Questions And Answers About Chinas National Minorities:

Questions and Answers about China's Minority Nationalities Yin Ma,1985 Cultural Encounters on China's Ethnic Frontiers Stevan Harrell,2011-12-01 Open access edition DOI 10.6069/9780295804088 China's exploitation by Western imperialism is well known but the imperialist treatment within China of ethnic minorities has been little explored. Around the geographic periphery of China as well as some of the less accessible parts of the interior and even in its cities live a variety of peoples of different origins, languages, ecological adaptations, and cultures. These people have interacted for centuries with the Han Chinese majority, with other minority ethnic groups, and with non-Chinese but identification of distinct groups and analysis of their history and relationship to others still are problematic. *Cultural Encounters on China's Ethnic Frontiers* provides rich material for the comparative study of colonialism and imperialism and for the study of Chinese nation building. It represents some of the first scholarship on ethnic minorities in China based on direct research since before World War II. This combined with increasing awareness in the West of the importance of ethnic relations makes it an especially timely book. It will be of interest to anthropologists, historians, and political scientists as well as to sinologists.

China's Quest for National Identity Lowell Dittmer, Samuel S. Kim, 2018-07-05 How to define a Chinese national identity remains as hotly contested a question among today's Chinese citizens as it has been among foreign observers. This volume brings together ten new essays by an interdisciplinary group of leading sinologists and offers a comprehensive framework for understanding the nature of Chinese national identity in past and contemporary settings. **Questions and answers about China's national minorities** Yin Ma, 1985 Social Scientific Studies of Religion in China Fenggang Yang, Graeme Lang, 2011-01-27 This book provides a sampling of recent field studies of religions in China along with theoretical reflections by sociologists, anthropologists, and religious studies scholars both inside and outside China on the revival of the social scientific study of religion in Chinese societies. **The National Question** Berch Berberoglu, 2009 This volume examines the volatile nature and complex dynamics of national movements and ethnic conflict around the world.

An Ethnohistorical Dictionary of China James S. Olson, 1998-02-24 Since Deng Xiaoping's economic reforms began in the early 1980s, the People's Republic of China has rejoined global politics as a world power. The country is likely to become more open, and its internal politics will no doubt affect the rest of the world. With more than 1.2 billion people divided into hundreds of ethnic groups, all dominated by the Han people, China's politics and its foreign policy are bound to be affected by ethnicity and ethnic rivalry. This book is designed to give librarians, students, scholars, and educated readers a ready reference for background information of interpreting ethnic events in China. Generally defining ethnicity in terms of language, this book provides individual essays on hundreds of Chinese ethnic groups, including ethnic groups living in the Republic of China on Taiwan. The book also includes a chronology, bibliography, and a breakdown of the People's Republic of China's ethnic political subdivisions. *De-politicization of Ethnic Questions in China* Lizhong Xie, 2013-12-30 De-politicizing issues of ethnicity is a

new theoretical approach to study ethnic questions actively propounded and elaborated by Professor Ma Rong of Sociology Department of Peking University in the past ten years In the recent years this theoretical approach has aroused biggish responses from the academic community in Mainland China the relevant government departments and the general public It is likely to elicit vigorous discussions in the years ahead The book contains eight selected chapters which represent the main contributions to the debate The first chapter by Ma Rong is the key paper where in he lays out his main ideas and arguments The remaining chapters deal with both positive and negative responses to the first chapter and his replies to them

Ethnicity and the State Judith D. Toland, 2017-07-28 Modern states have evolved as complex political structures in which unitary forms of government maintain an uncertain equilibrium with ethnically plural societies Historically ruling elites have tried with little success to eradicate ethnicity through genocide bury it under accusations of tribalism discredit it with

the mind frame of modernization or confine it to local rather than national political arenas This broad ranging volume examines the dynamics of ethnic manipulation and accommodation by dominant and subordinate groups in the state building process Ethnicity and the State reflects the widely varying political contexts and cultures in which reasons of state contend with unyielding ethnic allegiances European South American Asian and Middle Eastern examples reveal a consistent set of themes and attitudes The authors find that while the state must realize its authority and stability through a strictly defined charter of rights and values ethnic identity exercises its power more freely and flexibly The sense of peoplehood may be artificially constructed in response to immediate need or it may be ancient and organic growing over time It has the potential to cut across race class and gender Its central tenets and myths may be reinterpreted recreated enlarged upon or modified as the political situation warrants Flexibility of belief and the need to identify with a larger group account both for the durability of ethnic loyalty and its vulnerability to manipulation This volume is particularly timely at a moment when national governments in many parts of the world must face the adoption of more equitable forms of rule to hold their ethnically diverse societies together Taken together the analyses presented here warn against institutionalizing ethnic strife and offer a vision of how the state may foster expectations and policies that serve the interests of all ethnic groups within their borders Political scientists historians and anthropologists will find this book valuable for its interpretations of forces that continue to reshape the social and political fabric of the world **China's National Minority Education** Gerard A.

Postiglione,2013-10-15 This volume focuses on policies and practices in the education of China s national minorities with the purpose of assessing the goals and impact of state sponsored education for China s non Han people s The essays in the four sections of this book examine cultural challenges to state schooling the extent of educational provision in minority areas the perspectives of Tibetan and Uyghur minorities toward state education along with providing case studies of four national minorities The book makes the point that despite the authoritarian character of China s state schooling diversity reigns
