**Readers' Liberation** Jonathan Rose, 2018-01-05 The Literary Agenda is a series of short polemical monographs about the importance of literature and of reading in the wider world and about the state of literary education inside schools and universities The category of the literary has always been contentious What is clear however is how increasingly it is dismissed or is unrecognised as a way of thinking or an arena for thought It is sceptically challenged from within for example by the sometimes rival claims of cultural history contextualized explanation or media studies It is shaken from without by even greater pressures by economic exigency and the severe social attitudes that can follow from it by technological change that may leave the traditional forms of serious human communication looking merely antiquated For just these reasons this is the right time for renewal to start reinvigorated work into the meaning and value of literary reading For the Internet and digital generation the most basic human right is the freedom to read The Web has indeed brought about a rapid and far reaching revolution in reading making a limitless global pool of literature and information available to anyone with a computer At the same time however the threats of censorship surveillance and mass manipulation through the media have grown apace Some of the most important political battles of the twenty first century have been fought and will be fought over the right to read Will it be adequately protected by constitutional guarantees and freedom of information laws Or will it be restricted by very wealthy individuals and very powerful institutions And given increasingly sophisticated methods of publicity and propaganda how much of what we read can we believe This book surveys the history of independent sceptical reading from antiquity to the present It tells the stories of heroic efforts at self education by disadvantaged people in all parts of the world It analyzes successful reading promotion campaigns throughout history concluding with Oprah Winfrey and explains why they succeeded It also explores some disturbing current trends such as the reported decay of attentive reading the disappearance of investigative journalism fake news the growth of censorship and the pervasive influence of advertisers and publicists on the media even on scientific publishing For anyone who uses libraries and Internet to find out what the hell is going on this book is a guide an inspiration and a warning     **F.
