Quest For Responsibility:

The Quest for Responsibility M. A. P. Bovens, 1998-03-12 The search for responsibility in complex organisations often seems an impossible undertaking Adopting a multidisciplinary approach combining law social science ethics and organisational design Mark Bovens analyses the reasons for this and offers possible solutions He begins by examining the problem of many hands because so many people contribute in so many different ways it is very difficult to determine who is accountable for organisational behaviour Four possible solutions corporate hierarchical collective and individual accountability are analysed from normative empirical and practical perspectives Bovens argues that individual accountability is the most promising solution but only if individuals have the chance to behave responsibly The book then explores the implications of this approach What does it mean to be a responsible employee or official When is it legitimate to disobey the orders of superiors What institutional designs might be most appropriate Responsibility in Nanotechnology Development Simone Arnaldi, Arianna Ferrari, Paolo Magaudda, Francesca Marin, 2014-07-08 This book disentangles the complex meanings of responsibility in nanotechnology development by focusing on its theoretical and empirical dimensions The notion of responsibility is extremely diversified in the public discourse of nanoscale technologies Addressed are major disciplinary perspectives working on nanotechnology e g philosophy sociology and political science as well as the major multidisciplinary areas relevant to the innovation process e g technology assessment and ethics Furthermore the interplay between such expertises disciplines and research programmes in providing a multidisciplinary understanding of responsibility is emphasized Principles of Shared Responsibility in International Law André Nollkaemper, Ilias Plakokefalos, 2014-12-04 The Shared Responsibility in International Law series examines the underexplored problem of allocation of responsibilities among multiple states and other actors The International Law Commission in its work on state responsibility and the responsibility of international organisations recognised that attribution of acts to one state or organisation does not exclude possible attribution of the same act to another state or organisation but has provided limited guidance on allocation or reparation From the new perspective of shared responsibility this volume reviews the main principles of the law of international responsibility as laid down in the Articles on State Responsibility and the Articles on Responsibility of International Organizations such as attribution of conduct breach circumstances precluding wrongfulness and reparation It explores the potential and limitations of current international law in dealing with questions of shared responsibility in areas such as military operations and international environmental law **The Responsibility of Science** Harald A. Mieg, 2022-06-28 This open access book provides an overview of issues of scientific responsibility The volume comprises three types of contributions first analyses of the responsibility of science second analyses of the structural conditions for science and its responsibility and third normative versions of scientific responsibility The questions and problems dealt with include science as a profession ambivalence of research and dual use innovation vs precaution notions of responsibility the

Kure, 2025-06-30 Corruption is much more than a political problem Striking at the moral fabric of society corruption has ethical and theological implications that must be addressed if human beings are to be protected and human dignity safeguarded In this study Dr Kefas U Kure examines the dimensions of corruption in a Nigerian context He explores the impact of political and religious corruption on vulnerable populations particularly as it undermines belief in the worth and value of human lives Drawing from African contextual theology he demonstrates the need for an ethic of responsibility that would promote personal and collective action in combating corruption and defending human dignity Such an ethic he argues would aid Christians theologians and church leaders in recognizing the importance of their role as promoters of justice champions of human rights and witnesses to the image of God in each and every human being **The Concept of Dilemma in Legal and Judicial Ethics** Przemysław Kaczmarek, Krzysztof J. Kaleta, Paweł Łabieniec, Marcin Pieniążek, Paweł Skuczyński, Sebastian Sykuna, 2018-10-12 Judges and lawyers have to shape their moral competences in order to maintain their professional ethics at a high standard if they want to effectively meet the challenges that modern society will throw at them This requirement is due to the growing expectation that they will be socially and morally responsible for the law Thus the need to place ethics at the heart of legal education and to make ethical reflection pervasive in academic courses becomes more obvious every day Using the concept and examples of moral dilemmas is a way of facilitating this task The main purpose of this book is to analyse the concept of moral dilemma in context of judicial and legal ethics and to provide material for legal education The structure of this book is designed with this double aim in mind The theoretical part presents the concept of dilemmas on grounds of metaethics and the perspectives for its application in a professional legal context The former encompasses situations of conflict of duties or obligations in which the choice of one conduct necessarily prevents a different conduct and therefore leads to an unacceptable outcome Hence the situation of dilemma always involves an issue of moral responsibility and the problem of dirty hands How such situations are present in legal practice and how to deal with them is the main concern of this part The considerations are divided into three levels of reflection deontological axiological and moral responsibility The practical part of the book contains an overview of 150 dilemmas that can be useful in legal ethics or other legal courses The dilemmas are divided into chapters covering the following branches of law criminal law civil and commercial law family and custody law labour and social security law and constitutional law Every dilemma presents a description of the facts a reconstruction of dilemma its standard solution and some critical remarks from a meta ethical perspective The dilemmas cover situations regularly met in everyday practice as well as examples of more exceptional challenges in connection with constitutional crises that have occurred in Poland in recent years **Human Rights and the Dark Side of Globalisation** Thomas Gammeltoft-Hansen, Jens Vedsted-Hansen, 2016-12-08 This book examines the

continued viability of international human rights law in the context of extraterritorialisation outsourcing and privatisation of law enforcement tasks New forms of state cooperation raise difficult questions about divided shared and joint responsibility under international human rights law This book brings together some of the most authoritative legal voices to provide an introduction to core issues such as state responsibility attribution and extraterritorial jurisdiction as well as up to date case studies of different transnational law enforcement issues It will interest students scholars and practitioners of IR human rights and public international law

Responsibility Sharing in International Refugee Law Elizabeth Mavropoulou, 2025-09-25 Achieving a more fair and equitable sharing of refugee protection responsibilities between states has been a perennial challenge of the global refugee regime The Refugee Convention did not codify a legal obligation of responsibility sharing and as a result any assistance to refugee host states remains voluntary This responsibility sharing gap has in turn negatively impacted on the quality of refugee protection and on interstate relations by exacerbating existing inequalities undermining the fairness of the international refugee law regime This book offers a pragmatic yet principled solution to the responsibility sharing gap It puts down a detailed proposal for the long resisted UN Protocol on Responsibility Sharing which would codify a light package of responsibility sharing obligations by requiring states to contribute to refugee protection and solutions under a framework of common but differentiated responsibilities based on capabilities Building on the Global Compact on Refugees and drawing inspiration from international climate change law the book makes a compelling case for further multilateral law making

the resilience and endurance of the moral responsibility system indicates a hidden force that not only binds together the pieces of the system but also motivates our stubborn devotion to that system That hidden force is a nonconscious desire to be a god a desire that afflicts both believers and atheists and that is almost universally denied Nietzsche being a special exception That desire can be found throughout the history of philosophy from Aristotle to the present It is also manifested in myths and a variety of religious practices and teachings The breadth power and harm of nonconscious apotheosis aspiration is the focus of this study
