Miller-McLemore,2019-03-01 How the daily practices of life with children can shape our faith In the Midst of Chaos explores parenting as spiritual practice building on Bonnie J Miller McLemore's fresh conceptions of children from her book Let the Children Come She questions conventional perceptions that spiritual practices require silence solitude and uninterrupted prayer and that assume a life unburdened by care of others She is both honest about the difficulties and attentive to the blessings present in everyday life and demonstrates that the life of faith encompasses children and the adults who care for them Miller McLemore explores how parents might use seven daily practices such as play reading chores and saying goodbye or goodnight as rich opportunities to shape both parent and child morally and spiritually Through these experiences she shows how the very care of children forms and reforms the faith of adults themselves contrary to the belief that adults must form children In the Midst of Chaos also goes beyond the typical focus on individual self fulfillment by tackling difficult questions of social justice and mutuality in the ways families live together Readers will find in this book an invitation to love those around them in the midst of life's craziness and to live more deeply in grace **A Circle of Love** Grace H.

**Parenting with Soul** Jay Krunzky, 2017-05-24 What if your life is a mirrored recollection of your beliefs and could be changed tomorrow As science psychology and spirituality come together to provide evidence to how our beliefs and thoughts impact our lives people are discovering that their outcomes in life stem from internal thoughts and beliefs rather than external barriers Parenting with Soul provides a road map to love where adults and children can discover what their souls are truly calling them to be free from thoughts and beliefs that lead to fear and the worries of the past and future Many adults parent from old school beliefs that the world is dangerous resources are scarce and the world is in competition for these limited resources By adopting beliefs that the world is loving and abundant a parent supports a life for a child based in hope and joy rather than fear When parenting from a fear or an ego perspective adults are passing down beliefs to their children that lead to negative emotions thus preventing them from realizing their full potential Parenting with Soul asks parents and or caregivers to assess their beliefs and level of happiness as a determining factor in making the decision to be a parent

**Spiritual Parenting** Hugh Prather, Gayle Prather, 1996 Spiritual Parenting is a guide to the naturally intuitive and spiritual core of every child. It refutes the current notions of the basic nature of children and teenagers while offering a radically new way to approach parenting. In the words of authors, counselors, and ministers, Hugh and Gayle Prather: "This book reflects our deep personal conviction that parenting is a spiritual path, a form of worship. In their characteristically warm style, the Prathers offer a book of principles that parents can use to understand and protect their children at home, at school, and in the world. While one does not have to believe in God to understand these principles, say the Prathers, parents must approach child care as a spiritual task. They offer ways to keep this essential focus amid the bewildering complexities involved in guiding children toward adulthood. With joy and a sense of humor, the Prathers offer stories and anecdotes about their own children and the children of families they have counseled to help today's parents break through conflicting ideas and emotions and learn to enjoy their children at all stages of their growth."

**Parenting with Heart** Stephen James, Chip Dodd, 2018-10-16 Parents want to be the best person they can for their children, but much of the time they may feel like giraffes on ice—clumsy, unprepared, and in imminent danger of going down. The good news is our children don't need perfect parents. They need authentic, fully hearted, relationally engaged parents who can mess up and move on more than parents who always get it right. In this freeing book, respected therapists and bestselling authors Stephen James and Chip Dodd invite parents to let go of perfectionism and micromanaging as they learn to parent from a place of emotional honesty and intimacy. Through their clinical experience and relatable true stories, they show parents that raising children to become capable, loving, and wise-hearted adults is far more about accepting our flaws than projecting an impossible standard to our children that we already know we can't live up to. Parents will learn how to resolve issues from their own childhoods, tune into their feelings, and the emotions of their children, and be present with their families through both the best and worst of circumstances.
