**Vietnam** Joe Allen, 2016-12-05 As the United States now faces a major defeat in its occupation of Iraq the history of the Vietnam War as a historic blunder for US military forces abroad and the true story of how it was stopped take on a fresh importance Unlike most books on the topic constructed as specialized academic studies *The Last War the United States Lost* examines the lessons of the Vietnam era with Joe Allen s eye of both a dedicated historian and an engaged participant in today s antiwar movement Many damaging myths about the Vietnam era persist including the accusations that antiwar activists routinely jeered and spat at returning soldiers or that the war finally ended because Congress cut off its funding Writing in a clear and accessible style Allen reclaims the stories of the courageous GI revolt its dynamic relationship with the civil rights movement and the peace movement the development of coffee houses where these groups came to speak out debate and organize and the struggles waged throughout barracks bases and military prisons to challenge the rule of military command Allen s analysis of the US failure in Vietnam is also the story of the hubris of US imperial overreach a new chapter of which is unfolding in the Middle East today Joe Allen is a regular contributor to the *International Socialist Review* and a longstanding social justice fighter involved in the ongoing struggles for labor the abolition of the death penalty and to free the political prisoner Gary Tyler      Victimhood Nationalism Jie-Hyun Lim, 2025-04-01 Nationalism today depends on the perception of victimhood The historical memory of past suffering endows nationalist movements with political legitimacy and a sense of moral superiority Koreans recall Japanese colonial atrocities while Japan commemorates the atomic bombings of Hiroshima and Nagasaki Israel sanctifies the Holocaust and Poland trumpets the Nazi and Soviet occupations Even Germany and Russia perpetrators of historical crimes today cast themselves as victims by pointing to national suffering In this theoretically sophisticated and empirically rich book Jie Hyun Lim offers a new way to understand nationalism and its political instrumentalization of suffering developing the concept of victimhood nationalism and exploring it in a range of global settings He examines relations among Poland Germany Israel Korea and Japan focusing on how memories of colonialism the Holocaust and Stalinist terror have converged and intertwined in transnational spaces With an emphasis on memory formation Lim scrutinizes how perpetrators in Germany and Japan transformed themselves into victims as well as how nationalists in Poland Korea and Israel portray themselves as hereditary victims in order to rebut external criticism He considers the construction of nations as victims and perpetrators tracing the interaction of history and memory Ultimately

the book contends challenging victimhood nationalism is necessary to overcome the endless competition over national suffering and instead promote reconciliation mutual understanding and transnational solidarity

*The Globalization of International Law* Paul Schiff Berman, 2017-07-05 International law is no longer a sufficient rubric to describe the complexities of law in an era of globalization Accordingly this collection situates cross border norm development at the intersection of interdisciplinary scholarship on comparative law conflict of laws civil procedure cyberlaw legal pluralism and the cultural analysis of law as well as traditional international law It provides a broad range of seminal articles on transnational law making governmental and non governmental networks judicial influence and cooperation across borders the dialectical relationships among national international and non state legal norms and the possibilities of bottom up and plural law making processes The introduction situates these articles within the framework of law and globalization and suggests four important ways in which such a framework enlarges the traditional focus of international law This book therefore provides a crucial reference for

**Why Vietnam** Margaret Colbert Brown,2025-03-30 Explores the complex reasons behind the USA s involvement in Vietnam analyzing political social and military factors The reasons behind the USA s involvement in Vietnam remain a subject of extensive debate Initially America supported the French until their defeat at Dien Bien Phu which then shifted to backing the South Vietnamese government due to fears of communism spreading throughout Southeast Asia Why Vietnam delves into the myriad reasons for US involvement examining theories that date back to 1918 when Woodrow Wilson ignored Ho Chi Minh s plea for independence at the Treaty of Versailles through to Johnson s full commitment to the undeclared war which restrained the military to a defensive role in protecting South Vietnam instead of an offensive one that would send troops across the DMZ into Laos and Cambodia The questions of why the USA became involved whether their involvement was justified and if the war was ever winnable have been fiercely debated for over 50 years This book seeks to address these whys by providing a thorough examination of all contributing factors from presidential actions to foreign policy and the social and political climates of the war era

**Shaping US Military Law** Joshua E. Kastenberg,2016-04-01 Since the United States entry into World War II the federal judiciary has taken a prominent role in the shaping of the nation s military laws Yet a majority of the academic legal community studying the relationship between the Court and the military establishment argues otherwise providing the basis for a further argument that the legal construct of the military establishment is constitutionally questionable Centering on the Cold War era from 1968 onward this book weaves judicial biography and a historic methodology based on primary source materials into its analysis and reviews several military law judicial decisions ignored by other studies This book is not designed only for legal scholars Its intended audience consists of Cold War military and political historians as well as political scientists and military and national security policy makers Although the book s conclusions are likely to be favored by the military establishment the purpose of this book is to accurately analyze the intersection of the later twentieth century s American military political social and cultural history and the operation of the nation s armed forces from a judicial vantage

Schwendinger, 2014 The Berkeley

School of Criminology stands to this day as one of the most significant developments in criminological thought and action Its diverse participants students and faculty were true innovators producing radical social analyses getting to the roots causes of institutions of criminal justice as part of broader relations of inequality injustice exploitation patriarchy and white supremacy within capitalist societies Even more they situated criminology as an active part of opposition to these social institutions and

the relations of harm they uphold Their criminology was directly engaged in and connected with the struggles of resistance that emerged in the late 1960s and early 1970s Not surprisingly perhaps they became a target of regressive and reactionary forces that sought to quiet those struggles Notably the Berkeley School of Criminology was targeted by key players in the US military industrial complex such as Ronald Reagan himself then Governor of California and Regent of UC Berkeley Who Killed the Berkeley School by Julia and Herman Schwendinger key players in the Berkeley School is the first full length in depth analysis of the Berkeley School of Criminology its participants and the attack against it It tells the story of an important infrastructure of resistance a resource of struggle and how it was dismantled It lays bare the role not only of conservatives but of liberal academics and false critical theorists who failed to stand up in defense of the School and its work when called upon This is a story with profound lessons in the current period of corporatization of campuses neoliberal education and market driven curricula It will be of interest to anyone concerned with developing resistance to the corporate campus and seeking critical alternatives It also stands as a challenge to social science disciplines including criminology to develop a practice that identifies the roots of social injustice and organizes to confront it
