Marxism And Anthropology The Concept Of Human Essence In The Philosophy Of Marx:

Marxism and Anthropology, 1978 **Marxism and anthropology. the concept of "human essence" in the philosophy of Marx** George Markus, 1978 Marxism and Anthropology György Márkus, 2014

Marxism and Anthropology is one of the most detailed philosophically oriented attempts at explaining Marx's own position on philosophical anthropology encompassing the organic conditions of human sociality the humanization of nature and the naturalization of man In the second decade of the 21st Century rethinking Marx's intensely historicized conception of human nature has become an important consideration for critical and social theory due to a renewed interest in finding a possible anthropological basis for normatively grounding radical social critique for example in the works of Axel Honneth Charles Taylor or Emmanuel Renault György Markus belongs to the small group of Hungarian theorists associated with Georg Lukacs and usually referred to as the Budapest School He completed his philosophical training at Lomonosov University in Moscow in 1957 Due to ideological disputes he was removed from his teaching positions in Hungary in 1973 and fled in 1977 to Australia where he has since 1978 taught at the University of Sydney This special reissue of Markus most influential work adds an introduction by Axel Honneth Director of the Frankfurt School for Social Research and Hans Joas University of Freiburg

History, Revolution, and Human Nature Joseph Bien, 1984 **Marx and Human Nature** Norman Geras, 1983

Marx did not reject the idea of human nature He was right not to do so That is the conclusion of this passionate and polemical new work by Norman Geras In it he places the sixth of Marx's *Theses on Feuerbach* under rigorous scrutiny He argues that this ambiguous statement widely cited as evidence that Marx broke with all concepts of human nature in 1845 must be read in the context of Marx's work as a whole His later writings are formed by an idea of a specifically human nature that fulfils both explanatory and normative functions The belief that Marx's historical materialism entailed a denial of the conception of human nature is Geras writes an old fixation which the Althusserian influence in this matter has fed upon Because this fixation still exists and is misguided it is still necessary to challenge it One hundred years after Marx's death this timely essay combining the strengths of analytical philosophy and classical Marxism rediscovers a central part of his heritage

Marxism and the Human Individual Adam Schaff, 1970

Today more than ever Marxism is profoundly in need of a full and precise modern reappraisal In his belief that this may only be accomplished along with an examination of the humanistic young Marx Adam Schaff presents in this volume an illumination of the thinker's early work and its relationship to the world shaking economic philosophy that stemmed from it

Marx' Method, Epistemology, and Humanism P.J. Kain, 2012-12-06

In recent writings on Marx one finds an increasing interest in his humanism This phenomenon began in the third decade of our century as a reaction against the mechanistic and stereotyped image of Marx 1 characteristic of the Second International and of Stalinism Lukacs in *History and Class Consciousness* 1923 was one of the first to discover this new Marx and he did so even before the most important 2 of the humanistic writings of the young Marx had been discovered With the publication of these writings in 1932 namely the

Economic 3 and Philosophic Manuscripts of 1844 this new outlook was given enormous impetus In these Manuscripts Marx makes the human being the creator and the goal of all reality The objectification of the human essence through labor transforms both society and nature Labor transforms its world into a place which mirrors unfolds and confirms the human being This humanism is a complex and many faceted issue In this book we will be concerned only with a certain part of it i e the epistemology method and doctrine of nature which it involves Other aspects of it Marx concept of alienation and his theory of labor and the state have 4 been dealt with elsewhere *Dialectics of Human Nature in Marx's Philosophy* M. Tabak,2012-07-16 A scholarly exploration of Marx s thought without any favorable or critical ideological agendas this book opposes the compartmentalization of Marx s thought into various competing doctrines such as historical materialism dialectical materialism and different forms of economic determinism **Marxism and Anthropology** Maurice Bloch,2004 This book examines the uses made of anthropology by Marx and Engels and the uses made of Marxism by anthropologists Looking at the writings of Marx and Engels on primitive societies the book evaluates their views in the light of present knowledge and draws attention to inconsistencies in their analysis of pre capitalist societies These inconsistencies can be traced to the influence of contemporary anthropologists who regarded primitive societies as classless As Marxist theory was built around the idea of class without this concept the conventional Marxist analysis foundered First published in 1983

