Authoritative content is written by two of the true pioneers in nursing research who offer unique first hand insights into the field

Research examples provide practice in working with published studies with many of the examples including Critical Appraisal and Implications for Practice sections

Clear step by step organization introduces the research process and demonstrates how this systematic framework relates to evidence based practice

Strong emphasis on evidence based practice helps you develop skills in studying and appraising published research so you are prepared for your role in working with research evidence

Critical Appraisal Guidelines boxes provide step by step guidance in appraising published research studies

Emphasis on critical appraisal versus critique reflects contemporary usage in nursing research and evidence based practice

Balanced coverage of qualitative research prepares you to approach research questions and clinical questions with an unbiased view of the researcher's methodology

Presentation of two different appraisal processes covers both the traditional in depth critical appraisal process that prepares you for graduate level work in research and the concise practice focused research appraisal process that equips you for quick and accurate evaluation of the applicability of research findings
