Emily Drumsta traces the influence of detective fiction on the twentieth century Arabic novel Theorizing a poetics of
investigation she shows how these novels far from staging awe inspiring feats of logical deduction mock the truth seeking
practices on which modern exercises of colonial and national power are often premised Their narratives return to the
archives of Arabic folklore Islamic piety and mysticism to explore less coercive ways of knowing seeing and seeking Drumsta
argues that scholars of the Middle East neglect the literary at their peril overlooking key critiques of colonialism from the
intellectuals who shaped and responded through fiction to the transformations of modernity This book ultimately tells a
different story about the novel s place in the constellation of Arab modernism modeling an innovative method of open ended
inquiry based on the literary texts themselves
