Progress in the Quest for Peace and Freedom United States. Department of State. Bureau of Public Affairs, R. REAGAN, 1983 *Narrativized Strategic Choice* John P. DeRosa, 2020-07-23 In February 1919 Donald Trump announced the United States withdrew from the landmark Cold War era Intermediate Range Nuclear Forces Treaty with Russia sparking worldwide concerns over the specter of a new nuclear arms race The rational actor and game theoretic models dominating international relations literature failed to predict or explain this strategic choice Rationalist normative and materialist models of strategic choice saturate the study of international relations Scholars continue to expose the shortfalls in these approaches in explaining or predicting outcomes of strategic interactions In this timely study John P DeRosa advances a new model of strategic choice through a narrative lens This narrative turn reframes the logic to emphasize the propositions of motives perceptions preferences and the reflexive interaction of strategic choices Case studies of American and Russian nuclear arms control treaties from the negotiations of the Intermediate Range Nuclear Forces INF Treaty in 1987 to the crisis of the US withdrawal from the INF Treaty in 2019 support building a theory of narrativized strategic choice **Studies in Progress Or Recently Completed**, 1963 **American Foreign Policy Current Documents**, 1982 India and the World Nursingdas Agarwalla, 1952 Three Decades of Peace Education around the World Robin J. Burns, Robert Aspeslagh, 2014-01-14 First Published in 1996 The current world order poses new challenges to the theory and practice of peace education Drawing on data gathered from around the world Burns and Aspeslagh focus on how peace is presented in formal and informal educational settings and what effects ideologies have in shaping that presentation The book views peace education in the context of education about other major social and political issues and in a variety of geopolitical settings exploring factors that affect the generation selection organization transmission and evaluation of knowledge for peace Following a review of major approaches to policy and praxis in peace education the editors draw on original research to offer interpretations based on pragmatic normative and conceptual approaches to the individual the state and the role of political literacy The use of a comparative educational framework that goes beyond curriculum studies and descriptive case studies presents a perspective that is innovative and timely The volume includes both bibliography and index **Studies in Progress Or Recently Completed** United States Department of State. External Research Staff, 1963 **Social Progress**, 1918 **The Development Dictionary** Wolfgang Sachs, 2019-09-15 The original critical guide to key concepts in development studies from some of the world s most eminent critical development scholars and practitioners Each essay in this now classic collection examines one key development concept from the environment to needs and progress to production Each concept is reviewed from a historical and anthropological point of view with particular bias and intellectual flaws being highlighted Overall the authors argue that we must bid farewell to the whole idea of Eurocentric development in order to liberate people s minds in both North and South and to mobilize for bold responses to the environmental and ethical challenges now confronting humanity The result is an indispensable resource for scholars practitioners movements and

students of development which invites us to recognize the tinted glasses we put on whenever we participate in the development discourse

Towards Progress and Peace Otto Newman, Richard De Zoysa, 2005-05 Globalization has brought wealth and progress to most of the world At the same time population levels have mushroomed urban centers greatly expanded inequalities sharpened and with the poor and workless aggrieved at the widening gap resistance has often turned violent Though terrorism is multi causal the urban ghettos provide ready made recruiting ground for insurgents The cause of social justice and human rights has visibly faltered under the impact of intensifying competition political radicalization together with the upsurge of fundamentalist creeds Manifestly time has come to take stock before tensions will worsen Alarming as portends may seem as events such as the Ukrainian Orange Revolution as well as the spontaneous aid initiatives in response to the tsunami disaster demonstrate it is no less apparent that one can look forward towards realistic prospects for progress and peace

Ambassadors of Social Progress Maria Cristina Galmarini, 2024-02-15 Ambassadors of Social Progress examines the ways in which blind activists from the Soviet Union and Eastern Europe entered the postwar international disability movement and shaped its content and its course Maria Cristina Galmarini shows that the international work of socialist blind activists was defined by the larger politics of the Cold War and in many respects represented a field of competition with the West in which the East could shine Yet her study also reveals that socialist blind politics went beyond propaganda When socialist activists joined the international blind movement they initiated an exchange of experiences that profoundly impacted everyone involved Not only did the international blind movement turn global disability welfare from philanthropy to self advocacy but it also gave East European and Soviet activists a new set of ideas and technologies to improve their own national movements By analyzing the intersection of disability and politics Ambassadors of Social Progress enables a deeper bottom up understanding of cultural relations during the Cold War Galmarini significantly contributes to the little studied history of disability in socialist Europe and ultimately shows that disability activism did not start as an import from the West in the post 1989 period but rather had a long and meaningful tradition that was rooted in the socialist system of welfare and needed to be reinvented when this system fell apart
