**The Extra Pharmacopoeia of Martindale and Westcott**, 1924 *Essential Oils* Jennifer Peace Rhind, David Pirie, 2012 A revised edition provides full information on the creation and use of more than 100 essential oils in contemporary aromatherapy based on the research behind their therapeutic applications Original **Pharmaceutical Dosage Forms** Larry L. Augsburger, Stephen W. Hoag, 2017-10-30 **Pharmaceutical Dosage Forms Capsules** covers the development composition and manufacture of capsules Despite the important role that capsules play in drug delivery and product development few comprehensive texts on the science and technology of capsules have been available for the research and academic environments This text addresses this gap discussing how capsules provide unique capabilities and options for dosage form design and formulation **Materia Medica of Western Herbs** Carole Fisher, 2018-06-06 Based on the original *Materia Medica of Western Herbs* by Carole Fisher and Gilian Painter this volume has been expanded and updated to include botanical scientific pharmacy and safety information It is designed for worldwide use and contains detailed monographs of 180 medicinal herbs There are appendices to help students understand pharmacological and medicinal actions a glossary listing the known actions of common constituents a table of interactions and a comprehensive therapeutic index This textbook is valuable not only for students and practitioners of herbal medicine but is also of use to any health provider who wishes to know more about how and why herbs work and the safety issues related to them **Drug Dosage in Renal Insufficiency** G. Seyffart, 2012-12-06 Drug dosage in renal insufficiency has become an toxication In 1975 his *Poison Index* was pub important facet of nephrology a subspeciality of lished first in German and two years later in internal medicine which is only 30 years young but English with supplements in 1979 and 1983 This constantly growing in scope and importance Two volume has become an obligatory reference in more thirds of all drugs are partially mainly or exclu than 2500 dialysis units sively excreted by the kidneys In the presence of Based on GÖnter Seyffart s experience and renal insufficiency dose adjustments are therefore knowledge in this field the plans for this book obligatory In patients on dialysis drug elimination matured in 1984 a logical step in view of his by this route must also be considered untiring effort and diligence In order to deal with As the reader of this book will discover 20 more than 1200 different drugs and almost 4000 percent of currently used drugs are contraindicated references 21 contributors were solicited while it where there is any degree of renal insufficiency took six years to complete the work The major and for at least another 60 percent a dose reduc share of the effort was thus left to the main author tion is required It is obvious therefore that the and editor and he has produced a concise work of detailed knowledge required can never be com impressive clarity **The Extra Pharmacopoeia of Martindale and Westcott** William Martindale, 1912 **The Dictionary of Drugs: Chemical Data** J. Elks, 2014-11-14 **Analytical Profiles of Drug Substances and Excipients**, 1993-11-17 Although the official compendia define a drug substance as to identity purity strength and quality they normally do not provide other physical or chemical

data nor do they list methods of synthesis or pathways of physical or biological degradation and metabolism. Such information is scattered throughout the scientific literature and the files of pharmaceutical laboratories. Analytical Profiles of Drug Substances and Excipients brings this information together into one source. The series has recently been expanded to include profiles of excipient materials. Handbook of Phytochemical Constituents of GRAS Herbs and Other Economic Plants James A. Duke, 2017-12-06. CRC Handbook of Phytochemical Constituents of GRAS Herbs and Other Economic Plants is a unique catalog that includes more than 15 000 phytochemical constituents from over 1 000 higher plant species. This volume covers all of the generally recognized as safe GRAS herbs and at least 250 important food and medicinal plants. Each entry features the scientific name, one or more common names, a listing of phytochemical constituents, a single datum or range of quantitative data, wet weight to dry weight in parts per million, two letter abbreviation identifying the plant part, and three letter abbreviation indicating the source of the data. The extraordinary amount of data compiled into an easy to use tabular format makes the CRC Handbook of Phytochemical Constituents of GRAS Herbs and Other Economic Plants a volume useful to all pharmacologists, toxicologists, nutritionists, pharmacognicists, and food scientists. Dictionary of Food Compounds Shmuel Yannai, 2012-10-23. The increasing world population, competition for arable land, and rich fishing grounds and environmental concerns mandate that we exploit in a sustainable way the earth's available plant and animal resources for human consumption. To that end, food chemists, technologists, and nutritionists engage in a vast number of tasks related to food availability, quality, safety, nutritional value, and sensory properties, as well as those involved in processing, storage, and distribution. To assist in these functions, it is essential they have easy access to a collection of information on the myriad compounds found in foods. This is particularly true because even compounds present in minute concentrations may exert significant desirable or negative effects on foods. Includes a foreword by Zdzislaw E. Sikorski, Gdansk University of Technology, Poland. Editor of the CRC Press Chemical Functional Properties of Food Components Series. Dictionary of Food Compounds, Second Edition, is presented in a user friendly format in both hard copy and fully searchable, downloadable resources. It contains entries describing natural components of food, raw materials and products, as well as compounds added to foods or formed in the course of storage or processing. Each entry contains the name of the component, the chemical and physical characteristics, a description of functional properties related to food use, and nutritional and toxicological data. Ample references facilitate inquiry into more detailed information about any particular compound. Food Compounds Covered: Natural Food Constituents, Lipids, Proteins, Carbohydrates, Fatty acids, Flavonoids, Alkaloids, Food Contaminants, Mycotoxins, Food Additives, Colorants, Preservatives, Antioxidants, Flavors, Nutraceuticals, Probiotics, Dietary Supplements, Vitamins. This new edition boasts an additional 12 000 entries for a total of 41 000 compounds, including 900 enzymes found in food. No other reference work on food compounds is as complete or as comprehensive. Adverse Effects of Herbal Drugs, 2012-12-06. This book series gives a comprehensive overview of the adverse effects of botanical medicines. It provides introductory