History and Human Existence From Marx to Merleau-Ponty James Miller,Jim Miller,1982-11-23 From the Introduction The present essay provides an introduction to the treatment of human existence and individuality in Marxist thought The work will be primarily concerned with two related topics the evaluation by Marxists of individual emancipation and their assessment of subjective factors in social theory By taking up these taking up these topics within a systematic and historical framework I hope to generate some fresh light on several familiar issues First I pursue a reading of Marx focused on his treatment of subjectivity individuation and related methodological and practical matters second I apply this interpretation to analyzing the dispute between Marxist orthodoxy and heterodoxy over such matters as class consciousness and the philosophy of materialism finally I employ this historical context to clarify the significance of existential Marxism Maurice Merleau Ponty s and Jean Paul Sartre s contribution to Marxist thought *Marx's Concept of Man ...* Erich Fromm,1966 A new provocative view of Marx stressing his humanist philosophy and challenging both Soviet distortion and Western ignorance of his basic thinking *Marxism and the Theory of Human Personality* Lucien Sève,1975 **Toward a Marxist Anthropology** Stanley Diamond,2011-06-03 No detailed description available for Toward a Marxist Anthropology

Marx, the Body, and Human Nature John Fox,2016-04-29 Marx the Body and Human Nature shows that the body and the broader material world played a far more significant role in Marx s theory than previously recognised It provides a fresh take on Marx s theory revealing a much more open dynamic and unstable conception of the body the self and human nature

History, Power, Ideology Donald L. Donham,1999-06-27 Is Marxism a reflection of the conceptual system it fights against

rather than a truly comprehensive approach to human history Drawing on recent work in anthropology history and philosophy Donald Donham confronts this problem in analyzing a radically different social order the former Maale kingdom of southern Ethiopia Every once in a while there appears a book that opens up new ways of inquiring into the ways of the world Donald Donham has written such a book The style is quiet and judicious but the effect is stunning In putting inherited partisan approaches to the test of explaining the realities of Maale society and culture Donham enriches anthropology and imparts new vigor to the analytical Marxian traditions History Power Ideology embodies a major accomplishment From the Foreword **Black Writers** Linda Metzger,1989 Biographical and bibliographical entries on some 400 black authors active in the 20th century Some of the sketches are updated from Gale s Contemporary authors series others were written especially for this volume Covers not only contemporary American authors but also earlier 20th century writers social figures e g Malcolm X Desmond Tutu and important African and Caribbean writers In addition to the descriptive personal and career information there are illuminating biographical critical essays including comments often by the authors themselves on personal interests aspirations motivations and thoughts on writing Annotation copyrighted by Book News Inc Portland OR

Man and His World Ivan Sviták,1970 In this important and stimulating book Ivan Svitak the noted Czech philosopher now in exile in the United States presents a view of human culture and its creations that is at once controversial and despite the author s Marxist orientation refreshingly non doctrinaire MAN AND HIS WORLD pleads for a humanistic democratic spirit in all human relationships and activities only through such a spirit Dr Svitak asserts can man and the culture he creates be genuinely meaningful Publisher **Marxism and Human Nature** Sean Sayers,2013-01-11 Is there such a thing as

human nature Here Sean Sayers defends the controversial theory that human nature is in fact an historical phenomenon He gives an ambitious and wide ranging defence of the Marxist and Hegelian historical approach and engages with a wide range of work at the heart of the contemporary debate in social and moral philosophy **An Anthropology of Marxism** Cedric J. Robinson,2019-01-18 An Anthropology of Marxism offers Cedric Robinson s analysis of the history of communalism that has been claimed by Marx and Marxists Suggesting that the socialist ideal was embedded both in Western and non Western civilizations and cultures long before the opening of the modern era and did not begin with or depend on the existence of capitalism Robinson interrogates the social cultural institutional and historical materials that were the seedbeds for communal modes of living and reimagining society Ultimately it pushes back against Marx s vision of a better society as rooted in a Eurocentric society and cut off from its own precursors Accompanied by a new foreword by H L T Quan and a preface by Avery Gordon this invaluable text reimagines the communal ideal from a broader perspective that transcends modernity industrialization and capitalism **Marx and the Missing Link: "Human Nature"** W Peter Archibald,1989-10-24
