Ambiguous Women in Medieval Art Monica Ann Walker Vadillo, 2019-12-31 Ambiguous Women in Medieval Art brings together the work of seven researchers who coming from different perspectives and in some cases different disciplines approach the question of ambiguity in relation to different case studies where the represented women do not follow the ever present dichotomy exemplified by Eve and Mary In doing so they demonstrate the complexities of a topic that is as contemporary as it is ancient Through them we can get valuable insights on the understanding and experience of gender in the past and the ways in which these experiences have shaped our own understanding of this topic **The Grove**

Feltman, 2016-07-15 This interdisciplinary volume in the AVISTA series is the first book to focus solely on the north transept of Reims Cathedral the portion of the gothic building that served as the canons primary entrance to the cathedral from their adjoining cloister in the thirteenth century Despite the importance of its sculpture and stained glass as well as its ritual use by the canons the north transept remains one of the least understood portions of the cathedral in part because its sequence of construction is so complex even improvised Until recently important archaeological evidence of the transept s substructures was unavailable This is however no longer the case The current volume presents this new subterranean evidence alongside careful studies of the stones above ground analysis of the geometry used in the transept s design iconographic and stylistic studies of its sculpture and glass and extant medieval documents which record events bearing upon its construction Essays by international specialists of the cathedral s archaeology architecture sculpture and stained glass address issues of the north transept s evolving design and visual programs thereby significantly clarifying and revising the building s chronology Essays also consider the meaning of its visual programs in light of architectural adaptation and contemporary socio historical events whether royal coronations or the infamous revolts of the local burghers In addition to presenting a readily accessible state of the research on the north transept the volume also provides a model for interdisciplinary and international collaboration in the study of medieval buildings *Women Medievalists and the Academy* Jane Chance, 2005 Pioneering An important and timely collection that profiles the lives and professional careers of women medievalists in the last centuries Maureen Mazzaoui University of Wisconsin Madison **The Church of Santa Maria Donna Regina** Janis Elliott, 2017-07-05 The
