Estrin,1994-12-15 How do men imagine women In the poetry of Petrarch and his English successors Wyatt Donne and Marvell the male poet persistently imagines pursuing a woman Laura whom he pursues even as she continues to deny his affections Critics have long held that in objectifying Laura these male authored texts deny the imaginative intellectual and physical life of the woman they idealize In Laura Barbara L Estrin counters this traditional view by focusing not on the generative powers of the male poet but on the subjectivity of the

imagined woman and the imaginative space of the poems she occupies Through close readings of the Rime sparse and the works of Wyatt Donne and Marvell Estrin uncovers three Lauras Laura Daphne who denies sexuality Laura Eve who returns the poet's love and Laura Mercury who reinvents her own life Estrin claims that in these three guises Laura subverts both genre and gender thereby introducing multiple desires into the many layers of the poems Drawing upon genre and gender theories advanced by Jean Fran ois Lyotard and Judith Butler to situate female desire in the poem's framework Estrin shows how genre and gender in the Petrarchan tradition work together to undermine the stability of these very concepts Estrin's Laura constitutes a fundamental reconceptualization of the Petrarchan tradition and contributes greatly to the postmodern reassessment of the Renaissance period In its descriptions of how early modern poets formulate questions about sexuality society and poetry Laura will appeal to scholars of the English and Italian Renaissance of gender studies and of literary criticism and theory generally

**The Returns of Odysseus** Irad Malkin,1998-11-30 This remarkably rich and multifaceted study of early Greek exploration makes an original contribution to current discussions of the encounters between Greeks and non Greeks Focusing in particular on myths about Odysseus and other heroes who visited foreign lands on their mythical voyages homeward after the Trojan War Irad Malkin shows how these stories functioned to mediate encounters and conceptualize ethnicity and identity during the Archaic and Classical periods Synthesizing a wide range of archaeological mythological and

literary sources this exceptionally learned book strengthens our understanding of early Greek exploration and city founding along the coasts of the Western Mediterranean reconceptualizes the role of myth in ancient societies and revitalizes our understanding of ethnicity in antiquity Malkin shows how the figure of Odysseus became a proto colonial hero whose influence transcended the Greek speaking world The return myths constituted a generative mythology giving rise to oral poems stories iconographic imagery rituals historiographical interpretation and the articulation of ethnic identities Reassessing the role of Homer and alternative return myths the book argues for the active historical function of myth and collective representations and traces their changing roles through a spectrum of colonial perceptions from the proto colonial through justifications of expansion and annexation and up to decolonization **Novices' Gleanings in Bee Culture**, 1921
