation and our lives with one another This companion assembles twenty six scholars from a dozen countries to explore Buber s international reputation and legacy in education interfaith relations Judaism philosophy politics and psychology The result is an essential guide to one of the most influential Jewish thinkers of the twentieth century     **Martin Buber's Theopolitics** Samuel Hayim Brody, 2018-02-16 How did one of the greatest Jewish thinkers of the 20th century grapple with the founding of Israel and the Israeli Palestinian conflict one of the most significant political conflicts of his time Samuel Hayim Brody traces the development of Martin Buber s thinking and its implications for the Jewish religion for the problems posed by Zionism and for the Zionist Arab conflict Beginning in turbulent Weimar Germany Brody shows how Buber s debates about Biblical meanings had concrete political consequences for anarchists socialists Zionists Nazis British and Palestinians alike Brody further reveals how Buber s passionate commitment to the rule of God absent an intermediary came into conflict in the face of a Zionist movement in danger of repeating ancient mistakes Brody argues that Buber s support for Israel stemmed from a radically rich and complex understanding of the nature of the Jewish mission on earth that arose from an anarchist reading of the Bible

**Martin Buber and the Human Sciences** Maurice Friedman, 2012-02-01 The specific focus of Martin Buber and the Human Sciences is dialogue as the foundation of and integrating factor in the human sciences using dialogue in the special sense which Buber has made famous mutuality presentness openness meeting the other in his or her uniqueness and not just as a content for one s own thought categories and knowing as deriving in the first instance from mutual contact rather than knowledge of a subject about an object By the human sciences the authors editors mean material that can be meaningfully approached in a dialogic way hence the humanities education psychology speech communication anthropology history sociology and economics The essays in Martin Buber and the Human Sciences demonstrate that thirty years after Buber s death his influence is still resonating in many countries and in many fields     **Martin Buber on Myth (RLE Myth)** S. Daniel Breslauer, 2015-03-05 This book first published in 1990 summarizes and evaluates the contribution of Martin Buber as a theorist of myth Buber provides explicit guidelines for understanding and evaluating myths He describes reality as twofold people live either in a world of things to which they relate as a subject controlling its objects or in a world of self conscious others with whom one relates as fellow subjects Human beings require both types of reality but also a means of moving from

one to the other Buber understands myths as one such means by which people pass from I It reality to I You meeting In studying myths he focuses on the myths in the traditions he knows best but offers his advice and interpretation of mythology and scholarship about mythology generally     *Schools of Recognition* Charles Bingham,2001-04-11 Schools are places where various cultures and identities must be recognized yet there has been little research into what it means to recognize another person identity or culture Drawing on the writings of Charles Taylor Martin Buber Judith Butler and Jessica Benjamin Schools of Recognition provides a rich picture of how recognition is negotiated in education Using political theory existentialism queer theory and psychoanalysis Bingham shows that recognition can be fostered not only through the books that students read but also through the ways that they learn to engage with other human beings Recognition depends not only on receiving acknowledgement but also on giving acknowledgement It depends not only on what we learn from others about ourselves but also on what we are able to teach others about themselves     Judah L. Magnes Daniel P.

Kotzin,2010-08-17 Judah L Magnes 1877 1948 was an American Reform rabbi Jewish community leader and active pacifist during World War I In the 1920s he moved to British Mandatory Palestine where he helped found and served as first chancellor of the Hebrew University of Jerusalem Later in the 1930s and 1940s he emerged as the leading advocate for the binational plan for Palestine In these varied roles he actively participated in the major transformations in American Jewish life and the Zionist movement during the first half of the twentieth century Kotzin tells the story of how Magnes immersed in American Jewish life Zionism and Jewish life in Mandatory Palestine rebelled against the dominant strains of all three His tireless efforts ensured that Jewish public life was vibrant and diverse and not controlled by any one faction within Jewry Magnes brought American ideals to Palestine and his unique conception of Zionism shaped Jewish public life in Palestine influencing both the development of the Hebrew University and Zionist policy toward Arabs     Jewish Translation History Robert Singerman,2002-11-29 A classified bibliographic resource for tracing the history of Jewish translation activity from the Middle Ages to the present day providing the researcher with over a thousand entries devoted solely to the Jewish role in the east to west transmission of Greek and Arab learning and science into Latin or Hebrew Other major sections extend the coverage to modern times taking special note of the absorption of European literature into the Jewish cultural orbit via Hebrew Yiddish or Judezmo translations for instance or the translation and reception of Jewish literature written in Jewish languages into other languages such as Arabic English French German or Russian This polyglot bibliography the first of its kind contains over 2 600 entries is enhanced by a vast number of additional bibliographic notes leading to reviews and related resources and is accompanied by both an author and a subject index     **Martin Buber** Dan Avnon,1998 In this volume Dan Avnon analyzes and reconstructs Buber s corpus of mature writings revealing the radical nature of Buber s response to the most fundamental questions of human existence The book invites the reader to reexamine conventional notions of the role of language thought and writing in communicating impressions of reality An essential introduction to

