Turner, 2014-01-02 What makes human beings so innovative so adept at rapid creative thinking Where do new ideas come from and once we have them how can we carry them mentally into new situations What allows our thinking to range easily over time space causation and agency so easily that we take this truly remarkable ability for granted In *The Origin of Ideas* Mark Turner offers a provocative new theory to answer these and many other questions While other species do what we cannot fly run amazingly fast see in the dark only human beings can innovate so rapidly and widely Turner argues that this distinctively human spark was an evolutionary advance that developed from a particular kind of mental operation which he calls blending our ability to take two or more ideas and create a new idea in the blend Turner begins by looking at the lionman a 32 000 year old ivory figurine one of the earliest examples of blending Here the concepts lion and man are merged into a new figure the lionman Turner argues that at some stage during the Paleolithic Age humans reached a tipping point Before that we were a bunch of large unimaginative mammals After that we were poised to take over the world Once biological evolution hit upon making brains that could do advanced blending we possessed the capacity to invent and maintain culture Cultural innovation could then progress by leaps and bounds over biological evolution itself leading to the highest forms of human cognition and creativity For anyone interested in how and why our minds work the way they do *The Origin of Ideas* offers a wealth of original insights and is itself a brilliant example of the innovative thinking it describes

**My Kind of Food** John Torode,2015-09-10 My Kind of Food is a very personal book from John Torode full of the food that he loves to cook and eat recipes that he makes away from the cameras and professional kitchens In John's words My world as I know it started with my Nanna's roasting tin a chicken and a wooden spoon The food she cooked was always simple but delicious Her cauliflower cheese was awesome her caramel slice wonderful and I am still searching for a recipe to make her apple tea cake So life started simply for me

Since then I have cooked in professional kitchens run my own restaurants and done a lot of telly Some of you may have eaten in my restaurants some may have seen me on MasterChef but I guess that not many of you know what I really cook for myself and my friends and family This book is about how I cook at home and the chapters reflect me and the things in life I love how I eat and how I cook At its heart it is simple but it s definitely also influenced by my years in restaurant kitchens I don t tend to define my food by type or style I guess you could say that these are my real favourites a behind the scenes look at my own kitchen BRUNCH TO LUNCH The Aussie in me is all about eating through the morning My perfect day starts slowly if breakfast is the meal of kings then brunch is the food of emperors FOR THE FAMILY Although I am a professional cook I have a number of dishes that I rely on at home They are all tried and tested some are posh some are simple but all are favourites IN A RUSH I cook every day but sometimes it needs to be quick and easy But there s no reason why a quick meal should not be tasty STORES AND LEFTOVERS Great food is created from necessity Open your cupboards and look for the potential in your fridge For many a minefield but for me a gold mine These are the recipes I know well from being a boy and watching in wonder what could be made with a bit of this and a bit of that Not complicated just delicious ALL OUTSIDE Well I am an Aussie Some of the best food in the world is cooked outside where having fun is as important as cooking AND TO FINISH I love a good dessert A proper steaming pudding with thick custard or real ice cream It s all about being a kid and not caring about sugar and spice Cakes and tarts and pies and lots of them *George's World* G.E.
