Marx Before Marxism By McLellan David:

Marx Before Marxism David McLellan, 1980 **Karl Marx and Friedrich Engels (RLE Marxism)** Cecil L. Eubanks, 2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels *Marxism, Religion and Ideology* David Bates, Iain MacKenzie, Sean Sayers, 2015-10-05 As austerity measures are put into place the world over and global restructuring is acknowledged by all as an attempt to bolster the economic system that led to the crash there is a great need to come to grips with the economic political and philosophical legacy of Marx Of particular interest are Marx's analyses of alienation and the cycles of boom and bust thought to be integral to the functioning of capitalism Moreover as the Cold War drifts into the history books it is possible to reconsider the lasting impact of Marx's analyses without the shadows cast by the Soviet version of communism Equally though scholars are increasingly turning to Marx for insight into the rise of religion and the corresponding demise of political ideologies that seems to mark the contemporary age Are we witnessing the return of Marx Few scholars have done as much to tease out the intricacies of Marx ideology and religion and their overlapping concerns as the eminent writer and Marx biographer Professor David McLellan This book brings together a group of internationally renowned academics to reflect upon develop and criticise McLellan's analyses of these three themes with a view to contributing more broadly to scholarly debates in these fields This exciting and timely analysis will be of interest to scholars of political theory the history of political thought including historical methodology Marx and Marxism sociology of knowledge particularly in relation to discussions of ideology religion and theology more widely **Marx's Ecology** John Bellamy Foster, 2000-03 By reconstructing a materialist conception of nature and society Marx's Ecology challenges the spiritualism prevalent in the modern Green movement pointing toward a method that offers more lasting sustainable solutions to the ecological crisis **The Cambridge Companion to Marx** Terrell Carver, 1991-10-25 In the wake of political collapse in Eastern Europe the intellectual influence of Marx's thought requires re appraisal Backed by current debate and new perspectives this volume provides comprehensive coverage of his significant contributions **Marx and Mead** Tom Goff, 2014-08-13 It has often been suggested that a resolution of issues generated by the sociological study of ideas might be reached through a synthesis of specific insights to be found in the works of Karl Marx and George Herbert Mead The present study originated in an investigation of this hypothesis particularly as it bears on the central issue of sociological relativism The author began by delineating the specific problems such a synthesis might resolve and in the process became aware that the nature and depth of differences separating the sociology of knowledge and its critics have never been fully analysed or understood This volume therefore

opens with a clarification of these differences a clarification which leads to considerable redefinition of the problem as it has traditionally been understood by critics and proponents of the discipline alike The author points out in particular that it is less a debate than a thorough going contradiction which characterizes the literature dealing with the inadequacies of various formulations of the sociology of knowledge In consequence the study of Marx and Mead presented here is not simply yet another effort to discover a perspective which will satisfy the particular demands of the critics Rather it argues that an adequate perspective fully consistent with the central insight of the discipline that knowledge is radically social in character is to be found in a synthesis of elements in the perspectives of Marx and Mead

Scare Quotes from Shakespeare Martin Harries, 2000 This book argues that moments of allusion to the supernatural in Shakespeare are occasions where Karl Marx and John Maynard Keynes register the perseverance of haunted structures in modern culture This reenchantment at the heart of modernity and of literary and political works central to our understanding of modernity is the focus of this book The author shows that allusion to supernatural moments in Shakespeare scare quotes allows writers to both acknowledge and distance themselves from the supernatural phenomena that challenge their disenchanted understanding of the social world He also uses these modern appropriations of Shakespeare as provocations to reread some of his works notably Hamlet and Macbeth Two pairs of linked chapters form the center of the book One pair joins a reading of Marx concentrating on The Eighteenth Brumaire to Hamlet the other links a reading of Keynes focusing on The Economic Consequences of the Peace to Macbeth The chapters on Marx and Keynes trace some of the strange circuits of supernatural rhetoric in their work Marx s use of ghosts and Keynes s fascination with witchcraft The sequence linking Marx to Hamlet for example has as its anchor the Frankfurt School s concept of the phantasmagoria the notion that it is in the most archaic that one encounters the figure of the new Looking closely at Marx s association of the Ghost in Hamlet with the coming revolution in turn illuminates Hamlet s association of the Ghost with the supernatural beings many believed haunted mines An opening chapter discusses Henry Dircks a nineteenth century English inventor who developed and then lost his claim to a phantasmagoria or machine to project ghosts on stage Dircks resorted to magical rhetoric in response to his loss which is emblematic for the book as a whole charting ways the scare quote can paradoxically continue the work of enlightenment

