James Blowey, John P. Coleman, Alan W. Craig, 2013-03-09 The Ninth EPSRC Numerical Analysis Summer School was held at the University of Durham UK from the 10th to the 21st of July 2000 This was the first of these schools to be held in Durham having previously been hosted initially by the University of Lancaster and latterly by the University of Leicester The purpose of the summer school was to present high quality instructional courses on topics at the forefront of numerical analysis research to postgraduate students Eminent figures in numerical analysis presented lectures and provided high quality lecture notes At the time of writing it is now more than two years since we first contacted the guest speakers and during that period they have given significant portions of their time to making the summer school and this volume a success We would like to thank all six of them for the care which they took in the preparation and delivery of their lectures The speakers were Christine Bernardi Petter Bjørstad Carsten Carstensen Peter Kloeden Ralf Kornhuber and Anders Szepessy This volume presents written contributions from five of the six speakers In all cases except one these contributions are more comprehensive versions of the lecture notes which were distributed to participants during the meeting Peter Kloeden's contribution is intended to be complementary to his lecture course and numerous references are given therein to sources of the lecture material
