American Catholics in the Protestant Imagination Michael P. Carroll, 2007-11-12 Michael P Carroll argues that the academic study of religion in the United States continues to be shaped by a Protestant imagination that has warped our perception of the American religious experience and its written history and analysis In this provocative study Carroll explores a number of historiographical puzzles that emerge from the American Catholic story as it has been understood through the Protestant tradition Reexamining the experience of Catholicism among Irish immigrants Italian Americans Acadians and Cajuns and Hispanics Carroll debunks the myths that have informed much of this history Shedding new light on lived religion in America Carroll moves an entire academic field in new exciting directions and challenges his fellow scholars to open their minds and eyes to develop fresh interpretations of American religious history Landmark Essays on Rhetorics of Difference Damian Baca, Ellen Cushman, Jonathan Osborne, 2024-11-01 Landmark Essays on Rhetorics of Difference challenges the Eurocentric perspective from which the field of rhetoric is traditionally viewed Taking a step beyond the creation of alternative rhetorics that maintain the centrality of the European and Greco Roman tradition this volume argues on behalf of pluriversal rhetorics that coexist as equally important on their own terms A timely addition to the respected Landmark Essays series it will be invaluable to students of history of rhetoric literacy composition and writing studies

Mexican Indigenous Languages at the Dawn of the Twenty-First Century Margarita Hidalgo, 2008-08-22 This volume explores the reversing language shift RLS theory in the Mexican scenario from various viewpoints The sociohistorical perspective delves into the dynamics of power that emerged in the Mexican colony as a result of the presence of Spanish It examines the processes of external and internal Indianization affecting the early European protagonists and the varied dimensions of language shift and maintenance of the Mexican colonial period The Mexican case sheds light upon language contact from the time in which Western civilization came into contact with the Mesoamerican peoples for the encounter began with a demographic catastrophe that motivated a recovery mission While the recovery of Mexican indigenous languages MIL was remarkable RLS ended after fifty years of abundant productivity in MIL Since then the slow process of recovery is related to demographic changes socioreligious movements rebellion confrontation and survival strategies that have fostered language maintenance with bilingualism and language shift with culture preservation The causes of the Chiapas uprising are analyzed in connection with the language attitudes of the indigenous peoples while language policy is discussed in reference to the new Law of Linguistic Rights of the Indigenous Peoples 2003 A quantitative classification of the MIL is offered with an overview of their geographic distribution trends of macrosocietal bilingualism use in the home domain and permanence in the original Mesoamerican settlements Innovative models of bilingual education are presented along with

relevant data on several communities and the philosophies and methodologies justifying the programs A model of Mazahua language use is presented along the Graded Intergenerational Disruption Scale **Misplaced Objects** Silvia

Spitta,2009-07-01 When things move things change Starting from this deceptively simple premise Silvia Spitta opens a fascinating window onto the profound displacements and transformations that have occurred over the six centuries since material objects and human subjects began circulating between Europe and the Americas This extended reflection on the dynamics of misplacement starts with the European practice of collecting objects from the Americas into Wunderkammern literally cabinets of wonders Stripped of all identifying contexts these exuberant collections including the famous Real Gabinete de Historia Natural de Madrid upset European certainties forcing a reorganization of knowledge that gave rise to scientific inquiry and to the epistemological shift we call modernity In contrast cults such as that of the Virgin of Guadalupe arose out of the reverse migration from Europe to the Americas The ultimate marker of mestizo identity in Mexico the Virgin of Guadalupe is now fast crossing the U S Mexico border and miracles are increasingly being reported Misplaced Objects then concludes with the more intimate and familial collections and recollections of Cuban and Mexican American artists and writers that are contributing to the Latinization of the United States Beautifully illustrated and radically interdisciplinary Misplaced Objects clearly demonstrates that it is not the awed viewer but rather the misplaced object itself that unsettles our certainties allowing new meanings to emerge **Ethnic Positioning in Southwestern Mixed Heritage Writing** Judit

Ágnes Kádár,2022-04-04 Ethnic Positioning in Southwestern Mixed Heritage Writing explores how Southwestern writers and visual artists provide an opportunity to turn a stigmatized identity into a self conscious holder of valuable assets cultural attitudes and memories The problem of mixed ethno cultural heritage is a relevant feature of North American populations faced by millions Narratives on blended heritage show how mixed race authors utilize their multiple ethnic experiences knowledge archives and sensibilities They explore how individuals attempt to cope with the cognitive anxiety stigmas and perceptions that are intertwined in their blended ethnic heritage family and social dynamics and the renegotiation of their ethnic identity The Southwest is a region riddled by Eurocentric and Colonial concepts of identity yet at the same time highly treasured in the Frontier experiences of physical mobility and mental and spiritual journeys and transformations Judit gnes K d r argues that the process of ethnic positioning is a choice made by mixed heritage people that results in renegotiated identities leading to more complex and engaging concepts of themselves *Santa Fe* Elizabeth West,2012 This question and answer book contains 400 reminders of what is known and what is sometimes forgotten or misunderstood about a city that was founded more than 400 years ago Not a traditional history book this group of questions is presented in an apparently random order and the answers occasionally meander off topic as if part of a casual conversation Mestiz@ Scripts, Digital

Migrations, and the Territories of Writing D. Baca,2008-05-26 Conventional scholarship on written communication positions the Western alphabet as a precondition for literacy Thus pictographic non verbal writing practices of Mesoamerica remain

obscured by representations of lettered speech This book examines how contemporary Mestiz scripts challenge alphabetic dominance thereby undermining the colonized territories of writing Strategic weavings of Aztec and European inscription systems not only promote historically grounded accounts of how recorded information is expressed across cultures but also speak to emerging studies on visual multimodal education Baca Espinosa argues that Mestiz literacies advance new ways of reading and writing applicable to diverse classrooms of the twenty first century Lived Religion Meredith B

McGuire,2008-08-22 How can we grasp the complex religious lives of individuals such as Peter an ordained Protestant minister who has little attachment to any church but centers his highly committed religious practice on peace and justice activism Or Hannah a devout Jew whose rich spiritual life revolves around her women s spirituality group and the daily practice of meditative dance Or Laura who identifies as Catholic but rarely attends Mass and engages daily in Buddhist style meditation at her home altar arranged with symbols of Mexican American popular religion Diverse religious practices such as these have long baffled scholars whose research often starts with the assumption that individuals commit or refuse to commit to an entire institutionally framed package of beliefs and practices Meredith McGuire points the way forward toward a new way of understanding religion She argues that scholars must study religion not as it is defined by religious organizations but as it is actually lived in people s everyday lives Drawing on her own extensive fieldwork as well as recent work by others McGuire explores the many seemingly mundane ways that individuals practice their religions and develop their spiritual lives By examining the many eclectic and creative practices of body mind emotion and spirit that have been invisible to researchers she offers a fuller and more nuanced understanding of contemporary religion **The Garland Encyclopedia**
