Marxism And Imperialism:

Marxism and Imperialism Victor Gordon Kiernan,1975 **Marxist Theories of Imperialism** Anthony Brewer,1990 The last two hundred years have seen a massive increase in the size of the world economy and equally massive inequalities of wealth and power between different parts of the world They have also witnessed the rise to dominance of the capitalist mode of production Marxists from Marx himself through to present day thinkers have argued that these changes are profoundly interconnected This book offers a unique account of Marxist theories of Imperialism It has been fully updated and expanded to cover all the developments since its initial publication and will be essential reading for any student of Marxism

Marxist Theories of Imperialism Tony Brewer,2002-09-11 The last two hundred years have seen a massive increase in the size of the world economy and equally massive inequalities of wealth and power between different parts of the world They have also witnessed the rise to dominance of the capitalist mode of production Marxists from Marx himself through to present day thinkers have argued that these changes are profoundly interconnected This book offers a unique account of Marxist theories of Imperialism It has been fully updated and expanded to cover all the developments since its initial publication and will be essential reading for any student of Marxism **Marxist Theories of Imperialism** Murray

Noonan,2017-02-28 For Marxists imperialism is the highest stage of capitalism Critical analysis of imperialism has been a feature of Marxist throughout the twentieth century The conceptualising and theorising of imperialism by Marxists has evolved over time in response to developments in the global capitalist economy and in international politics Murray Noonan here provides the first complete analysis of Marxist theories of imperialism in over two decades Presenting three phases of imperialist theories he analyses and compares Classical Neo and Globalisation era Marxist theories of imperialism The book moves chronologically tracking the origins of imperialism theorised by J A Hobson at the beginning of the twentieth century up to the present day He critically identifies and engages with a new Globalisation era phase of Marxist imperialism theory Through a detailed scholarly analysis of the history and evolution of these theories Noonan offers vital new perspectives on imperialist theory and its relevance and application in the twenty first century Marxist Thought on Imperialism Charles A. Barone,2016-07-08 First Published in 2015 Classic and contemporary Marxist theoretical works on imperialism are systematically summarized and critiqued in this useful survey Throughout the discussion attention is focused analyses of the causes of capitalist foreign economic expansion and the impact of that expansion The study begins with a discussion of Marx s political economy and the work of early theorists of imperialism Vladimir Lenin Rosa Luxemburg Nikolai Bukharin and Rudolf Hilferding This analysis then serves as the basis for a critical survey of the major strands of postwar Marxist thought including the work of Paul Baran and Paul Sweezy Harry Magdoff James O Connor Andre Gunder Frank and more Following the survey ae extended critiques of Baran and Sweezy s theory of monopoly capitalism and Arghiri Emmanuel's theory of unequal exchange *Marxism and the New Imperialism* Alex Callinicos,1994 **Rethinking Imperialism** J. Milios,D.

Sotiropoulos,2009-10-09 This book aims at presenting and assessing imperialism as a theoretical concept It aims to provide a comprehensive evaluation focusing specifically on the tension between Marx s theoretical system of the Critique of Political Economy and the theories of capitalist expansion and domination **Imperialism** Vladimir Lenin,1939 The pamphlet here presented to the reader was written in the spring of 1916 in Zurich In the conditions in which I was obliged to work there I naturally suffered somewhat from a shortage of French and English literature and from a serious dearth of Russian literature However I made use of the principal English work on imperialism the book by J A Hobson with all the care that in my opinion work deserves This pamphlet was written with an eye to the tsarist censorship Hence I was not only forced to confine myself strictly to an exclusively theoretical specifically economic analysis of facts but to formulate the few necessary observations on politics with extreme caution by hints in an allegorical language in that accursed Aesopian language to which tsarism compelled all revolutionaries to have recourse whenever they took up the pen to write a legal work It is painful in these days of liberty to re read the passages of the pamphlet which have been distorted cramped compressed in an iron vice on account of the censor That the period of imperialism is the eve of the socialist revolution that social chauvinism socialism in words chauvinism in deeds is the utter betrayal of socialism complete desertion to the side of the bourgeoisie that this split in the working class movement is bound up with the objective conditions of imperialism etc on these matters I had to speak in a slavish tongue and I must refer the reader who is interested in the subject to the articles I wrote abroad in 1914 17 a new edition of which is soon to appear In order to show the reader in a guise acceptable to the censors how shamelessly untruthful the capitalists and the social chauvinists who have deserted to their side and whom Kautsky opposes so inconsistently are on the question of annexations in order to show how shamelessly they screen the annexations of their capitalists I was forced to quote as an example Japan The careful reader will easily substitute Russia for Japan and Finland Poland Courland the Ukraine Khiva Bokhara Estonia or other regions peopled by non Great Russians for Korea I trust that this pamphlet will help the reader to understand the fundamental economic question that of the economic essence of imperialism for unless this is studied it will be impossible to understand and appraise modern war and modern politics