Buber's work and his unique approach to writing     **Culture in the Third Reich** Moritz Föllmer, 2020-07-10 It's like being in a dream commented Joseph Goebbels when he visited Nazi occupied Paris in the summer of 1940 Dream and reality did indeed intermingle in the culture of the Third Reich racialist fantasies and spectacular propaganda set pieces contributing to this atmosphere alongside more benign cultural offerings such as performances of classical music or popular film comedies A cultural palette that catered to the tastes of the majority helped encourage acceptance of the regime The Third Reich was therefore eager to associate itself with comfortable middle brow conventionality while at the same time exploiting the latest trends that modern mass culture had to offer And it was precisely because the culture of the Nazi period accommodated such a range of different needs and aspirations that it was so successfully able to legitimize war imperial domination and destruction Moritz Föllmer turns the spotlight on this fundamental aspect of the Third Reich's successful cultural appeal in this ground breaking new study investigating what culture meant for people in the years between 1933 and 1945 for convinced National Socialists at one end of the spectrum via the legions of the apparently unpolitical right through to anti fascist activists Jewish people and other victims of the regime at the other end of the spectrum Relating the everyday experience of people living under Nazism he is able to give us a privileged insight into the question of why so many Germans enthusiastically embraced the regime and identified so closely with it

**Dialogically Speaking** Kenneth Paul Kramer, 2011-01-01 What makes us authentically human According to Maurice Friedman world renowned Martin Buber scholar translator and biographer it is genuine dialogue When there's a willingness for dialogue Friedman says then one must navigate moment by moment It's a listening process Friedman addresses our humanity in ever unique ways through his dialogue with philosophy literature religion and psychotherapy At least two things make this book new Friedman presents his wide ranging thought directly in five original essays forming an intertextual compass which is then elaborated upon by colleagues familiar with his work Second a special feature of this book is found at the end of each part which invites readers to engage with questions drawn from and pointing toward Friedman's writing The book's intended audience includes teachers scholars and students interested in dialogical approaches to any of the human sciences In a time when we are in danger of losing our human birthright Friedman's interdisciplinary insights point us again to the touch of the other

**Redemptive Hope** Akiba J. Lerner, 2015-09-01 This is a book about the need for redemptive narratives to ward off despair and the dangers these same narratives create by raising expectations that are seldom fulfilled The quasi messianic expectations produced by the election of President Barack Obama in 2008 and their diminution were stark reminders of an ongoing struggle between ideals and political realities Redemptive Hope begins by tracing the tension between theistic thinkers for whom hope is transcendental and intellectuals who have striven to link hopes for redemption to our intersubjective interactions with other human beings Lerner argues that a vibrant democracy must draw on the best of both religious thought and secular liberal political philosophy By bringing Richard Rorty's pragmatism into conversation with

early twentieth century Jewish thinkers including Martin Buber and Ernst Bloch Lerner begins the work of building bridges while insisting on holding crucial differences in dialectical tension Only such a dialogue he argues can prepare the foundations for modes of redemptive thought fit for the twenty first century *20th Century Jewish Religious Thought* Arthur A. Cohen,Paul Mendes-Flohr,2010-01-01 JPS is proud to reissue Cohen and Mendes Flohr s classic work perhaps the most important comprehensive anthology available on 20th century Jewish thought This outstanding volume presents 140 concise yet authoritative essays by renowned Jewish figures Eugene Borowitz Emil Fackenheim Blu Greenberg Susannah Heschel Jacob Neusner Gershom Scholem Adin Steinsaltz and many others They define and reflect upon such central ideas as charity chosen people death family love myth suffering Torah tradition and more With entries from Aesthetics to Zionism this book provides striking insights into both the Jewish experience and the Judeo Christian tradition **Martin Buber's Life and Work**

