International Workshop on Finite Elements for Microwave Engineering Roberto D. Graglia, Giuseppe Pelosi, Stefano Selleri, 2016-05-09 When Courant prepared the text of his 1942 address to the American Mathematical Society for publication he added a two page Appendix to illustrate how the variational methods first described by Lord Rayleigh could be put to wider use in potential theory Choosing piecewise linear approximants on a set of triangles which he called elements he dashed off a couple of two dimensional examples and the finite element method was born Finite element activity in electrical engineering began in earnest about 1968 1969 A paper on waveguide analysis was published in *Alta Frequenza* in early 1969 giving the details of a finite element formulation of the classical hollow waveguide problem It was followed by a rapid succession of papers on magnetic fields in saturable materials dielectric loaded waveguides and other well known boundary value problems of electromagnetics In the decade of the eighties finite element methods spread quickly In several technical areas they assumed a dominant role in field problems P P Silvester San Miniato PI Italy 1992 Early in the nineties the International Workshop on Finite Elements for Microwave Engineering started This volume contains the history of the Workshop and the Proceedings of the 13th edition Florence Italy 2016 The 14th Workshop will be in Cartagena Colombia 2018 *Scientific and Technical Aerospace Reports*, 1995 *Proceedings of the 3rd International Conference on Machine Learning, Cloud Computing and Intelligent Mining (MLCCIM2024)* Fuchun Sun, Hesheng Wang, Han Long, Yifei Wei, Hongqi Yu, 2025-02-05 The proceedings offer a meticulously curated compilation of peer reviewed papers presented at the 3rd International Conference on Machine Learning Cloud Computing and Intelligent Mining MLCCIM2024 With a profound focus on these domains this volume serves as an invaluable resource for researchers experts professionals and practitioners engaged in machine learning control systems robot cloud computing and intelligent mining techniques The conference facilitated a vibrant exchange of knowledge enabling participants to unveil their pioneering research findings showcase the outcomes of their latest projects and engage in thought provoking discussions to share perspectives and experiences
