way of communicating God's Word in a way that sticks **Transforming Theological Education, 2nd Edition** Perry Shaw, 2022-01-31 For several decades concern has been expressed about the need for greater integration and contextual significance in the curricular design of theological education. In addition, there has been a growing awareness of the role theological schools should play in strengthening the missional vision and practice of local churches. Drawing on Dr. Perry Shaw's experience as faculty member, educational engineer, and acting academic dean for Arab Baptist Theological Seminary, *Transforming Theological Education* provides theoretical foundations and practical principles for purposeful curriculum design as well as tools for facilitating integrated and contextually significant learning in the classroom. This updated second edition has been reorganized for thematic clarity and expanded to provide a stronger foundation for thinking theologically rather than just educationally about theological education. It also contains a wider range of curricular examples from innovative theological programs around the world along with practical advice for implementing change in change-resistant environments. This handbook continues to be a one-of-a-kind resource for theological educators and all those involved in Christian leadership training.

Ecologies of Faith in a Digital Age Stephen D. Lowe, Mary E. Lowe, 2018-06-19 Many Christian institutions have embraced new technologies, especially online education. But is it possible for us to grow spiritually through our digital communities? Wouldn't You Love to Know? Ian W. Payne, 2014-08-08 With all the jumble of human disagreements, how can we know? Can the Christian church think coherently about knowledge? Can it regain confidence in teaching what it knows? In an increasingly divided and pessimistic postmodern world, this book offers a theology for epistemology and for pedagogy that aims to be faithful and fruitful. Building on Karl Barth, it argues that God's knowing guides how humans know. We should imitate God's epistemic stance; his love for that is the best model for knowing anything. The Trinitarian theme in Barth identifies three key concepts: committedness, openness, and relationality. These mean being committed and open towards what we wish to know. Relational openness also profoundly clarifies and shapes what love means in knowing and in teaching. This book unpacks an epistemology and pedagogy of love. Wouldn't you love to know?
