Questions Of Power The Politics Of Womens Madness Narratives:

Questions of Power Susan J. Hubert, 2002 Questions of Power The Politics of Women's Madness Narratives explores the ways in which women have used autobiographical writing in response to psychiatric symptoms and treatment. By addressing health and healing from the patient's perspective, the study raises questions about psychiatric practice and mental health policy. The ultimate thesis is that autobiographies by women psychiatric patients can expose many of the problems in psychiatric treatment and indicate directions for change. Narrative of Suffering: Meaning and Experience in a Transcultural Approach Lolita Guimarães Guerra, Jose A. Nicdao, 2019-01-04 This volume was first published by Interdisciplinary Press in 2014. This volume explores how people come to terms with suffering, how they experience the mystery of this human condition, and how future studies can shed some further light on the topic. Various perspectives are represented here, such as the use of narratives to delve into the reality of suffering, the emotional trauma that suffering brings, the narrative process which manifests phenomenology and intersubjectivity, and the emergence of gendered models of suffering. These approaches derive from multiple fields of research, creating a multi-perspectival view of suffering that transcends long-held disciplinary boundaries and stimulates a broader dialogue within contemporary scholarship on suffering-related themes. Such plurality points out that, in the end, despite its negative connotations, suffering positively affects individuals and society as it enables recognition of common bonds that link all people from all nations and all races. Compassion and sympathy leads to a transcendence that this book seeks to highlight.

The Politics and Aesthetics of Refusal Caroline Hamilton, Michelle Kelly, Elaine Minor, 2009-03-26 The Politics and Aesthetics of Refusal is an eclectic collection of essays from emerging academics who engage with the notion of refusal both as the embodiment of a resistance to conventional boundaries between academic disciplines and as a concept with an underlying negative or reactive force that can be widely interpreted and applied. The applications of refusal outlined in this volume range from activism and the politics of cultural production through to problems of identity and knowledge classification, raising questions about often elided relationships of agency and complicity in routine experience. The sense of refusal that emerges from this book is perhaps most easily classified by what it is not: namely, a prescriptive, conclusive, or unified account of what it is to reject, react, or work against any particular instance of theory or practice in any given domain. The value of a thematically oriented collection like this is its ability to work across disciplines, media, and philosophical frameworks rather than limiting its focus to a narrow territory. According to Herbert Marcuse, refusal must not only be the guiding principle for all artistic creation; it must also be a manifestation of artistic creation itself. With this volume, we have attempted to compose a collection which is not only theoretically guided by refusal but practically informed by it as well. The collection, in itself, constitutes, we hope, a constructive rejection of the usual constrictions of discipline and approach placed upon new scholars. This rich collection of essays on the

political aesthetic and ethical dimensions of that form of social action called refusal is an important contribution to our understanding of the tensions and contradictions of contemporary culture John Frow Professor of English Literary Studies at the University of Melbourne

Madness in Context: Historical, Poetic and Artistic Narratives Gonzalo Araoz, 2020-10-12

Elizabeth Packard Linda V. Carlisle, 2010-11-15 Elizabeth Packard's story is one of courage and accomplishment in the face of injustice and heartbreak In 1860 her husband a strong willed Calvinist minister committed her to an Illinois insane asylum in an effort to protect their six children and his church from what he considered her heretical religious ideas Upon her release three years later as her husband sought to return her to an asylum Packard obtained a jury trial and was declared sane Before the trial ended however her husband sold their home and left for Massachusetts with their young children and her personal property His actions were perfectly legal under Illinois and Massachusetts law Packard had no legal recourse by which to recover her children and property This experience in the legal system along with her experience as an asylum patient launched Packard into a career as an advocate for the civil rights of married women and the mentally ill She wrote numerous books and lobbied legislatures literally from coast to coast advocating more stringent commitment laws protections for the rights of asylum patients and laws to give married women equal rights in matters of child custody property and earnings Despite strong opposition from the psychiatric community Packard's laws were passed in state after state with lasting impact on commitment and care of the mentally ill in the United States Packard's life demonstrates how dissonant streams of American social and intellectual history led to conflict between the freethinking Packard her Calvinist husband her asylum doctor and America's fledgling psychiatric profession It is this conflict along with her personal battle to transcend the stigma of insanity and regain custody of her children that makes Elizabeth Packard's story both forceful and compelling

Fuentes-Vásquez, 2013 This book examines the literary construction of personal identity through autobiographical narratives by three significant writers analysed together for the first time the Scottish Willa Muir 1890 1970 the Canadian Margaret Laurence 1926 1987 and the New Zealander Janet Frame 1924 2004 These apparently dissimilar authors suffered not only geographical but also political marginality they were women from the working class or struggling middle class striving to be considered as professional writers and emerging from countries that might be felt to be under the shadows of economic and political world powers such as England and the United States During their lifetimes they exerted themselves to overcome prejudices about class gender and ethnicity They experienced war and the post war era and lived through most of the twentieth century being accurate witnesses and critics of their times As it discusses major writers who are iconic for the development of the literatures of their respective countries this book also attracts readers who are interested in learning more about the lives of these remarkable women the way their socio historical and geographical circumstances affected their writing and how they expressed such concerns in their autobiographies and other fictional and non fictional works besides considering them in relation to contemporary women writers and autobiographers who underwent similar experiences

Psychiatry, Mental Institutions, and the Mad in Apartheid South Africa Tiffany Fawn Jones, 2012 This book is an examination of South African mental institutions and policy from 1939 1994 It examines how racial gender and sexual discrimination affected practitioners views and practices and also reveals the role that patients and international events played in shaping mental health policy **The Gendering of Madness in Victorian and Modern England and America** Leslie Ann Harper, 2023-12-20 Various scholars have addressed the association between women and mental illness in Victorian and Modern culture however little attention has been devoted to how this association impacted the lives of actual women This book analyzes how the gendered construction of mental illness affected the lives of individual women living in Victorian and Modern England and America The study reveals that the cultural association between women and madness made women vulnerable to unwarranted institutionalization Women who rebelled against social conventions were particularly at risk and the public was aware of this risk In addition to analyzing how the public responded to the threat of unnecessary incarceration the book analyzes how women responded to incarceration themselves Moreover it explores how some women who experienced mental illness responded to the treatment they received This study ultimately reveals that some women actively protested the diagnoses and treatments for mental illness **Sylvia Plath's Fiction** Luke