Maurice S. Friedman,1988 Martin Buber s Life and Work is a complete reprint of Maurice Friedman s monumental three volume biography Friedman covers Buber s life from his work on I and Thou to the challenges of Nazi Germany and prewar Palestine He charts Buber s activities on behalf of Jewish Arab rapprochement his dialogue with Dag Hammarskjold and comments on the philosopher s last years his death and his legacy to world Jewry *Moments of Meeting* Kenneth N. Cissna,Rob Anderson,2012-02-01 Moments of Meeting tells the story of a uniquely important event in twentieth century intellectual history the 1957 public dialogue of philosopher Martin Buber and psychotherapist Carl Rogers and explores the practical implications of that event for contemporary social and cultural theory Supported by original historical research close textual analysis and a variety of interviews the book illuminates the careers theories and practices of two of the last century s foremost scholars of dialogue while it clarifies what they shared in common Following a careful case study of the Buber Rogers public conversation about the dynamics of dialogue itself the authors conclude that public dialogue cannot be built primarily upon skillful technique Instead we must support settings and attitudes that enable unique moments of meeting *Western Jewry and the Zionist Project, 1914-1933* Michael Berkowitz,2003-04-10 This 1996 study of the

Zionist movement in Germany Britain and the United States recognizes Western Zionism as a distinctive force From the First World War until the rise of Hitler the Zionist movement encouraged Jews to celebrate aspects of a reborn Jewish nationality and sovereignty in Palestine while at the same time acknowledging that their members would mostly stay put and strive toward acculturation in their current homelands The growth of a Zionist consciousness among Western Jews is juxtaposed with the problematic nurturing of the movement s institutions as Zionism was consumed increasingly by fundraising In the 1930s Zionist images assumed a progressively greater share of secular Jewish identity and Zionism became normalized in the social landscape of Western Jewry but the organization faltered in translating its popularity into a means of saving the Jews and building up the national home in Palestine *Lessons and Legacies IV*,1991 Essays that illustrate new areas of concern within Holocaust study and that explore neglected issues such as gender and place *Jewish Curriculum and Resource*

*Guide for the Armed Forces*, 1985    **Early Ecotheology and Joseph Sittler** Panu Pihkala, 2017 When did Christians begin to address environmental questions? What can be learned from these pioneering thinkers? This study reveals that between 1910 and 1954 many theologians called for responsibility towards nature. The focal point is the work of Joseph Sittler (1904–1987) an American Lutheran and ecumenical theologian. The role of these early ecotheologians is discussed in relation to environmental history and education. The findings show that ecotheology was not as strongly separated from other environmentalism as it was after the 1960s. Series: Studies in Religion and the Environment Studien zur Religion und Umwelt Vol 12 Subject: Religious Studies Environmental Studies Ecotheology Joseph Sittler

**Creating a Judaism Without Religion** Daniel S. Breslauer, 2001–09 This book examines how some modern and contemporary Jewish thinkers and writers have imagined a Judaism without the boundaries and restrictions that go by the name of religion. The book offers scholarly insights into some Jewish thinkers notably Martin Buber and Eugene Borowitz some Jewish writers in particular the poet Hayyim Nahman Bialik and the Yiddish author I L Peretz. The study also introduces more contemporary thinkers and writers such as the postmodernist Jacques Derrida the contemporary Israeli novelist David Grossman and the young Israeli poet Ilan Sheinfeld. While of scholarly interest the ten chapter work has more general appeal as a way of conceiving Jewish living outside the restrictions of religion. One third of the book suggests a way of looking at God and theology as part of the process of living rather than as fixed realities. Another third explores how Jewish culture can be liberated from the restrictions of nationalism and parochialism. The final third focuses on a postmodern ethics of the self that emerges from face to face meetings with others. The author contends that the future Judaism has created will be pluralistic diverse and oriented toward the future.
