## Quest For Moral Law:

*The Quest for Moral Law* Louise Saxe Eby, 1950      *On Moral Law and Quest for Selfhood* Mohan Parasain, 2016-07-15

This book offers an original intersection of concepts from Immanuel Kant's moral command ethics and Søren Kierkegaard's existential ethics. The Kantian formulation of moral law is based on theoretical ground while Kierkegaardian ethics of the quest for selfhood views it as the very act of living. The present work provides an account of both these perspectives and questions whether these approaches to morality are mutually exclusionary. Using Slavoj Žižek's parallax view in the realm of morality, it argues that moral philosophy must engage with a constant critique of difference around which the transformation of our various perspectives to morality revolves. This work appeals for furtherance of the conversation model and participation of perspectives to transcend positional confinement. It advocates the traversing of the ethical parallax to allow for intellectual openness and an empathetic perception of the other. Engaging and well researched, this book will be of interest to scholars and researchers of ethics, political philosophy, and continental philosophy.

*The Assembly's Shorter Catechism Explained*, 1769      *The Turkish Novel and the Quest for Rationality* Ayşe Özge Kocak Hemmat, 2019-02-04. The Turkish Novel and the Quest for Rationality is the first book to contextualize the Turkish novel with regard to the intellectual developments motivating the Turkish modernization project since the 18th century. The book provides a dialectical narrative for the emergence and development of the Turkish novel in order to highlight the genre's critical role within the modernization project. In doing so, it also delineates the changing forms the novel assumes in the Turkish context, from a platform for new literature to a manifestation of crisis in the face of totalizing rationality. Vis-à-vis modernization's engagement with rationality, *The Turkish Novel and the Quest for Rationality* reveals unexplored ways of conceptualizing the development of the genre in non-western contexts.
