Marx And Feminism:

Marxism and Feminism Shahrzad Mojab, 2015-03-12 Global events from economic crisis to social unrest and militarization disproportionately affect women. Yet around the world it is also women who are leading the struggle against oppression and exploitation. In light of renewed interest in Marxist theory among many women activists and academics, *Marxism and Feminism* presents a contemporary and accessible Marxist feminist analysis on a host of issues. It reassesses previous debates and seeks to answer pressing questions of how we should understand the relationship between patriarchy and capitalism and how we can envision a feminist project which emancipates both women and society. With contributions from both renowned scholars and new voices, *Marxism and Feminism* is set to become the foundational text for modern Marxist feminist thought.

Marxism and the Oppression of Women Lise Vogel, 2013-06-03 Nearly thirty years after its initial publication, *Marxism and the Oppression of Women* remains an essential contribution to the development of an integrative theory of gender oppression under capitalism. Lise Vogel revisits classical Marxian texts, tracking analyses of the woman question in socialist theory and drawing on central theoretical categories of Marx's *Capital* to open up an original theorisation of gender and the social production and reproduction of material life. Included in this edition are Vogel's article 'Domestic Labor Revisited' originally published in *Science Society* in 2000, which extends and clarifies her main theoretical innovations, and a new Introduction by Susan Ferguson and David McNally situating Vogel's work in the trajectory of Marxist feminist thought over the past forty years.

Marx, Women, and Capitalist Social Reproduction Martha E. Giménez, 2018-10-08 In *Marx Women and Capitalist Social Reproduction*, Martha E. Gimenez offers a distinctive perspective on social reproduction which posits that the relations of production determine the relations of social reproduction and links the effects of class exploitation and location to forms of oppression predominantly theorised in terms of identity. Grounding her analysis on Marx's theory and methodology, Gimenez examines the relationship between class reproduction and the oppression of women in different contexts such as the reproduction of labour power, domestic labour, feminisation of poverty and reproductive technologies. Because most women and men, whether members of dominant or oppressed groups, are working class, she argues that the future of feminist politics is inextricably tied to class politics and the fate of capitalism.
