

¿QUÉ ES EL ESPACIO?

El **espacio** es el vasto vacío que se extiende más allá de la Tierra, donde se encuentran los planetas, las estrellas, las galaxias y otros cuerpos celestes.

Es un lugar en el que se desarrollan fenómenos astronómicos y cósmicos.

En el **espacio** no hay aire ni gravedad significativa, lo que permite el movimiento libre de los objetos.

Además, el **espacio** es un objeto de exploración para los científicos y los astronautas, ya que nos brinda información valiosa sobre el universo y puede revelar misterios sobre nuestro origen y nuestro lugar en el cosmos.

Pure Space (Spanish Edition) Elisa Silva, 2020-11-24 This book may seem a simple accumulation of twenty one public space projects in eight Latin American cities On closer inspection the presentation of project descriptions photographs and annotated drawings reflects a concern to analytically explain the operative aspects at work The publication is not intended to serve only as a catalogue guide or manual on how to produce public space in spontaneous settlements Rather it goes beyond the aims of an index of best practices It is intended instead as an empirical base for a critical and theoretical engagement with the problematic of development social inclusion public investment in formal settlement civil society and the public sphere The publication achieves its final function at this third level by providing a compelling argument to expand the agency of architects and urban designers and creatively find ways of justifying financing and building public spaces in communities spaces that have a catalytic effectiveness in achieving significant urban and social transformation This book was awarded by a Graham Foundation Grant and CAF Development Bank of Latin America **FEATURED CASE STUDIES CONSERVATION** 72 Linear parks along the Estero Salado Guayaquil Ecuador 80 National Park Babilonia and Chapu Mangueira Rio de Janeiro Brasil 88 Urban agriculture along the Rimac River Lima Peru **WASTE MANAGEMENT** 96 Moravia Ecological Park Medellin Colombia 104 Plaza La Cruz La Palomera Caracas Venezuela **RISKMANAGEMENT** 112 El Guasmo Beach floodable park Guayaquil Ecuador 120 Safety plazas in Santa Marta El Triunfo Lima Peru 128 Recovery of the Juan Bobo Creek Medellin Colombia **INFRASTRUCTURE** 136 Northeast metro cable parks Comuna 1 La Popular Medellin Colombia 144 Barrio Las Independencias escalators and walkways Medellin Colombia 152 Funicular in Dona Marta Rio de Janeiro Brazil 160 Complexo do Alemo Rio de Janeiro Brazil 168 Ecotecnica Urbana Miravalle Mexico City Mexico **PAVEMENT PATHS AND THE SPACE SURROUNDING BUILDINGS** 176 Pavement paths and stairs Cerro Santo Doming and Cerro Toro Valparaiso Chile 184 Cerro Santa Ana urban rehabilitation Guayaquil Ecuador 192 Fernando Botero Library Medellin Colombia 200 Moravia Cultural Center Medellin Colombia 208 Espacio Crianza and community programs Rio de Janeiro Brazil 216 Plaza in Villa Tranquila Buenos Aires Argentina **ACTIVITY** 224 Casa Kolacho Comuna 13 Medellin Colombia 232 AfroReggae Cultural Center Rio de Janeiro Brazil 240 Alto Per Lima Peru 248 El Calvario Puertas Abiertas Caracas Venezuela *The Space of Culture* Stewart King, Jeff Browitt, 2004 The essays range from colonial domination and international struggles over territorial claims to a meditation on the politics of location to the issue of spatial representation of mature age women and gay men within a dialectic of visibility invisibility in Spanish theatre and cinema **Jacket The Dynamic Consultation** Marisa Cordella, 2004-01-01 This book introduces a unique model of medical discourse that identifies the forms of talk voices that doctors and patients use during the consultation and studies the dynamic interaction as it unfolds particularly in follow up visits Natural recordings semi structured interviews questionnaires and ethnographic observations provide the data for the research which was carried out in an Outpatient Clinic in Santiago Chile Using an interactional sociolinguistic approach

analysis of the data identifies doctor patient communication as a micro performance of broader socio cultural realities in which social status power knowledge and personal beliefs and values all find expression in the consultative setting. Importantly while both doctor and patient voices are shown to contribute to an essentially asymmetrical exchange the study also identifies the holistic and empathic Fellow Human voice which places doctors and patients on a more equal footing. In connection with this voice the Spanish concept of *simpatía* is also discussed. While the model in this study was developed within a specific socio cultural framework it is hoped that it will be adapted and modified more widely and contribute to a better understanding between doctors and their patients.

Moving Beyond the Crisis : Reclaiming and Reaffirming our Common Administrative Space Demetrios Argyriades, Gérard Timsit, 2013-03-14 With the financial meltdown and the economic crisis in their fifth year already no one can any longer be in doubt about their exceptional gravity their truly global impact and their profound effects hurting vulnerable groups and the very poor especially. As the world looks for an exit from this economic crisis the worst in eight decades the focus of attention is naturally on the causes the factors that account for its wide reach and severity as well as on strategies that might bring it to a closure. The quest for exit strategies is at the very centre of the issues and concerns explored in the present volume produced by the IIAS. Like the preceding volumes but even more emphatically this volume representing a collective endeavour of scholars and practitioners from many parts of the globe finds cause to lay the blame for our difficult predicament on the institutional deficit the policies the practices and values that have followed in the trail of a highly misleading and erroneous model of governance. The Market Model of Governance as it is known sought to reform the structures and culture of administration and government in private sector ways. While instrumental values like efficiency and effectiveness were raised and praised profusely those of democratic governance were discounted by comparison. In particular integrity the rule of law and due process equity legality and public service professionalism suffered a steep decline in several parts of the world. Likewise the invasion and the capture of public space inevitably led to an unprecedented surge of greed abuse and corruption that contributed directly to the crisis which is upon us. Looking for exit strategies as its title aptly suggests the present volume offers a rich menu of ideas drawn from the current experience of all the world's main regions. Not surprisingly two concepts stand out throughout the book as necessary correctives as well as pressing remedies to the world's ongoing malaise. They call for the recapture of our common administrative space and the reaffirmation of the values and virtues appropriate for democratic governance. To the IIAS none perhaps are more important than public service professionalism and none other can contribute more effectively to the reform and consolidation of sound institutions for national sub national global and regional governance. For these reasons at this juncture the new volume like the others should be featured in every public library and become a vademecum of all scholars and practitioners of public administration and politics around the world.

Occupying Space in American Literature and Culture Ana Manzananas, Jes s Benito Sanchez, 2014-04-24 Occupying Space in American Literature and Culture inscribes itself within the spatial turn that permeates the ways we look at literary and cultural productions The volume seeks to clarify the connections between race space class and identity as it concentrates on different occupations and disoccupations enclosures and boundaries Space is scaled up and down from the body the ground zero of spatiality to the texturology of Manhattan from the striated place of the office in Melville s Bartleby the Scrivener on Wall Street to the striated spaces of internment camps and reservations from the lowest of the low the human clutter that lined the streets of Albany NY during the Depression to the new Towers of Babel that punctuate the contemporary architecture of transparencies As it strings together these spatial narratives the volume reveals how beyond the boundaries that characterize each space every location has loose ends that are impossible to contain