Imperialism and World Economy Nikolai Bukharin,1929 *Marxist Perspectives on Imperialism* Chronis Polychroniou,1991-04-30 By distinguishing between classical Marxist and neo Marxist approaches to imperialism this volume challenges generally accepted views on the relationship between these two branches of Marxist thought reaffirming the principles and tools of fundamental Marxism as essential for understanding and explaining the internationalization of capitalist economic life Together original source materials and Polychroniou s highly readable analysis present a commentary both outlining and clarifying essential ideas contained in Marxist writings from the late 19th century to the present Marxist Perspectives on Imperialism also identifies current political and economic issues to which authentic Marxist concepts can be applied A review of Marx s views on capitalist production relations and expansion opens the discussion and defines criteria

for evaluating analyses which follow Studies by classical Marxists such as Hilferding Bukharin and Lenin are then contrasted to the neo Marxist writings of Baran Frank and Wallerstein among others Polychroniou's defense of orthodox Marxism strengthens as he turns his attention to the practical uses of Marxist ideology to topics of international concern His conclusions clarify a complex topic and provide political economists sociologists and political scientists with a clear explanation of the theoretical and methodological contours of Marxist thought on capitalist imperialism

Marxism and Migration Genevieve Ritchie, Sara Carpenter, Shahrzad Mojab, 2022-08-18 This book approaches migration from Marxist feminist anti imperialist and anti colonial perspectives The present conditions of transnational migration best described as a kind of social expulsion include migrant caravans and detained unaccompanied children in the United States thousands of migrant deaths at sea the razing of self organized refugee camps in Greece and the massive dispersal of populations within and between countries Placing patriarchal capitalism imperialism racialization and fundamentalisms at the center of the analysis Marxism and Migration helps build a more coherent and historically informed discussion of the conditions of migration resettlement and resistance Drawing upon a range of academic disciplines and diverse geopolitical regions the book rethinks migrations from the vantage point of class struggle and seeks to ignite a more robust discussion of critical consciousness racialization militarization and solidarity

Discovering Imperialism Richard B. Day, Daniel Gaido, 2011-11-25 This volume assembles the main documents of the international debate on imperialism that took place in the Second International during the period 1898-1916 It assesses the contributions of the individual participants placing them in the context of contemporary political debates

Imperialism: The Highest Stage of Capitalism V.I. Lenin, 2021-11 During the First World War Lenin found himself isolated but he was not afraid to fight against the stream He dedicated all his strength to educating and training the Bolsheviks on the basis of the genuine ideas of Marxism His masterpiece Imperialism The Highest Stage of Capitalism is an immortal monument to his work in the vital field of theory No book has ever explained the phenomena of modern capitalism better Indeed all of Lenin's predictions concerning the concentration of capital the dominance of the banks and finance capital the growing antagonism between nation states and the inevitability of war arising out of the contradictions of imperialism have been shown to be true by the entire history of the last 100 years Using the empirical evidence and statistics at his disposal Lenin explains that in the stage of imperialist monopoly capitalism the entire economy is under the domination of the banks and finance capital Today over 100 years after it was first published this domination is 100 times greater Lenin's text therefore stands as required reading for revolutionaries

Imperialism Bill Warren, 2020-05-05 Ever since the First World War socialists have considered imperialism a calamity responsible for militarism economic stagnation and assaults on democracy in metropolitan countries an impediment to economic and cultural development in the Third World So widespread has this view become that it is shared in its essentials not only by Marxists but also by an entire school of liberal development economists Bill Warren breaks with this traditional outlook arguing that

the theory of imperialism one of Marxism's most influential concepts is not only contradicted by the facts but has diluted and distorted Marxism itself In particular Warren disputes the claim that monopoly capitalism represents the ultimate stage of senile capitalism and sets out to refute the notion that imperialism is a regressive force impeding or distorting economic development in the Third World The book argues on the contrary that direct colonialism powerfully impelled social change in Asia and Africa laying the foundation for a vibrant indigenous capitalism Finally it takes issue with the conventional view that postwar economic performance in the Third World has been disastrous presenting a powerful empirical case that the gap between rich and poor countries is actually narrowing Closely argued clearly written original and iconoclastic **Imperialism and Unequal Development** Samir Amin, 1977-01-01 *Imperialism and the Revolution* Enver Hoxha, 1979

Imperialism Vladimir Il'ich Lenin, 1917 **Marxism and the National and Colonial Question** Joseph Stalin, 1953

Imperialism Vladimir Il'ich Lenin, 1999 *Imperialism: The Highest Stage of Capitalism* Vladimir Lenin, 2010-08-26

Vladimir Lenin created this hugely significant Marxist text to explain fully the inevitable flaws and destructive power of Capitalism that it would lead unavoidably to imperialism monopolies and colonialism He prophesied that those third world countries used merely as capitalist labour would have no choice but to join the Communist revolution in Russia GREAT IDEAS Throughout history some books have changed the world They have transformed the way we see ourselves and each other They have inspired debate dissent war and revolution They have enlightened outraged provoked and comforted They have enriched lives and destroyed them Now Penguin brings you the works of the great thinkers pioneers radicals and visionaries whose ideas shook civilization and helped make us who we are
