Quest For Community:

The Quest for Community Robert Nisbet, 2023-03-28 One of the leading thinkers to emerge in the postwar conservative intellectual revival was the sociologist Robert Nisbet His book *The Quest for Community* published in 1953 stands as one of the most persuasive accounts of the dilemmas confronting modern society Nearly a half century before Robert Putnam documented the atomization of society in *Bowling Alone* Nisbet argued that the rise of the powerful modern state had eroded the sources of community the family the neighborhood the church the guild Alienation and loneliness inevitably resulted But as the traditional ties that bind fell away the human impulse toward community led people to turn even more to the government itself allowing statism even totalitarianism to flourish This edition of Nisbet's magnum opus features a brilliant introduction by New York Times columnist Ross Douthat and three critical essays Published at a time when our communal life has only grown weaker and when many Americans display cultish enthusiasm for a charismatic president this new edition of *The Quest for Community* shows that Nisbet's insights are as relevant today as ever The Quest for Community and Identity Robert E. Birt, 2002 This collection of essays engages two of the most fundamental social and political issues of our time community and identity Wrestling with the perplexities of these two issues within the Africana world the contributors delve into the influences of a postmodern world of globalization with outdated crumbling forms of identity and sociality In the wake of such an order new forms of identity and community must be established Birt has collected an informed group of contributors here who lay the foundation for a new approach to finding community and identity in the Africana world *The Quest for Community* Robert A. Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986, 1988 The Healing Power of Community Lusijah Marx, Graham Harriman, Robin McCoy Brooks, 2024-07-04 The Healing Power of Community offers a diverse cross section of interdisciplinary and depth psychological perspectives in support of using mutual aid approaches in all levels of group and community practice as a remedy for individualism and social and political divisions centering social justice Written by three distinct voices who collaborated at the height of the AIDS crisis the book begins with an autoethnographic study of Project Quest an HIV AIDS clinic established in 1989 before looking at how the lessons learnt from this clinic can be applied to our current global mental health climate Filled with clinical and theoretical applications chapters include content on what mutual aid communities are rethinking professionalism and boundaries in a crisis healing collective trauma group psychotherapy psychodrama depth psychology and how mental health professionals can support radical change of key structures in nonprofit clinics public administration private practice and research Arguing for their approach of radicalizing mental health and community based practice today the book examines how this can be achieved by moving beyond individual level approaches creating new frameworks to meet the mental health needs of our era in creative ways This book is designed to engage clinical social workers and mental health care clinicians working in community based mental health as well as those involved in community psychology collective trauma and grief HIV AIDS advocacy policy making and political advocacy *Community Benefits* Jovanna Rosen, 2023-03-14 In Community Benefits Jovanna P Rosen explores a new pattern in urban development local residents and community representatives leveraging large scale development projects for agreements that promise dedicated local benefits such as parks and jobs In general such development projects have not produced impactful benefits for local residents and often have contributed to significant community harm including gentrification and displacement In response community activists have launched a fight to control development using benefits sharing agreements to ensure that projects produced better outcomes for local residents While such agreements now exist across the nation the process of negotiating and enforcing them remains challenging This book dives deep into four case studies in Los Angeles Atlanta Seattle and Milwaukee to answer the following questions Who ultimately benefits from both the agreements and the projects in question How do benefits get delivered and who controls this process What works for these agreements to successfully produce community outcomes Rosen shows that without agreements that promote accountability developers and other project proponents can walk away from the negotiating table once the agreement is signed and the development moves forward This disregard for community benefits and priorities can

leave community residents solely responsible for benefits delivery during implementation but with few viable avenues to ensure that outcomes materialize The cases reveal specific elements that agreements require to achieve success during implementation community participation managerial connections effective partnerships responsiveness and vigorous oversight with accountability mechanisms Although creating these conditions is difficult sometimes impossible and contingent on fragile processes Rosen concludes the book with recommendations for both the agreement negotiation and implementation phases to ensure success

Community and Conflict D. Edyvane, 2007-04-25 Rather than undermining it this book argues that moral conflict is necessary for a liberal political community It develops a new philosophical basis for political association based on an innovative account of the way journey narratives in literature shed light on the possibilities for solidarity in modern democratic societies

The Quest for Community Robert Alexander Nisbet, 1971

Community Schools in Africa Deborah Glassman, Jordan Naidoo, Fred Wood, 2007-04-24 Over the past decade community schools similar to those supported by Save the Children have been established in many developing countries and especially in sub Saharan Africa As large numbers of children attend schools started and managed by their own communities and or by nongovernmental organizations questions have come up about the impact of such schools at large scale Can village based or community schools have a national impact on access to education spur improved long term development strategies and education policy or achieve or influence Education for All This book explores these and related questions drawing on Save the Children s experience with community based schooling in four countries Ethiopia Malawi Mali and Uganda The literature on community schools in Africa tends to be sparse repetitive and highly descriptive with little or no sustained critique of practice This book fills a substantial gap in the education literature and is particularly timely given the current emphasis on decentralization and community involvement in education
