P rez Jr.,2017-01-11 Louis A P rez Jr s new history of nineteenth century Cuba chronicles in fascinating detail the emergence of an urban middle class that was imbued with new knowledge and moral systems Fostering innovative skills and technologies these Cubans became deeply implicated in an expanding market culture during the boom in sugar production and prior to independence Contributing to the cultural history of capitalism in Latin America P rez argues that such creoles were cosmopolitans with powerful transnational affinities and an abiding identification with modernity This period of Cuban history is usually viewed through a political lens but P rez here emphasizing the character of everyday life within the increasingly fraught colonial system shows how moral social and cultural change that resulted from market forces also contributed to conditions leading to the collapse of the Spanish colonial administration P rez highlights women s centrality in this process showing how criollas adapted to new modes of self representation as a means of self fulfillment Increasing opportunities for middle class women s public presence and social participation was both cause and consequence of expanding consumerism and of women s challenges to prevailing gender hierarchies Seemingly simple actions riding a bicycle for example or deploying the abanico the fan in different ways exposed how traditional systems of power and privilege clashed with norms of modernity and progress Sandinistas Robert J.

Sierakowski,2019-12-31 A bold new perspective on the liberation movement that brought the Sandinista National Liberation Front to power overthrowing the longest running dictatorship in Latin America Robert J Sierakowski s Sandinistas A Moral History offers a new vantage point of the Sandinista movement beyond geopolitics and ideologies in 1979 Nicaragua Using unique sources from trial transcripts to archival collections and oral histories Sierakowski shows the central role that was played by everyday Nicaraguans Focusing on the country s rural north Sierakowski explores how a diverse coalition of labor unionists student activists housewives and peasants inspired by Catholic liberation theology came to successfully challenge the legitimacy of the Somoza dictatorship and its entrenched networks of power Mobilizing communities against the ubiquitous cantinas gambling halls and brothels grassroots organizers exposed the regime s complicity in promoting social ills disorder and quotidian violence while helping to construct radical new visions of moral uplift and social renewal

Sierakowski similarly recasts our understanding of the Nicaraguan National Guard grounding his study of the Somozas army in the social and cultural world of the ordinary soldiers who enlisted and fought in defense of the dictatorship Sierakowski unearths long buried stories of military repression and violence including widespread civilian massacres that pushed thousands of previously unaligned Nicaraguans into the ranks of the guerrilla insurgency by the late 1970s Nuevo diccionario latino-espanol etimologico Raimundo de Miguel,1867 Novísimo diccionario de la lengua castellana ,1868
