Falger,2012-12-06 1 1 THE STUDY OF CONFLICT Polemos Pantoon Pater Heraclitus Conflict on all levels of organic existence is pervasive persistent ubiquitous Conflict is the universal experience of all life forms Organisms are bound in multiple conflict configurations and coalitions which have their own dynamic and their own logic This does not mean however that the more paroxysmal forms of conflict behaviour naked violence and destruction are also universal Conflict and cooperation are always intertwined Conflicts do however have a propensity to gravitate towards violence There is as Pettman 1975 pointed out no accepted or agreed list of the social units by which conflicts might be classified To talk of conflict in

intra personal inter personal familial group class ethnic religious intra state or inter state terms is to assume perhaps erroneously that each kind of social unit having its own range of size structure and institutions will also have its own modes of interaction and thus its own patterns of conflict with other social units Fink 1968 like and unlike itself Such an assumption merits scrutiny on its own since despite the plausibility of some sort of analytical link between the parties to a conflict and the nature of the confrontation that ensues the link should be demonstrated and not allowed to stand by assertion alone This volume is devoted to one type of analysis of conflict the socio biological one Evolution: Genesis and Revelations C. Leon Harris,1981-06-30 In this comprehensive history of evolutionism C Leon Harris has combined primary source readings with clear pertinent background information to provide a solid basic understanding of the ways scientists have arrived at today's views of evolution Harris describes the major contributors to the theory of evolutionism placing each in the context of the general cultural influences to which he was exposed Each chapter also contains an explanation of the philosophical basis of the scientific approach of the period in question A lengthy bibliography provides direction for further reading on this important and timely subject Biosociology Anthony Walsh,2017-09-08 Anthony Walsh bridges the divide separating sociology from biology a divide created in the late nineteenth century when sociology emerged from the fields of social theory and philosophy Walsh focuses on the viewpoint held by former American Sociological Association president Douglas Massey sociologists have allowed the fact that we are social beings to obscure the biological foundations upon which our behaviour ultimately rests Walsh argues that sociology has nothing to fear and a wealth of riches to gain if it pays attention to the theories concepts and methodologies of the biological sciences Both study the same phenomena Beginning with an examination of the reasons why we need a biosocial approach Walsh explores sociology's traditional taboo concepts reductionism essentialism etc and how those concepts are viewed in the natural sciences Throughout the work the author introduces relevant concepts from genetics and the neurosciences using examples that will appeal to all sociologists Later chapters apply his introductory arguments to traditional substantive sociological issues such as culture crime gender socialization social class and the family This book will be essential to all sociologists evolutionary biologists and scholars interested in the history of this important divide between the fields and where it currently stands **Independent Scholars of Asia, Inc** ,1994 *Evolutionism and Its Critics* Stephen K. Sanderson,2015-12-03 Evolutionism and Its Critics is a critical history of evolutionary theories in the social sciences and a defense of them against their many critics Sanderson deconstructs not only the wide array of social evolutionary theories but the criticisms of the antievolutionists Deconstructing evolutionary theories means laying bare their fundamental epistemological methodological conceptual and theoretical assumptions and principles Deconstructing antievolutionism means showing just where and how the critics have for the most part gone wrong But Evolutionism and Its Critics aims to reconstruct as well as deconstruct and does this by building on the shoulders of past giants of evolutionary theorizing a comprehensive evolutionary interpretation of human society based on
