Marxism And The Ussr:

Time and Revolution Stephen E. Hanson,1997-01-01 Stephen Hanson traces the influence of the Marxist conception of time in Soviet politics from Lenin to Gorbachev He argues that the history of Marxism and Leninism reveals an unsuccessful revolutionary effort to reorder the human relationship with time a *Marxism and the U.S.S.R.* Paul Bellis,1979-08-16

Marxism in the USSR James Patrick Scanlan,1985 Philosophy of marxist Leninism in the USSR **Western Marxism and the Soviet Union** Marcel Van Der Linden,2007 If the Soviet Union did not have a socialist society then how should its nature be understood The present book presents the first comprehensive appraisal of the debates on this problem which was so central to twentieth century Marxism Marxism and the Soviet Constitutions Ivo Lapenna,1979 **Capitalism and Class Struggle in the USSR** Neil C. Fernandez,2018-12-14 First published in 1997 this was the first Autonomist Marxist book on the USSR The various theories of Soviet capitalism are considered more comprehensively than in any previous work and are shown to be inadequate insofar as they fail to demonstrate satisfactorily the predominance of the category of capital A powerful new theory is developed which does precisely this introducing the concepts of bureaucratic forms of both exchange value and money This constitutes an important contribution to the overall theoretical critique of capital Attention is then turned to the class struggle For the first time the various Marxist theories of the USSR are systematically considered in relation to what they say about the working class and its struggle **The Geography of Nationalism in Russia and the USSR** Robert J. Kaiser,2017-03-14 The Geography of Nationalism in Russia and the USSR is an important addition to the small library of essential works on the collapse of the Soviet empire The first attempt to construct and test broad theoretical propositions about place and territoriality in the making of nations it examines the critical social processes underlying the formation of nations and homelands in Russia and the USSR during the nineteenth and twentieth centuries Robert Kaiser finds that for the most part national self consciousness was only beginning to supplant a localist mentality by the time of World War I The national problem faced by Lenin was fundamentally different from the more difficult nationalist challenge that confronted Gorbachev In Kaiser s place based theory the homeland once created in the imaginations of the indigenous masses powerfully structured national processes and international relations Indigenization from below became an active competitor with nationality policies that promoted Russification resulting in the restructuring of ethnic stratification to favor indigenes in their own respective home republics and to challenge Russian dominance outside Russia The revolutionary changes occurring since 1989 Kaiser argues should therefore be seen as part of a longer process of indigenization Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published

by Princeton University Press since its founding in 1905 Class Theory and History Stephen A. Resnick, Richard D. Wolff, 2013-12-16 *Class Theory and History* takes an ambitious and ground breaking look at the entire history of the Soviet Union and presents a new kind of analysis of the history of the USSR examining its birth evolution and death in class terms Utilizing the class analytics they have developed over the last three decades resnick and Wolff formulate the most fully developed economic theory of communism now available and use that theory to answer the question did communism ever exist in the USSR and if so where why and for how long Their initial and controversial conclusion Soviet industry never established a communist class structure This conclusion then leads to the hypothesis that the USSR and private capitalism in the United States to discuss the future of private capitalism state capitalism and communism *Marxism in the USSR* James P. Scanlan, 1986-03-31 **Marxism-Leninism and the Theory of International Relations** V. Kubalkova, A. Cruickshank, 2015-10-14 Refuting the assumption that orthodox Marxist theory contains anything of relevance on international relations this book originally published in 1980 clarifies reconstructs and summarizes the theories of international relations of Marx and Engels Lenin Stalin and the Soviet leadership of the 1970s These are subjected to a comparative analysis and their relative integrity is examined both against one another and against selected Western theories Marxist Leninist models of international relations are fully explored enabling the reader to appreciate the essence and evolution of fundamental Soviet concepts as such as proletarian socialist internationalism peaceful co existence national liberation movement and détente **Soviet Marxism** Herbert Marcuse, 1961 Douglas Kellner University of Texas Austin

Marx and Education in Russia and China R. F. Price, 2011-12-08 To many education students Russian and or Chinese education is at the same time their introduction to Marxism and many students go no further This book sets the record straight by giving a thorough introduction to the writings of Marx himself as they relate to education It shows what Marxism implies for education as aim method and content It then proceeds to compare educational developments in the former USSR and China in the light of this analysis attempting to answer the question as to how Marxist this has been in the schools and outside them **Soviet Marxism-Leninism** Alfred B. Evans, 1993-10-30 This study examines the development of Marxist Leninist ideology in the U S S R from its origins to the collapse of the Soviet regime Alfred Evans argues that Soviet Marxism Leninism was subject to significant adaptation under various leaders contrary to the widespread impression that official Soviet ideology remained static after Stalin While taking account of scholarly literature on each of the periods covered the work is significant for being based principally on an analysis of primary Soviet sources Evans integrated analysis of changes in ideology during the post Stalin decades is an important contribution to the literature in political science political economy and Soviet studies **USSR**, 1964 **Marxism, the Millennium and Beyond** M. Cowling, P. Reynolds, 2000-10-31 This collection investigates the state of play in studies informed by Marxism Among other contributions it includes an essay on state theory by Bob Jessop a discussion of fundamental socialist values using analytical Marxism by Alan Carling

Marxism and History Stephen Henry Rigby, 1987 Marx's theory of history is often regarded as the most enduring and fruitful aspect of his intellectual legacy His historical materialism has been the inspiration for some of the best historical writing in the works of scholars such as Eric Hobsbawm E P Thompson Rodney Hilton and Robert Brenner S H Rigby establishes Marx's claims about social structure and historical change discusses their use in his own and his followers writings and assesses the validity of his theories He argues that Marx's social theories were profoundly contradictory and that Marxism has proved most useful when it is seen as a source of questions concepts and hypotheses rather than as a philosophy of historical development *Twentieth-Century Marxism* Daryl Glaser, David M. Walker, 2007-09-12 Divided into three parts examining Marxism historically geographically and thematically this book outlines and assesses the Marxist tradition as it developed in the twentieth century and considers its place and standing as we move into the twenty first century