The Antinomies of Classical Thought: Marx and Durkheim (Theoretical Logic in Sociology) Jeffrey C. Alexander, 2014-04-24 This volume challenges prevailing understanding of the two great founders of sociological thought In a detailed and systematic way the author demonstrates how Marx and Durkheim gradually developed the fundamental frameworks for sociological materialism and idealism While most recent interpreters of Marx have placed alienation and subjectivity at the centre of his work Professor Alexander suggests that it was the later Marx s very emphasis on alienation that allowed him to avoid conceptualizing subjectivity altogether In Durkheim s case by contrast the author argues that such objectivist theorizing informed the early work alone and he demonstrates that in his later writings Durkheim elaborated an idealist theory that

used religious life as an analytical model for studying the institutions of secular society **Film and Reform** Ian Aitken, 2013-12-13 Best known for his documentaries such as *Drifters* *North Sea* and *Housing Problems* John Grierson was the most important figure in the British documentary film movement and one of the most influential of British film theorists This major assessment of Grierson and the documentary film movement examines the intellectual and aesthetic influences on his work focusing on the material he produced in the inter war years and comparing the idealistic strain of Grierson's social commentary with other social reformists such as the Next Five Years Group and writers like Orwell and Priestley Underlining the link between film and reform the book clarifies the meaning and significance of Grierson's ideas and the historical role of the documentary film movement Originally published in 1990 *Social Theories of the Press* Hanno Hardt, 2001-10-11 Hanno Hardt has thoroughly revised and expanded his pre history of communication research in the United States With the notable addition of Karl Marx's journalism focused writings and a new foreword by James W Carey this edition covers intellectual contributions from several German theorists in the late nineteenth and early twentieth centuries as well as first generation U S sociologists who were influenced by this scholarship A new concluding chapter explores the continuing influence of German social thought and the contemporary shift of paradigms in U S communication research including approaches such as critical Marxist and cultural studies **Cultural Political Economy** Jacqueline Best, Matthew Paterson, 2010-01-21 This book examines the multitude of ways in which the political the cultural and the economic interconnect and intersect and provides case studies focusing on finance tourism contemporary business discourse the war on terror and migration **The Ideas of Karl Marx** Stefano Petrucciani, 2020-09-10 This book offers a complete presentation of the most important themes of Marx's thought following the development of Marx's theory from the beginning to his death and offering a reconstruction and analysis that covers the whole of Marx's life and works Each chapter presents one of the central topics of Marx's reflection the confrontation with the Hegelian theory of the State 1843 the critique of political liberalism in the *On the Jewish Question* the discovery of Political Economy in the *Manuscripts of 1844* the new theory of history developed in *The German Ideology* the political theory and the revolution of 1848 the critique of political economy from the *Grundrisse* to *Capital* and the political thought of the last Marx the Paris Commune and the critique of the German Social Democratic Party Stefano Petrucciani is Professor of Political Philosophy at the University of Rome La Sapienza Italy **History and Human Existence—From Marx to Merleau-Ponty** James Miller, 2023-04-28 From the Introduction The present essay provides an introduction to the treatment of human existence and individuality in Marxist thought The work will be primarily concerned with two related topics the evaluation by Marxists of individual emancipation and their assessment of subjective factors in social theory By taking up these taking up these topics within a systematic and historical framework I hope to generate some fresh light on several familiar issues First I pursue a reading of Marx focused on his treatment of subjectivity individuation and related methodological and practical matters second I apply this

The Fascist Persuasion in Radical Politics A. James Gregor, 2015-03-08 How valid are the assertions of contemporary

radicals who insist that they are Marxists A James Gregor measures the distance that separates today's radicals from the belief system of Marx and Engels He finds that the characteristic qualities of modern mass mobilizing movements bear more impressive similarities to the paradigmatic Fascism of Benito Mussolini than to classical Marxism Thus he offers a new conceptual framework for the analysis of contemporary totalitarian movements and established regimes Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Radicalism of Departure Jeff Spiessens, 2018-11-07 To date the philosophy of Max Stirner 1806 1856 has not attracted much academic attention An early critic of Karl Marx and precursor of existentialist thought he is nevertheless remembered as a radical Young Hegelian engaged in an unsuccessful attempt to move beyond Hegel Arguing that this image of Stirner is based on a faulty interpretation of his relationship to Hegelian philosophy this book proposes an entirely new reading of his philosophical magnum opus *Der Einzige und sein Eigentum* In this work traditional philosophy epitomized by Hegel is reduced to the property of the unique or single individual This move must not only be seen a refusal to keep traditional philosophy alive by criticising it but also entails an existentialist inversion of the traditional relation between thinker and idea This exciting new interpretation which is demonstrated here by a detailed analysis of *Der Einzige und sein Eigentum* clears the way for a philosophical rehabilitation of Stirner's ideas
