Aksum and Nubia George Hatke,2013-01-07 *Aksum and Nubia* assembles and analyzes the textual and archaeological evidence of interaction between Nubia and the Ethiopian kingdom of Aksum focusing primarily on the fourth century CE Although ancient Nubia and Ethiopia have been the subject of a growing

number of studies in recent years little attention has been given to contact between these two regions Hatke argues that ancient Northeast Africa cannot be treated as a unified area politically economically or culturally Rather Nubia and Ethiopia developed within very different regional spheres of interaction as a result of which the Nubian kingdom of Kush came to focus its energies on the Nile Valley relying on this as its main route of contact with the outside world while Aksum was oriented towards the Red Sea and Arabia In this way Aksum and Kush coexisted in peace for most of their history and such contact as they maintained with each other was limited to small scale commerce Only in the fourth century CE did Aksum take up arms against Kush and even then the conflict seems to have been related mainly to security issues on Aksum's western frontier Although Aksum never managed to hold onto Kush for long much less dealt the final death blow to the Nubian kingdom as is often believed claims to Kush continued to play a role in Aksumite royal ideology as late as the sixth century Aksum and Nubia critically examines the extent to which relations between two ancient African states were influenced by warfare commerce and political fictions

The Arsacids of Rome Jake Nabel, 2025-04-15 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more At the beginning of the common era the two major imperial powers of the ancient Mediterranean and Near East were Rome and Parthia In this book Jake Nabel analyzes Roman Parthian interstate politics by focusing on a group of princes from the Arsacid family the ruling dynasty of Parthia who were sent to live at the Roman court Although Roman authors called these figures hostages and scholars have studied them as such Nabel draws on Iranian and Armenian sources to argue that the Parthians would have seen them as the emperor's foster children These divergent perspectives allowed each empire to perceive itself as superior to the other since the two sides interpreted the exchange of royal children through conflicting cultural frameworks Moving beyond the paradigm of great powers in conflict *The Arsacids of Rome* advances a new vision of interstate relations with misunderstanding at its center

Visions of Community in the Post-Roman World
 Clemens Gantner, 2016-03-03 This volume looks at visions of community in a comparative perspective from Late Antiquity to the dawning of the age of crusades It addresses the question of why and how distinctive new political cultures developed after the disintegration of the Roman World and to what degree their differences had already emerged in the first post Roman centuries The Latin West Orthodox Byzantium and its Slavic periphery and the Islamic world each retained different parts of the Graeco Roman heritage while introducing new elements For instance ethnicity became a legitimizing element of rulership in the West remained a structural element of the imperial periphery in Byzantium and contributed to the inner dynamic of Islamic states without becoming a resource of political integration Similarly the political role of religion also differed between the emerging post Roman worlds It is surprising that little systematic research has been done in these fields so far The 32 contributions to the volume explore this new line of research and look at different aspects of the process with leading western Medievalists Byzantinists and Islamicists covering a wide range of pertinent topics At a closer look some of the apparent differences between the West and the Islamic world seem less distinctive and the inner variety of all post Roman societies becomes more marked At the same time new variations in the discourse of community and the practice of power emerge Anybody interested in the development of the post Roman Mediterranean but also in the relationship between the Islamic World and the West will gain new insights from these studies on the political role of ethnicity and religion in the post Roman Mediterranean