information on Botany Chemistry Pharmacology and Uses followed by an Adverse Reaction Profile subdivided according to organ and function The third contribution to the series gives important information about eighteen specific medicinal herbs and important plant constituents The herbs and constituents have been selected for several reasons such as a prominent place in phytotherapy clinical expectations about therapeutic potential and recent concern about a serious adverse reaction The World Health Organization Regional Office for Europe Copenhagen has supported the book in the form of an acknowledgement that has been prepared by this Office *JNCI, Journal of the National Cancer Institute* National Cancer Institute (U.S.),1979 **Dictionary of Inorganic Compounds** Jane E. Macintyre,1992-07-23 The Dictionary of Inorganic Compounds presents fundamental information on more than 42 000 of the most important and useful inorganic compounds each screened for inclusion according to rigorous criteria With its combination of numerical textual and bibliographic data you typically can find all the information you need in this one publication Organized according to empirical name and indexed by name structural type and CAS Registry number each entry includes Compound name synonyms and physical description CAS Registry number Formula and formula weight Structural type with a diagram or description Source or synthesis Stability solubility melting and boiling points sublimations conditions and vapor pressure Hazard toxicity Spectroscopic information References Supplements to the main work available separately provide information on newer compounds and revised data on compounds already listed Indexes in the second and subsequent supplements are cumulative providing quick access to entries in all the supplements from a single index **Agatha Christie and the Guilty Pleasure of Poison** Sylvia A. Pamboukian,2022-11-12 Agatha Christie and the Guilty Pleasure of Poison examines Christie s female poisoners in the context of Christie s own experience in pharmacy and of detective fiction In doing so it uncovers an overlooked dynamic in which female poisoners deliver well deserved comeuppance for gendered and classed wrongdoing ordinarily accepted in everyday life While critics have long recognized male outlaws like Robin Hood who use crime to oppose a corrupt system this book contends that female outlaws witches and poisoners offer a similar heritage of empowered femininity Far from cozy and formulaic Agatha Christie s outlaw poisoners offer readers the surprising pleasures of comeuppance and they set the stage for contemporary detective fiction writers more recent films depicting poisoning as empowering and even poison gardens which are tourist destinations that offer visitors the guilty pleasure of poison *American Journal of Hospital Pharmacy* ,1989-04 *The Pharmaceutical Era* ,1925 *Handbook of African Medicinal Plants* Maurice M. Iwu,2014-02-04 A comprehensive review of over 2 000 species of plants employed in indigenous African medicine this book provides a concise description of the materia medica of an enormous and extensively varied continent It includes a detailed pharmacognostical profile of 170 of the major herbs including the common name synonyms African names habitat and distribution medicinal uses chemical constituents and published pharmacologic activity The profiles are presented in both alphabetic order and according to family The book also provides an introduction to African traditional medicine **Facing the Pancreatic**

**Dilemma** M. Falconi, Paolo Pederzoli, Giorgio Cavallini, Claudio Bassi, 2012-12-06 This volume is a compendium of the lectures presentations and workshops of the International Congress entitled Facing the Pancreatic Dilemma and of the 17th Meeting of the Italian Association for the Study of the Pancreas held in Verona on 16-19 June 1993. Pancreatology is still a relatively young science. Many pathophysiological aspects of pancreatic disease are as yet obscure and a fair number of the etio-pathogenetic mechanisms adduced are no more than hypothetical. We have therefore chosen to compare and contrast in a single volume the various hypotheses and interpretations put forward by leading experts in the field. In view of the swift evolution of this branch of medical science it is sound policy to bear in mind that yesterday's heresies have become today's orthodoxy and that today's heresies may well turn out to be accepted orthodoxy in a not too distant future. The various pancreatic dilemmas are addressed systematically in these pages and we believe that the book will prove an invaluable tool for the specialist and for any physician dealing with pancreatic disease. The book also represents a tribute by the Verona School of Pancreatology to the memory of Prof. L. A. Scuro, founder of the School and one of the outstanding Italian pioneers of pancreatology.
