A Handbook of Parenteral Nutrition H. A. Lee, G. Venkat Raman, 2013-11-11 Total parenteral nutrition TPN is now an everyday occurrence in most general hospitals Over the last two decades this therapeutic modality has been made so simple that it is no longer the province of the specialized surgeon or physician Indeed as with the management of chronic renal failure so now with short bowel disease home parenteral nutrition has become a reality though this still requires a specialist team dedicated to its management Furthermore as more patients will become suitable for home TPN treatment either long term or short term so better rationalization of a cost b delivery systems and c patient training will be necessary Lessons can be learnt from the somewhat diverse development of regular dialysis treatment in the early 1960s compared with the situation today Here is a golden opportunity with the UK National Registry to rationalize on home TPN costs and to make sure the treatment is simplified and available to all those who may require this treatment This book is not designed to be an overall comprehensive review of parenteral nutrition It is meant to set out simple guidelines and the requirements for effective TPN both in hospital and at home It is aimed at doctors in training interested physicians and surgeons nurses dietitians and pharmacists The purpose is to stimulate interest and awareness rather than to provide detailed small print information For the person seeking greater knowledge there are several excellent monographs on the subject **Artificial Nutrition and Support in Clinical Practice** Jason Payne-James, George K. Grimble, David B. A. Silk, 2012-08-09 Any healthcare professional with or developing an interest in clinical nutrition will be able to use this textbook first published in 2001 as a source of information for the formation of a clinical nutrition support service of excellence The first three parts of the book will enable a clear perspective of the metabolism and physiology of clinical nutrition to be related to the practical application of support techniques The fourth part of the book highlights the role of nutrition support in specific disease
