Nurses Diary:

A Pandemic Nurse's Diary (hardcover) Nurse T, 2020-10-15 In strong unadorned prose Nurse T chronicles her experience from January 2020 when the first reports of a novel virus in China cause her concern to the first cases trickling in to her hospital to the avalanche of patients that soon overwhelm them Her account of frantic efforts to save the patients is sometimes grim always touching This veteran ICU nurse's diary is also the story of a large New York City hospital that serves a poor population mainly immigrants and people of color The aging infrastructure inadequate supplies and lack of bold effective response to the pandemic all come to light in her diary But the stories are not all tragic There are moments of triumph and precious expressions of humor And through it we see the solidarity and courage of the hospital workers who ventured back day after day night after night to fight a losing battle *Nurses' Journal of the Pacific Coast*, 1904 **The American Journal of Nursing**, 1927 Sharon's Nursing Diary Dorothy Deming, 1949 **Nurse Life : a Nurse's Diary** Amazing Nurse Journals, 2019-03-03 Nurse Life Large Size Notebook Journal for Nurses Registered Nurse Certified Nursing Assistant Assistant Nurse etc Perfect for Taking Notes at Nursing School Journaling Traveling etc Cute Gift for Mothers Day Birthday Anniversary Christmas This Journal is 8 5x11 in size lightly Lined Ruled and contains 124 pages **The Great War and Scottish Nurses' Diaries** Costel Coroban, 2019-03-21 This book analyses the representations of the different instances of war in the letters and diaries of the nurses and doctors of the Scottish Women's Hospitals who worked in Romania during the Great War These nurses detailed their experiences into journals through literary diegesis that included minute observations on their work surroundings and different developments of the front as well as their own interpretations of and impressions on their work and the war's destructive character Generally the approaches to the Great War by women who witnessed and lived it have either been gender oriented or simply seen as petit histoires This research represents a complementary addition to the existing literature through its focus on the experience of the women on the fighting front looking at it from the double perspective of autobiographical writing and war testimony Nurse Writers of the Great War Christine Hallett, 2016-02-15 This electronic version has been made available under a Creative Commons BY NC ND open access license The First World War was the first total war Its industrial weaponry damaged millions of men and drove whole armies underground into dangerously unhealthy trenches Many were killed Many more suffered terrible life threatening injuries wound infections such as gas gangrene and tetanus exposure to extremes of temperature emotional trauma and systemic disease In an effort to alleviate this suffering tens of thousands of women volunteered to serve as nurses Of these some were experienced professionals while others had undergone only minimal training But regardless of their preparation they would all gain a unique understanding of the conditions of industrial warfare Until recently their contributions both to the saving of lives and to our understanding of warfare have remained largely hidden from view By combining biographical research with textual analysis Nurse writers of the great war opens a window onto their insights into the nature of nursing

Group,Joan I. Roberts,2001-10-03 Nursing Physician Control and the Medical Monopoly Historical Perspectives on Gendered Inequality in Roles Rights and Range of Practice Thetis M Group and Joan I Roberts A history of physicians efforts to dominate the healthcare system Nursing Physician Control and the Medical Monopoly traces the efforts by physicians over time to achieve a monopoly in healthcare often by subordinating nurses their only genuine competitors Attempts by nurses to reform many aspects of healthcare have been repeatedly opposed by physicians whose primary interest has been to achieve total control of the healthcare system often to the detriment of patients health and safety Thetis M Group and Joan I Roberts first review the activities of early women healers and nurses and examine nurse physician relations from the early 1900s on The sexist domination of nursing by medicine was neither haphazard nor accidental but a structured and institutionalized phenomenon Efforts by nurses to achieve greater autonomy were often blocked by hospital administrators and organized medicine The consolidation of the medical monopoly during the 1920s and

1930s along with the waning of feminism led to the concretization of stereotyped gender roles in nursing and medicine. The growing unease in nurse-physician relations escalated from the 1940s to the 1960s; the growth and complexity of the healthcare industry, expanding scientific knowledge and increasing specialization by physicians all created heavy demands on nurses. Conflict between organized medicine and nursing entered a public open phase in the late 1960s and 1970s when medicine unilaterally created the physician's assistant, countered by nursing's development of the advanced nurse practitioner. But gender stereotypes remained central to nurse-physician relations in the 1980s and into the 1990s. Finally, Group and Roberts examine the results of the medical monopoly from the impact on patients' health and safety to the development of HMOs and the current overpriced, poorly coordinated and fragmented healthcare system.
