Guattari Beyond Deleuze Carlos A. Segovia, 2024-11-08 This book argues that by virtue of his original and ongoing contribution to ontology and modal philosophy from the texts gathered in *Psychanalysis and Transversality* to the unpublished manuscript notes for *What Is Philosophy* Guattari is to be acknowledged a philosopher in his own right independently from Deleuze Furthermore it looks back and forth beyond *Anti Oedipus* and contends that Guattari's major writings gradually supplement deterritorialization with determinability Accordingly it offers a new interpretation of the nuanced development of Guattari's philosophical thought which it proposes to define as constructivist rather than post structuralist Additionally it explores the innovative responses that Guattari's philosophy supplies to various contemporary philosophical debates like those on accelerationism indeterminacy compossibility and worlding Finally it examines the differences that upon a careful cross reading of their earliest texts including *The Anti Oedipus Papers* and *Difference and Repetition* must be drawn between Guattari's constructivism and Deleuze's sacrificial philosophy
