The Ultimate Escape J. Demetrio Nicolo, 2020-05-20 It has been theorized that one s mental and physical well being can be directly related to the level of stress one experiences Of course if this is a reality it is not farfetched to think that the intensity and duration of the high level of stress experience can be devastating over a long period of time This happened to be the case with Jonah Long who because of his internal drive to be successful made him an ideal case for reaching his mental breaking point Since he never discovered how to relax and relieve stress he enlisted the help of one of his colleagues a person who had the same dreams and drive to reach optimal success but never displayed the tell tale signs of stress and strain Without even knowing the full extent of Jonah s concerns his colleague leaped into action for freeing Jonah from his mental prison and proposed the perfect solution the Ultimate Escape

practices and local and regional musical events I have always had a rather large vehicle to contain in the early years kids and all their quilts and cuddle toys and sippy cups and anything else they snuck on board Later years I had to carry medical supplies briefcases office supplies and the like for work then instruments and sound equipment for the festival circuit and a front seat filled with coffee maker and a sizeable cooler for the many meals I had to consume while driving At all times I carried a clipboard and attached pen to record the noteworthy things that happened on my various trips Those clipboards filled quickly In later years it was a laptop and or tablet and cell phone gracing my passenger seat Since my nursing career began in the early seventies and motherhood as well and musician matters all my life plus the fishing and the snowmachine miles you can imagine I had ample grist for this Million Miles mill The book is filled with my life on the road a memoir
